No. 18. Poor Rate Return—Year ended Lady-day, 1853 92

No. 19. Comparative Statement of the Expenditure for the Relief of the Poor in England and Wales for the Years ended Lady-day, 1852 and 1853 134

No. 20. & 21. Statement showing the Amount of Money expended for In-maintenance and Out-door Relief in Unions and single Parishes, under the Poor Law Amendment Act, in England and Wales, during the Half-years ended Lady-day 1852 and 1853, and the Half-years ended Michaelmas 1852 and 1853 135

No. 22. Table showing the estimated Population, the Amount of Money levied for Poor Rates, and the Amount expended for the Relief and Maintenance of the Poor in England and Wales, for the Years ended at Lady-day, 1834 to 1853, both inclusive; with the Rate per Head of the amount levied and expended for Relief to the Poor, on the estimated Population, the Rate in the Pound of Expenditure for Relief to the Poor on the Annual Value of Rateable Property in 1847; and the Average Price of Wheat per Quarter in each Year 140

No. 23. Statement showing the Total Amount of Money levied for Poor Rates in England and Wales in each year from 1813 141

No. 24. Summary of Returns received from 598 Unions and single Parishes under Boards of Guardians in England and Wales, showing the Number of Paupers (In-door and Out-door) of all Classes in receipt of Relief on the 1st of January 1853 144

No. 25. Summary of Returns received from 611 Unions and single Parishes under Boards of Guardians, showing the Number of Paupers of all Classes in receipt of Relief on the 1st of July 1853 148

No. 26. Summary of Returns received from 614 Unions and single Parishes under Boards of Guardians, showing the Number of Paupers of all Classes in receipt of Relief on the 1st of January 1854 . . . 152

No. 27. Statement showing the Total Number of Paupers (In-door and Out-door) in receipt of Relief on the 1st January 1852 and the 1st January 1853 in 608 Unions and Parishes under Boards of Guardians in England and Wales 156

No. 28. Statement showing the Number of Adult Able-bodied Paupers (Male and Female), exclusive of Vagrants, in receipt of Relief on the 1st January 1852 and the 1st January 1853 in 608 Unions and Parishes in England and Wales 157

No. 29. Statement showing the Total Number of Paupers (In-door and Out-door) in receipt of Relief on the 1st July 1852 and the 1st July 1853 in 616 Unions and Parishes under Boards of Guardians in England and Wales 158

Page

No. 30. Statement showing the Number of Adult Able-bodied Paupers (Male and Female) in receipt of Relief on the 1st July 1852 and the 1st July 1853 in 616 Unions and Parishes in England and Wales, exclusive of Vagrants 159

No. 31. Statement showing the Total Number of Paupers (In-door and Out-door) in receipt of Relief on the 1st January 1853 and the 1st January 1854 in 618 Unions and single Parishes under Boards of Guardians in England and Wales 160

No. 32. Statement showing the Number of Adult Able-bodied Paupers (Male and Female), exclusive of Vagrants, in receipt of Relief on the 1st January 1853 and the 1st January 1854 in 618 Unions and single Parishes in England and Wales 161

No. 33. Comparative Statement of the Number of Paupers of all Classes in receipt of Relief on the 1st January 1849, 1850, 1851, 1852, 1853, and 1854, and on the 1st July 1849, 1850, 1851, 1852, and 1853, in certain Numbers of Unions in England and Wales . . . 163

No. 34. Statement showing the Average Number of Children attending the Schools of the Union Workhouses in England and Wales during the Half-year ended at Lady-day 1853, the Amount of Money paid to Boards of Guardians from the Parliamentary Grant in respect of the Salaries of Teachers for the Year ended at Lady-day 1853, and also the Population of each Union in 1851 165

No. 35. Statement of the Number of Poor Persons who have been authorized to Emigrate at the Cost of Parishes, and of the Sums which the Poor Law Board have authorized to be raised or borrowed for the purpose, from the 1st January to the 31st December 1853 . . 179

No. 36. Statement of the Number of Poor Persons who have been authorized to Emigrate at the Cost of the Common Fund, from the 1st of January to the 31st of December 1853 182

No. 37. List of Unions and Parishes for which Workhouses have been ordered by the Poor Law Board to be built or adapted, with the Sums authorized to be expended, from the 1st of January to the 31st December 1853 183

No. 38. List of Unions in which Parish Property has been sold, and the Produce appropriated under Orders of the Poor Law Board . . 185

No. 39. Statement showing the Purposes to which the Produce of the Sale of Parish Property has been directed to be applied, of such part of the Property in the former Reports as was not previously applied, from the 1st January to the 31st December 1853 187

No. 40. Statement.—New Unions formed by the Poor Law Board . . 189

No. 41. Statement showing the Number and Subjects of Orders issued by the Poor Law Board from the 1st January to the 31st December 1853 191

No. 42. Vaccination Extension Act.—Abstract of Returns from 638 Unions and Parishes under Boards of Guardians, in England and Wales, of the Number of Persons vaccinated in such Unions and Parishes in the Year ended 29th September 1853 193

REPORT.

To the Queen's Most Excellent Majesty.

Poor Law Board, Whitehall,
December 31, 1853.

May it please Your Majesty,

We, the Poor Law Board, beg leave to submit to Your Majesty the following Report of our proceedings for the past year :

In doing so we purpose to adhere to the arrangement of subjects observed in preceding Annual Reports, and having stated the amount of the expenditure during the past year for the relief of the poor, and the number of persons relieved, to advert to such other points connected with the administration of the poor laws as it appears to us desirable to notice.

Amount expended for Relief.

It will be seen from the Poor Rate Returns, summaries of which are inserted in the Appendix, that the *amount expended* for the relief of the poor, during the year ending at Lady-day 1853 (the date to which the Annual Poor Rate Return is made out), is 4,939,064*l.*, being an increase of 41,379*l.* as compared with the sum expended for the preceding year.

The following Table shows the expenditure for the past and preceding years, as well as the total increase, the increase per cent., and the increase per head on the population in 1853 as compared with 1852.

Years ended Lady-day.	Expended for Relief of the Poor in England and Wales.	Increase in 1853, as compared with 1852.	Increase per Cent.	Rate per Head on Population.	Increase per Head in 1853, as compared with 1852.
	£	£		*s.* *d.*	*s.* *d.*
1852	4,897,685	41,379	0·8	5 5½	0 0½
1853	4,939,064			5 6	

Note.—The Poor Rate Return inserted in the Appendix (pages 92 to 133) sets forth the expenditure, the total of which is shown in the above Table, more in detail. It shows the amount expended for "in-maintenance" (column 1.)

The year ending at Lady-day 1853 is the first since that ending at Lady-day 1848 which shows an increase in the expenditure. We believe that this increase is mainly attributable to the higher price of provisions, and not to an increase in the amount of pauperism, as will be seen from the returns of the number of persons in receipt of relief on the 1st of January and the 1st of July respectively in each of the two years ending at Lady-day 1852 and 1853.

Although the total of the expenditure for the relief of the poor in England and Wales thus shows an increase on the year ended at Lady-day 1853 as compared with the year ended at Lady-day 1852, we find that in some of the counties the expenditure has decreased.

The following are the rates per cent. of the *increases* and *decreases* on the expenditure of 1853, as compared with 1852, in the several counties of England and Wales :—

Increase per cent. :—

Bedford	6·9	Huntingdon	4·4	Suffolk	3·9
Berks	2·5	Kent	1·0	Surrey	1·4
Buckingham	3·1	Lincoln	2·8	Sussex	2·5
Cambridge	4·6	Middlesex	2·3	Wilts	2·9
Chester	2·0	Monmouth	10·0		
Cornwall	0·1	Norfolk	4·4	Cardigan	0·4
Cumberland	2·4	Northampton	1·7	Carmarthen	5·0
Derby	3·4	Nottingham	1·9	Carnarvon	3·6
Devon	0·4	Oxford	1·7	Denbigh	0·7
Dorset	1·2	Rutland	3·1	Flint	5·2
Essex	4·6	Somerset	3·6	Merioneth	12·0
Gloucester	0·9	Southampton	2·6	Pembroke	0·1
Hertford	1·2	Stafford	2·8	Radnor	1·3

Decrease per cent. :—

Durham	0·3	Warwick	3·1	Anglesey	3·8
Hereford	1·1	Westmorland	1·8	Brecon	2·0
Lancaster	6·1	Worcester	0·5	Glamorgan	1·1
Leicester	3·6	York (E. Riding)	10·2		
Northumberland	2·2	York (N. Riding)	1·8		
Salop	3·0	York (W. Riding)	2·2		

The expenditure of 1853, although higher than that of 1852, is lower than the expenditure of any other year since 1842 ; and, taking the rate per head of the expenditure on the population, the expenditure of 1853 is lower in that respect than that of any year, excepting 1852, since 1838. The following Table shows the expenditure for every year

---

" out relief" (column 2.), and " other purposes immediately connected with relief" (column 3.) Those " other purposes " comprehend the salaries of all Poor Law Officers (assistant overseers and collectors excepted), the repayment of money borrowed for building and altering workhouses, the cost incurred for emigration, for the maintenance of lunatics in asylums, for extra medical relief and fees, and for the burial of paupers.

from 1834, when the Poor Law Amendment Act was passed, to 1853 :—

Years ended at Lady-day.	Population estimated according to the Ratio of Increase which prevailed between 1831 and 1841 and the actual Population of 1851.	The Total expended in Relief to the Poor.	Rate per Head of Amount expended in Relief to the Poor on the Estimated Population.		Rate in the Pound of Expenditure for Relief to the Poor in each Year, calculated on the Annual Value of Rateable Property in 1847.	
		£	s.	d.	s.	d.
1834	14,372,000	6,317,255	8	9½	1	10½
1835	14,564,000	5,526,418	7	7	1	7¾
1836	14,758,000	4,717,630	6	4¾	1	4¾
1837	14,955,000	4,044,741	5	5	1	2½
1838	15,155,000	4,123,604	5	5¼	1	2¾
1839	15,357,000	4,406,907	5	8¾	1	3¾
1840	15,562,000	4,576,965	5	10½	1	4¼
1841	15,906,741	4,760,929	6	0½	1	5
1842	15,981,000	4,911,498	6	1¾	1	5½
1843	16,194,000	5,208,027	6	5¼	1	6½
1844	16,410,000	4,976,093	6	0¾	1	5¾
1845	16,629,000	5,039,703	6	0¾	1	6
1846	16,851,000	4,954,204	5	10½	1	5¾
1847	17,076,000	5,298,787	6	2½	1	7
1848	17,304,000	6,180,764	7	1¾	1	10
1849	17,534,000	5,792,963	6	6½	1	8¾
1850	17,765,000	5,395,022	6	1	1	7¼
1851	17,927,609	4,962,704	5	6½	1	5¾
1852	17,928,000	4,897,685	5	5½	1	5½
1853	17,929,000	4,939,064	5	6	1	5½

The preceding statement of the cost of relief is based on the Annual Poor Rate Return, which is made up for the year ending at Lady-day, and which alone contains all the items of expenditure connected with the relief of the poor for every place in England and Wales, whether governed under the Poor Law Amendment Act or under any other Act General or Local.

We receive, however, from Unions and places under the Poor Law Amendment Act returns of the money expended in actual relief, both in-door and out-door, for the half years ending at Michaelmas, as well as those ending at Lady-day. The following Table exhibits a summary of these returns for the year ended at Michaelmas last, the two half years (Lady-day and Michaelmas) being added together : —

Number of Unions.	Years.	Expended for In-Maintenance and Out-Relief.		
		In-Maintenance.	Out-Relief.	Total.
		£	£	£
610	Year ended Michaelmas 1852 -	619,623	2,584,154	3,203,777
	Year ended Michaelmas 1853 -	674,128	2,565,896	3,240,024
Increase		54,505	..	36,247
Decrease		..	18,258	..
Increase per Cent.		..	..	1·1

Number of Persons relieved.

Having thus noticed the *cost of relief*, we now proceed to state the *numbers of the different classes of persons relieved* in the several Unions and places under the Poor Law Amendment Act, as shown by the returns for the 1st of January and the 1st of July last. The estimated population of these Unions and places is 16,137,136, being 1,790,473 short of the population of England and Wales.

The *number of persons of all classes* in receipt of relief on the 1st of January 1853 in the Unions and places in question was 799,443, being a decrease of 35,917, or 4·3 per cent., as compared with the number in receipt of relief on the 1st of January 1852.

The number of *adult able-bodied persons* in receipt of relief on the day last named was 126,220, being a decrease of 11,098, or 8·1 per cent., as compared with the number of this class in receipt of relief on the corresponding day in the preceding year.

The number of *persons of all classes* in receipt of relief on the 1st July 1853 was 743,639, being a decrease of 56,533, or 7·1 per cent., as compared with the number in receipt of relief on the 1st of July 1852

The number of *adult able-bodied persons* in receipt of relief on the last-named day was 107,880, being a decrease of 17,002, or 13·7 per cent., as compared with the number of this class in receipt of relief on the corresponding day in the preceding year.

The following Tables show these particulars more in detail:—

SUMMARY of RETURNS from 608 UNIONS and SINGLE PARISHES under Boards of Guardians, showing the Number of Persons of all Classes in receipt of Relief on the 1st January 1852 and 1st January 1853 respectively.

Number of Unions.	Year and Day.	All Classes except Insane and Vagrants.	Insane Persons.	Vagrants.	Total of all Classes.
608	1st January 1852 .	818,110	15,175	2,075	835,360
	1st January 1853 .	782,698	15,309	1,436	799,443
Decrease on 1st January 1853 compared with 1st January 1852		35,412	..	639	35,917 or 4·3 per Cent.
Increase on 1st January 1853 compared with 1st January 1852		..	134	..	..

SUMMARY of RETURNS from 616 UNIONS and SINGLE PARISHES under Boards of Guardians, showing the Number of Persons of all Classes in receipt of Relief on the 1st July 1852 and the 1st July 1853 respectively.

Number of Unions.	Year and Day.	All Classes except Insane and Vagrants.	Insane Persons.	Vagrants.	Total of all Classes.
616	1st July 1852 . .	783,138	15,189	1,845	800,172
	1st July 1853 . .	726,488	15,667	1,484	743,639
Decrease on 1st July 1853 compared with 1st July 1852		56,650	..	361	56,533 or 7·1 per Cent.
Increase on 1st July 1853 compared with 1st July 1852		..	478	..	..

STATEMENT of the Number of Adult Able-bodied Persons (In-door and Out-door) in receipt of Relief in 608 UNIONS and SINGLE PARISHES under Boards of Guardians on 1st January 1852 and 1st January 1853 respectively.

Number of Unions.	Year and Day.	Widows receiving Out-door Relief.	All other Classes, In-door and Out-door.	Total.
608	1st January 1852 .	47,000	90,318	137,318
	1st January 1853 .	44,900	81,320	126,220
Decrease on 1st January 1853 compared with 1st January 1852		2,100	8,998	11,098 or 8·1 per Cent.

Returns have been received, during the progress of printing this Report, of the number of persons in receipt of relief in 618 Unions and Single Parishes, under Boards of Guardians, in England and Wales, on the 1st January 1854. Summaries of these returns are inserted in the Appendix (pages 160 and 161).

STATEMENT of the Number of Adult Able-bodied Persons (In-door and Out-door) in receipt of Relief in 616 UNIONS and SINGLE PARISHES under Boards of Guardians on 1st July 1852 and 1st July 1853 respectively.

Number of Unions.	Year and Day.	Widows receiving Out-door Relief.	All other Classes, In-door and Out-door.	Total.
616	1st July 1852 . .	47,500	77,382	124,882
	1st July 1853 . .	45,400	62,480	107,880
Decrease on 1st July 1853 compared with 1st July 1852		2,100	14,902	17,002 or 13·7 per Cent.

Vaccination.

A summary of the Returns relating to Vaccination for the year ended 29th September 1853 is given in the Appendix, page 193. This summary shows the total number of persons vaccinated by the public vaccinators in England and Wales during the year to have been 376,218. The summary also shows that the number of cases in which vaccination has been successful is 366,593.

Emigration.

The number of persons who have received assistance from the poor rates to emigrate during the year is very small. The number in 1852 was 3,271, while the number in 1853 is only 488, being a reduction of 2,783.

The emigrants proceeded from the following counties :—

Bedford . . .	1	Northampton . .	9
Bucks	2	Nottingham . .	1
Cambridge . .	91	Oxford . . .	2
Cornwall . . .	9	Rutland . . .	21
Devon	19	Somerset . . .	20
Dorset	9	Southampton . .	20
Essex	23	Suffolk	33
Gloucester . . .	25	Surrey	38
Huntingdon . .	11	Sussex	10
Kent	30	Warwick . . .	4
Leicester . . .	27	Wilts	8
Lincoln . . .	4	York	5
Middlesex . . .	42	Pembroke . . .	1
Norfolk . . .	23		

The destinations of the emigrants were as follow :—

Canada	87
New Brunswick	7
Australian Colonies	384
New Zealand	4
Saint Christopher	6

Workhouse and District Schools.

We have reason to believe that the education and training of pauper children in workhouse and district

schools have satisfactorily advanced during the year. A statement will be found in the Appendix, page 165, showing the average number of children attending the workhouse school of every Union in England and Wales as well as the number attending district schools during the half year ended at Lady-day 1853, and the amount of money paid to the Board of Guardians in each case from the Parliamentary Grant, in respect of the salaries of the teachers. The following is a summary of this statement :—

Average number of children attending the *workhouse* schools during the half-year ended at Lady-day 1853,—

Boys,—	
Under 10 years of age . .	7,577
Above 10 years of age . .	8,700
Girls,—	
Under 10 years of age . .	8,094
Above 10 years of age . .	6,957

Average number of children attending *district* schools during the same period,—

Boys,—	
Under 10 years of age . .	548
Above 10 years of age . .	548
Girls,—	
Under 10 years of age . .	399
Above 10 years of age . .	384
Total of Boys and Girls . .	33,633

	£	s.	d.
The amount paid to Boards of Guardians out of the Parliamentary grant in respect of the salaries of workhouse and district school teachers, for the year ended at Lady-day 1853	22,204	6	3

Workhouses built.

The progress made during the year in providing or improving Workhouse accommodation has been satisfactory. We have affixed our Seal to plans for new Workhouses in eleven Unions; viz., in the Auckland Union for 250 inmates, in the Bootle Union for 100 inmates, in the Bury Union for 300 inmates, in the Chorlton Union for 1,000 inmates, in the Dewsbury Union for 300 inmates, in the Hawarden Union for 60 inmates, in the Holsworthy Union for 80 inmates, in the East London Union for 700 inmates, in the Ripon Union for 173 inmates, in the Sedbergh Union for 60 inmates, and in the Whitehaven Union for 570 inmates.

Workhouses altered or enlarged.

We have also affixed our Seal to plans for altering or enlarging the Workhouses of forty Unions; viz., the Alcester, Barnstaple, Bedford, Bolton, Bradfield, Bradford (York), Carnarvon, Cheltenham, Chepstow, Coventry, Crickhowell, Doncaster, Eastry, Gateshead, Glossop, Gravesend and Milton, Guiltcross, Hailsham, Hertford, Hungerford, Kingston-upon-Hull, Lambeth, Luton, Maidstone, Manchester, Martley, Mitford and Launditch, Newcastle-upon-Tyne, Newington, Northwich, Royston, Rye, St. Saviour's (Southwark), Settle, Strand, Watford, West Derby, Whitchurch (Salop), Worcester, and York Unions.

New Unions formed, &c.

A Board of Guardians constituted under the Poor Law Amendment Act of 1834 has been elected for the populous township of Saddleworth in Yorkshire; while twenty-five parishes in the counties of Chester, Flint, and Salop have been formed into a Union, denominated the Whitchurch Union. The inconvenience experienced from the large size of the Great Boughton Union induced us to separate fifteen of the parishes which originally comprised that Union, and to form them with some others taken from neighbouring Unions into a distinct Union under the name of the Hawarden Union.

Vestries' Act.

We have issued orders during the year for putting the "Act to prevent the holding of Vestry or other Meetings "in Churches, and for regulating the Appointment of "Vestry Clerks," (13 & 14 Vict. c. 57.) in force either wholly or partially in twenty-four places.

Amendment of the Law.

We proceed to advert to the Acts passed in the last Session of Parliament which affect the laws relating to the relief of the Poor.

Besides the two Acts 16 & 17 Vict. c. 77. and the 16 & 17 Vict. c. 105., which continued for another year the provisions of the previous Statutes charging the cost of maintaining irremovable Poor in Unions upon the Common Fund, and exempting stock in trade from assessment to the poor rate, two important Acts bearing on the subject of the Poor Laws were passed in the last Session of Parliament; one of these was the Lunatic Asylums Act, 16 & 17 Vict. c. 97.; and the other the Vaccination Extension Act, 16 & 17 Vict. c. 100. By the former the Act of 1845 (8 & 9 Vict. c. 126.) and the several Acts subsequently passed to explain and amend it, were repealed,

Lunatic Paupers.

and their provisions, with various amendments and additions, were consolidated and re-enacted. It is not now necessary to describe in detail the enactments contained in the present Act, because the summary of the former Act, which was given in the circular letter of the Poor Law Commissioners, dated 5th September 1845, and printed in their 12th Annual Report, p. 79, will be found to be applicable to the present Act except in some few particulars.

It may, however, be observed, that the duty of visiting and reporting upon the state of pauper lunatics, which was imposed upon the Medical Officers by the former Act, is still continued (see sect. 66.), and an additional provision inserted, which gives a fee to the District Medical Officer for his visit to and report upon the Out-door Lunatics.

The clause also relieves the Medical Officer from some of the previous charges which attended these Reports.

We deemed it advisable to issue a circular letter (a copy of which is contained in the Appendix, page 55,) to the Medical Officers and the Clerks to the Boards of Guardians, directing their respective attention to this enactment as altered.

Some doubt having arisen with reference to the obligation cast upon the Workhouse Medical Officer with reference to his duties under this clause, we consulted the Commissioners in Lunacy upon the subject, who informed us that they considered that the Workhouse Medical Officer was required by this Section to report upon the state of the lunatics in the workhouse, and that the practice under the previous Act was conformable to this view. We have since communicated this opinion to the several Unions and Parishes having Workhouse Medical Officers.

In the present Act the restriction in the Act of the 8 & 9 Vict. c. 126., which prevented the Medical Officer of a Union or parish from certifying to the insanity of a pauper brought before a justice of the peace with a view to his removal to a lunatic asylum, is repealed.

The removal of the restriction will be attended with advantage, as it was found in practice to throw unnecessary difficulty in the way of the Guardians, when they attempted to obtain the requisite orders of removal, and was considered by the Medical Officers as conveying an unfounded imputation upon them.

It is right also to notice that the Act expressly enables a compensation to be paid to the medical practitioner who is examined before the justice as to the insanity.

This Act re-enacts the provision relating to the cases of lunatics who would have been irremovable by reason of long residence if they had been sane. Previous Acts had made the cost of their maintenance a charge upon the common fund in Unions, but there was no provision for the case of a lunatic removed from a parish not in a Union. Sect. 102. of this Act, however, renders the provision general, and in respect of a lunatic in an asylum who would have been irremovable from the parish whence he was removed thereto, prevents an order of maintenance from being made upon the parish of his settlement.

There is also a series of clauses which apply the several provisions of the Statute 11 & 12 Vict. c. 31., relating to the procedure in respect of orders of removal, to orders made under this Act.

Lastly, the Act enables the Guardians to pay the costs of the maintenance of a pauper lunatic in an asylum without a previous order of justices, which was in strictness requisite under the former Act, and which in many cases caused unnecessary expense.

It is right to observe that the Act 8 & 9 Vict. c. 100., which related to houses licensed for the reception of lunatics, was partly repealed and modified by the 16 & 17 Vict. c. 96. Thus sect. 48. of the former Act, which provided for the admission of pauper lunatics into such houses is repealed by sect. 3. of the present Act, but is re-enacted in sect. 7.

Vaccination.

The other Act, namely, the 16 & 17 Vict. c. 100. relating to vaccination, has also proved of much importance, and has required and received much of our attention during the latter part of the year.

In 1840, the Act 3 & 4 Vict. c. 29. was passed, which, with the view of extending the practice of vaccination, required Boards of Guardians in Unions and parishes, and overseers of parishes where there were no Guardians, to contract with their medical officers or with some medical practitioners for the performance of the operation of vaccination upon such poor persons as were brought to them for the purpose, and the regulations were placed under the control of the Poor Law Commissioners. This was the first legislative enactment upon the subject.

The earliest proceedings of the Commissioners to carry into effect this enactment, which was slightly amended by an Act in the subsequent year (4 & 5 Vict. c. 32.), were detailed in their 7th Annual Report, and the measures adopted by

Boards of Guardians to give effect to the Act have been shown in each successive report of the Board.

The legislature during the last session rendered the vaccination of infants compulsory upon their parents, and the statute 16 & 17 Vict. c. 100. imposed penalties upon parents, and others having the care, nurture, or custody of infants, who neglect to cause such infants to be vaccinated within a few months after their birth. It also imposes some further provisions and obligations upon Boards of Guardians to secure means whereby the poor may more readily obtain the performance of this operation.

The Act requires that certain amounts of remuneration shall be paid as minimum rates in the cases of all contracts entered into after its date. It is also rendered necessary that the fact of the successful vaccination of a child shall be registered by the public registrar, in like manner as the birth is registered under the Registration Acts. For such registration a fee is to be paid as the fee for registering the birth is paid, which it will be remembered is a charge upon the poor rate.

We issued a circular letter, dated the 6th of September last (see page 25), to all Boards of Guardians, in which we brought under their notice those provisions of the statute which particularly related to them, and we have been engaged for several months in correspondence with the Guardians in reference to the alterations in the previous arrangements and contracts which the new Act has rendered necessary.

The Poor Law Commissioners after the passing of the 3 & 4 Vict. c. 29. framed a form of contract for the use of such Boards of Guardians, as deemed it right to provide contracts in writing with the medical officer or medical practitioner, who engaged to vaccinate in their Unions or parishes, and the Commissioners issued an order addressed to the several Unions embodying the form of such contract.

It became apparent that new contracts to be entered into under the Act of last Session would not be quite consistent with those which had been prescribed by the Poor Law Commissioners.

We therefore considered it advisable to frame a new form of contract to be adopted hereafter, and, having done so, issued a general order to all Unions, in which the former orders prescribing the forms of the contract were rescinded, and the new form of contract substituted, a power being reserved for modifying the same in particular cases. This order is dated 30th November 1853 (see

page 17). We have in preparation a similar general order for parishes under Boards of Guardians.

It was apparently intended by the legislature that the vaccination districts should correspond with the registration sub-districts; and the Registrar General having called our attention to this point, we addressed a letter, dated October 29th, to the Boards of Guardians, in which we communicated his suggestions, and recommended the Guardians, as far as they could, to make their new arrangements for vaccination correspond with those previously established for registration. We regret to state, that, although this result was obtained in some few instances, it has been found to be for the most part unattainable.

The information which has reached us from various quarters leads us to believe that a very great number of persons have been vaccinated during the latter half of the year.

Vestries' Act.

A short Act, the 16 & 17 Vict. c. 65., was passed, which removed a grievance often complained of in respect to the voting at vestries under the Vestries' Acts, 58 Geo. 3. c. 69. and 59 Geo. 3. c. 85. The language of those Acts prevented any person who was rated to the poor rate from voting at a vestry meeting if he were in arrear in respect of any rate then current, although the same might have been made only a few days before the vestry meeting. It is now rendered unnecessary for any person seeking to vote or be present at any vestry meeting held under those Acts, to have paid any poor rate which shall have been made or become due *within* three calendar months immediately preceding such meeting.

Common Lodging Houses.

It may be proper to advert to some provisions in the Common Lodging Houses Act, 1853 (16 & 17 Vict. c. 71.).

Sect. 7., which enables a sick person to be removed from a common lodging house to a hospital or infirmary, empowers the local authority to order the clothes or bedding used by such person to be disinfected or destroyed, and to award reasonable compensation for the injury or destruction thereof to be paid to the owners, which compensation is required to be paid, by the proper officer of the parish or Union in which the common lodging house was situate, out of the poor rates.

Sect. 9. enables a police constable, or an inspector of common lodging houses, to give a certificate of nuisances to the Guardians with reference to proceedings under the first section of the Nuisances Removal Act of 1848, and

requires the Guardians to proceed thereon in like manner as on a notice signed by two inhabitant householders.

Lastly, Sect. 14. provides for the expenses incurred in putting the previous Act and that Act into execution by the Justices in Petty Sessions. The former Act was incomplete in this respect, and the clause of the last Act now referred to, provides that such expenses shall be borne by the poor rates of the several parishes comprised in the petty sessional division in such proportions as the justices shall ascertain and apportion.

Steps taken on the re-appearance of the Cholera.

We next proceed to mention the steps which we took upon the re-appearance of the cholera, towards the end of the last summer, at Newcastle-upon-Tyne. Her Majesty's Government having, by their Order in Council, directed that the provisions of the Nuisances Removal Act for the prevention of diseases should be put in force in Great Britain, we had several interviews and communications with the General Board of Health upon the subject. That Board having deemed it advisable to issue to all Unions and Parishes the regulations which they considered requisite in conformity with the powers and authorities given by that Act, we took immediate steps for the circulation of those regulations among the various Unions and Parishes to which they were directed, and we addressed a letter (see page 34) to all Boards of Guardians, urging upon them the necessity of their giving special and immediate attention to the regulations, and recommending the Guardians to adopt such organization as might be necessary for the purpose of effectually carrying them out.

We also directed our Inspectors to communicate with or visit the Unions and Parishes under their charge with reference to those regulations, and to render such assistance to the Guardians by advice or personal co-operation as might be in their power, and as circumstances might render necessary. We also required them to report to us from time to time any special proceedings or occurrences which they might think it expedient to bring under our notice. We have also caused the whole of the metropolitan workhouses to be specially visited and inspected, and have re-considered the question of the number of inmates which each is calculated to accommodate consistently with due regard to the health of the inmates.

We have continued to communicate and co-operate with the General Board of Health when necessary; and when that Board deemed it advisable to modify some of the pro-

visions contained in their General Regulations, we caused the copies of their Supplementary Regulations to be despatched to the several Unions and Parishes to which it was addressed.

We have reason to believe that Boards of Guardians generally have exhibited much energy and promptitude in the adoption of the necessary measures, precautionary and remedial.

Agricultural Statistics of Norfolk and Hampshire.

At the instance of the Lords of the Committee of Privy Council for Trade we instructed two of our inspectors, Sir John Walsham and Mr. Hawley, to undertake the collection of the agricultural statistics of the counties of Norfolk and Southampton; the former county, being in Sir John Walsham's district, was assigned to him, while the latter was assigned to Mr. Hawley, it being in his district.

The subject of the inquiry comprised, 1st, The quantity of land under cultivation on a given day in the case of every occupier of two acres and upwards, distinguishing the quantity under wheat; barley; oats; rye; peas and beans; tares or vetches; potatoes; turnips or rape; carrots, mangold-wortzel, or beet root; cabbages; clover, lucern, or other artificial grasses; meadow and pasture; flax; chicory, hops; other crops; fallow. 2d, The quantity of land not under cultivation, distinguishing wood land or plantations, and commons or waste lands. And 3d, The number of live stock on the farm on a given day, distinguishing the number of horses, of milch cows, of other cattle, of sheep and lambs, and of swine. As respects Norfolk, the 10th of July 1853 was fixed as the day to which the returns of the quantity of land were to relate, and the 10th of October 1853 as the day to which the returns of live stock were to relate. The dates in the case of Hampshire were fixed about 14 days later than those of Norfolk.

The agency employed in the matter consisted of the clerk of the Union, who acted as classifier, and the relieving officers, who acted as enumerators, together with a small committee of the leading agriculturists of the Union, the chairman of the Board of Guardians being the chairman of such committee. In some cases, however, it was found necessary to vary this arrangement. Suitable instructions and forms were prepared by Sir John Walsham for use in the inquiry in both counties, copies of which will be found in the Appendix. The results of the inquiry are not yet fully known; but we are able to state, that although

attended with much labour and some difficulty, arising from misconception as to the object, this important experiment will be found on the whole successful.*

Treasury Committee of Inquiry.

Before concluding this Report, we think it proper to mention, that a Committee of Inquiry was appointed by the Treasury in the month of February last, consisting of Sir Charles Trevelyan, Mr. Sadleir, Sir Stafford Northcote, and Lord Courtenay, one of the Secretaries of the Board, for the purpose of inquiring into the general organization of the department, the arrangements existing for the transaction of business, and the pecuniary position of those holding office in it. The Committee, after a careful investigation, recommended various modifications of the previous system, and such modifications have since received the sanction of the Lords of the Treasury. We are of opinion that the recommendations of the Committee of Inquiry will be attended with advantage to the public service, and add to the efficiency of this department. To one of these recommendations we desire to direct especial attention, because practical effect can only be given to it through the instrumentality of Parliament. We allude to the distinct recommendation that in future the appointment of auditors should be made by the Poor Law Board, in place of as at present by the chairmen and vice chairmen of the Unions comprised within the audit district.

We believe that this change would be of much public benefit, and that its expediency, therefore, calls for the careful consideration of the legislature.

All which we most humbly submit to Your Majesty.

M. T. BAINES,
President.

---

* The Reports of Sir John Walsham and Mr. Hawley on the subject of Agricultural Statistics having been received during the progress of printing this Report will be found in the Appendix, pages 59 and 80.

APPENDIX.

No. 1.

VACCINATION. — GENERAL ORDER of the POOR LAW BOARD prescribing a Form of Contract for the Performance of Vaccination.

TO THE GUARDIANS OF THE POOR of the several Unions named in the Schedules hereunto annexed; —

To the Clerk or Clerks to the Justices of the Petty Sessions held for the Division or Divisions in which the said Unions are respectively situate;—

And to all others whom it may concern.

Whereas the Poor Law Commissioners, by divers Orders, the dates whereof are set forth in Schedule I. hereto annexed, addressed respectively to the Guardians of the Poor of the several Unions named in the said Schedule, did prescribe certain Forms of Contract which the said Guardians should adopt in making Contracts with the Medical Officers of the said Unions, or other legally qualified Medical Practitioners, under the provisions of the Act of the fourth year of the reign of Her Majesty, intituled "An Act to extend the Practice of Vaccination:"

And whereas by reason of the passing of the Act of the last Session of Parliament, intituled "An Act further to extend and "make compulsory the Practice of Vaccination," it is expedient that such Forms of Contract should be altered and modified, and that, with respect to all future Contracts, the said several Orders should be rescinded:

Now, therefore, We, the Poor Law Board, in pursuance of the authorities vested in Us by an Act passed in the fifth year of the reign of His late Majesty King William the Fourth, intituled "An Act for the Amendment and better Administration of the "Laws relating to the Poor in England and Wales," and by other Acts amending the same, do hereby Order and Direct, that in respect of all Contracts to be entered into by the Guardians of the several Unions named in the said Schedule I., after the date hereof, the Orders named in the said Schedule shall be rescinded.

And We do hereby further Order and Direct, with reference to all the Unions named in the Schedules respectively marked I. and II. hereto annexed, that the following Form of Contract, with such modifications as the Guardians, with the approval of

the Poor Law Board, may determine upon, shall be adopted by the Guardians of the Poor of the said several Unions in making future Contracts with the Medical Officers of the said Unions, or other legally qualified Medical Practitioners therein, under the provisions of the above-recited Acts:

ARTICLES of AGREEMENT entered into this
day of One thousand eight hundred
and between
of the one part, and the Guardians of the Poor of the
Union in the County of
of the other part.

Whereas the said Guardians have, in pursuance of the several statutes in that behalf, with the approval of the Poor Law Board, divided the Union aforesaid into Districts for the purpose of affording increased facilities for the Vaccination of the Poor, one of which Districts comprises the Parishes and Places following; that is to say,

and have appointed the place (or places) mentioned in the Schedule (A.) hereto annexed as convenient for the performance of such Vaccination; and the said Guardians have agreed with the said to enter into a proper contract for the performance of the Vaccination:

Now, therefore, the said doth hereby covenant and agree with the said Guardians and their successors, that from and after the day of he will attend by himself, or some legally qualified Medical Practitioner as his substitute, at the times and place (or places) mentioned in the Schedule (A.) hereto annexed, or at such other times and places as the said Guardians shall, with the consent of the Poor Law Board, determine and cause to be indorsed hereon, and will then and there duly vaccinate every person resident in the said Union who shall apply to, or be brought to him for the purpose of being vaccinated, and will do and perform all such acts and things as to the best of his judgment shall seem necessary for the purpose of causing such Vaccination to be successfully terminated;

And will attend at the times and places in the said Schedule mentioned to inspect the results of such Vaccination in the persons so vaccinated, and will duly inspect such persons accordingly, and do such acts and give such directions and otherwise treat the cases as upon such inspection shall appear to him to be necessary.

And whereas the third section of the Act of the fourth year of the reign of Her Majesty to extend the practice of Vaccination provides that the Medical Officers or legally qualified Practitioners shall make a report to the Guardians from time to time of the number of persons successfully vaccinated by them respectively:

Now, therefore, the said
doth herewith covenant and agree with the said Guardians, and their successors, that he will keep two books to be termed "The Vaccinator's Register," to be provided for him by the said Guardians, and to be used alternately during the intervals between the ordinary meetings of the Guardians, and will after he shall have vaccinated any person as aforesaid, and inspected the results of the Vaccination of such person, make the entries described in the Form set forth in the Schedule B. hereto annexed, and will on the day next before each ordinary meeting of the said Guardians deliver or cause to be delivered to their Clerk the book in which he shall have made such entries during the interval preceding such meeting.

Provided that if the Guardians dispense with the keeping of one of the said books and appoint some other time when the register to be kept by him shall be delivered to their Clerk, the said will make the entries as aforesaid therein, and deliver or cause to be delivered the same to their Clerk according to such appointment.

And the said Guardians do, for themselves and their successors, covenant and agree with the said
to pay to him, his executors, administrators, or assigns, within one calendar month after the the
the and the respectively, during the subsistence of this Contract, and within one month after its termination, for every person so resident as aforesaid, who shall have been successfully vaccinated by the said at his residence, or within two miles therefrom by the nearest public road, the sum of [*here insert the sum agreed upon, not less than* 1*s.* 6*d.*], and for every such person successfully vaccinated at any place more than two miles distant from such residence the sum of [*here insert the sum agreed upon, not less than* 2*s.* 6*d.*]

And it is hereby mutually agreed by and between the parties hereto, that no sum of money shall be paid to the said
in respect of any person whose name shall not be duly entered in the said register, except in the case of any omission which shall be explained to the satisfaction of the said Guardians.

And it is hereby further mutually agreed by and between the parties hereto, that the said Guardians will, where it shall be necessary, provide a fit and proper room or rooms for the purposes of such vaccination and inspection.

Lastly, it is agreed that this Contract may be put an end to by either of the parties hereto on giving twenty-eight days notice in writing to the other party respectively of the intention to put an end to the same.

SCHEDULES referred to in the above Articles of Agreement.

SCHEDULE (A.)

Times and Places appointed for Vaccination and Inspection respectively.		
Times.		Places.
Day of Attendance.	Hours of the Day.	
		At the Residence or Surgery of the said _____ at _____ At _____ At _____

SCHEDULE (B.)

Vaccinator's Register of the _____ *Union.*

1. Date.	2. Name.	3. Sex.		4. Age.		5. Parish in which resident.	6. Where vaccinated.	7. Whether above or under two Miles distant from the Residence of Vaccinator.	8. Result.		9. Fee due in respect of each Case successfully vaccinated.		
		Male.	Female.	Years.	Months.				Successful.	Unsuccessful.	£	s.	d.

In witness whereof the said
hath hereunto set his hand and seal, and the said Guardians their common seal, the day and year first above written.

Signed, sealed, and delivered by the above-named in the presence of } (L. S.)

(*Guardians' Seal.*)

The common seal of the Guardians of the above-named Union was hereto affixed at a meeting of the Board of Guardians, held on the day of the date hereof by
Chairman of the Board at the said Meeting, in the presence of

Clerk to the Guardians of the said Union.

No. 2.

Vaccination Contracts.—Circular accompanying the above General Order.

Poor Law Board, Whitehall,
30th November 1853.

Sir,

I am directed by the Poor Law Board to state that after an attentive perusal of the Act of the last Session of Parliament for rendering Vaccination compulsory (16 & 17 Vict. c. 100.), they have come to the conclusion that the Form of Contract formerly prescribed by the Poor Law Commissioners for securing the performance of Vaccination requires some alteration.

The Board have therefore issued a General Order rescinding all the Orders previously issued to Unions whereby a Form of Contract for this purpose was prescribed, and setting forth another Form to be adopted in respect of all future Contracts.

The new Order does not interfere with any Contracts entered into by the Guardians previous to its date, and it will be seen that it will be competent for the Guardians in any particular Union or any particular District (with the concurrence of this Board) to modify the Form so as to meet peculiar circumstances.

A copy of the Order is herewith enclosed, and the Board request that in those Unions where fresh Contracts have been proposed they may be completed without any unnecessary delay, and the Contracts themselves, or copies, forwarded to this Board, in compliance with the 3 & 4 Vict. c. 29. § 4.

I am, &c.

(Signed) W. G. Lumley,

To *Assistant Secretary.*

The Clerk to the Guardians.

No. 3.

Vaccination.—Circular from the Poor Law Board to Boards of Guardians on the Act 16 & 17 Vict. c. 100.

Poor Law Board, Whitehall,

Sir, *6th September* 1853.

The attention of the Poor Law Board having been directed to the Act of the 16 & 17 Vict. c. 100., intituled "An "Act further to extend and make compulsory the practice of "Vaccination," which was introduced by Lord Lyttelton, and received the Royal Assent on the 20th ult., the Board deem it necessary to bring under the notice of the Guardians such of the provisions of the Act as require their consideration and impose obligations upon them.

Section 1. requires "that within six weeks after the passing "of the Act the Guardians of every Parish or Union shall, "subject to the approval of this Board, divide such Parish or "Union, *if need be*, into convenient districts, for the purpose of "affording increased facilities for the vaccination of the Poor, "and shall appoint a convenient place in each such district for "the performance of such vaccination, and shall take the most "effectual means for giving from time to time to all persons "resident within such district due notice of the days and hours "at which the Medical Officer or Practitioner contracted with "for such purpose will attend at such place to vaccinate all "persons not already successfully vaccinated who may then "appear there, and also of the days and hours at which such "Medical Officer or Practitioner will attend at such place to "inspect the progress of such vaccination in the persons so "vaccinated."

This section therefore renders it incumbent upon the Guardians immediately to take into consideration the existing arrangements

for providing vaccination in their Union or Parish, and to determine whether it be necessary for the purpose of giving full effect to this Act to make any alterations in those arrangements, by causing the districts already existing to be changed or increased in number, so that the requisite facilities may be given to the parents or other persons having the care or custody of children, for the vaccination of those children. The Guardians will observe that all such proposed alterations must be reported to the Poor Law Board for their approval.

The section also requires the Guardians to appoint a convenient place in each district for the performance of such vaccination. They will doubtless remember that all the contracts now in force, which have been approved of by this Board under the previous Statutes, do indeed specify the particular places at which the Medical Officer will attend for this purpose, and the hours of his attendance. The Board need therefore only recommend to the Guardians to consider whether these places, and these times, will be most convenient, having regard to the particular state of the population in the neighbourhood, and bearing in mind the extent and compulsory nature of the present enactment. It must be carefully remembered that the third section of the new Act expressly requires that the child which has been vaccinated must be taken to the Medical Officer by whom the operation was performed on the eighth day following the day on which it was vaccinated.

The section finally requires the Guardians from time to time to give due notice of the days and hours at which the Medical Officer will attend at the place appointed in his district to vaccinate and also to inspect the progress of such vaccination. It seems to the Board that the most convenient course for the Guardians to adopt in this respect will be by the publication of printed notices in large type, to be affixed in all conspicuous and suitable places in the district, and by the circulation and distribution of small handbills in the neighbourhood. Copies of these bills may be properly given to the Relieving Officers and all Parish Officers for distribution, and the Board think that the Clergy and Ministers of Religion in every district, as well as all Medical Practitioners and Registrars, might be requested to receive copies of the notices for the like purpose. It may also be worthy of the consideration of the Guardians whether they will advertise the notice in the local newspapers having the largest circulation in their Union or Parish.

The Board wish further to observe, that the Act does not annul the existing contracts entered into by the Guardians with their Medical Officer or other Practitioners. But the fourth section requires the Medical Officer or Practitioner, upon the successful vaccination of any child, to deliver to the parent a certificate, in a form which is set forth in a Schedule to the Act. The usual contract also requires a certificate (which although different in form is to the same effect) to be given to the same parties, and the Board think that the Guardians may accept the

certificate required by the new Act as a compliance in this respect with the stipulation in their own contract.

In regard to all contracts made by the Guardians after the passing of the Act, section 6. provides that the payments in respect of vaccination shall not be less than the following rates; that is to say, "for every person successfully vaccinated at the "residence of the said Medical Officer or Practitioner, or within "two miles therefrom by the nearest public road, a sum not "less than 1*s.* 6*d.*, and for every person successfully vaccinated "at any place more than two miles distant from such residence "any sum not less than 2*s.* 6*d.*"

The Board have now adverted to such of the provisions of the Act as appear to them to require the special and immediate consideration of the Guardians, and have only to add that they will be happy to afford any assistance in their power in carrying those provisions into practical operation.

I am, &c.

(Signed) W. G. Lumley,

Assistant Secretary.

To

The Clerk to the Guardians.

No. 4.

Vaccination Districts.

Circular from the Poor Law Board to Boards of Guardians on the 16 & 17 Vict. c. 100.

Poor Law Board, Whitehall,
29th October 1853.

Sir,

I am directed by the Poor Law Board to state that the Board have received a communication from the Registrar General with reference to the formation of Districts for Vaccination by Boards of Guardians, under the recent Act 16 & 17 Vict. c. 100.

The Registrar General brings under the notice of the Board various provisions in that Act, which lead to a strong inference that the Legislature contemplated that these Districts should be conterminous with the present Registration Sub-districts.

He recommends that the Vaccination Districts may be so constructed or (if need be) re-arranged, that there may be a sufficient number of convenient places for Vaccination in every Registrar's Sub-district.

He is of opinion that such an arrangement may be effected without in any way altering the existing Districts, (should that be deemed unadvisable,) by appointing additional Vaccination Stations in cases where it may be requisite, and requiring the Vaccinators to attend there periodically, once on a given day in each week or month, or at other stated periods, for the purpose of Vaccination, and again on the eighth day after the performance of the operation, for the purpose of inspecting its progress.

He adds, that in order to give full effect to the above proposal, in cases where the District of a Vaccinator runs into two or more Registration Sub-districts, it will be requisite that the Vaccinator should appoint times and places both for Vaccination

and subsequent Inspection *in each of the Sub-districts* into which his Vaccination District so extends.

I am directed to state that the Board consider these suggestions of the Registrar General highly important, and deserving of the utmost attention on the part of the Guardians; and they therefore strongly recommend the Guardians to carry them into execution in their present arrangements, unless indeed in any case they would be so inconvenient as to be virtually impracticable.

I am, &c.
(Signed) COURTENAY,
Secretary.

To
The Clerk to the Guardians.

No. 5.

WEEKLY RETURN, Form A.

CIRCULAR from the POOR LAW BOARD to BOARDS OF GUARDIANS.

Poor Law Board, Whitehall,
20th May 1853.

SIR,

THE attention of the Board has been directed to the fact, that at present the clerk to each Board of Guardians furnishes the Poor Law Inspector with a Weekly Return (Form A.), containing a variety of particulars in relation chiefly to the several classes of paupers in receipt of relief in the Union as well as to the cost of relief; and that he also furnishes the Poor Law Board with a Weekly Return (Form B.), comprising some of the particulars in the first mentioned Return (Form A.)

The Board, with the view of saving the Clerk the trouble of preparing two Weekly Returns, containing substantially the same particulars, propose in future to devolve on the Inspectors the duty of extracting from the Form A. for the use of the Board the number of persons in receipt of relief, and thus to dispense with the Form B.

Although it has been found requisite to make some alterations in the *arrangement* of the classes of In-door Paupers, it will be observed that no alteration has been made in the classes themselves, excepting that the ages are stated according to the General Order of Accounts (Admission and Discharge Book), and not according to the General Consolidated Order.

I am directed to add that it is of great importance that this Return should be transmitted to the Inspector with unfailing regularity.

It is the wish of the Board that the Weekly Returns (Form B.) should continue to be made to this Office till the close of the present quarter; and that the Form A., of which twelve copies are sent herewith, should be adopted for the first week in the ensuing (Michaelmas) quarter.

I am, &c.
(Signed) COURTENAY,
Secretary.

To
The Clerk to the Board of Guardians.

Weekly Return, Form A.—Form A. referred to in the above Circular.

WEEKLY RETURN, Form A.

CIRCULAR from the POOR LAW BOARD to their Inspectors.

Poor Law Board, Whitehall,
30th May 1853.

SIR,

I AM directed by the Poor Law Board to transmit to you herewith a Circular which they have addressed to the several Boards of Guardians in reference to the Weekly Return (Form A.) at present made to the Inspectors, and the Weekly Return (Form B.) now made to this Board.

You will observe that the Board propose to dispense at the close of the present quarter with the Return (Form B.), and to devolve upon the Inspectors the duty of extracting from the Return (Form A.) for the use of the Board the particulars now supplied to them direct by means of the former Return.

I am therefore desired to request that you will have the goodness to make the necessary preparation for carrying this arrangement into effect. The Board will shortly transmit to you a supply of the Forms, in which the particulars in question should be furnished to them.

I have, &c.
(Signed) COURTENAY,
Secretary.

To
Poor Law Inspector.

No. 7.

WEEKLY RETURN, Form A.

CIRCULAR from the POOR LAW BOARD to their Inspectors.

Poor Law Board, Whitehall,
25th June 1853.

SIR,

YOU will receive by this day's post Forms for entering, for the use of the Poor Law Board, the summaries of the Weekly Returns (Form A.)

I am directed by the Board to call your attention to the Form of Summary on the second page of the Weekly Return, and to request that care may be taken to see that the "Gross Total" comprises only the numbers set opposite to thefi gures 1, 2 and 3, and the figure 7, in each Summary.

I am directed also to send you herewith a copy of a Circular which one of the Inspectors has addressed to the Clerks of the Unions in his District; and at the same time to intimate, that if you should desire to address this Circular to the Union Clerks in your own District, the Board will be prepared to supply you with copies for that purpose.

I have, &c.
(Signed) W. G. LUMLEY,
Secretary.

To
Poor Law Inspector.

No. 9.

WEEKLY RETURN, Form A.

CIRCULAR of SIR JOHN WALSHAM, referred to in the above Circular of the 25th June 1853.

Poor Law Office,
June 1853.

DEAR SIR,

YOU have received from the Poor Law Board a new Form of a Weekly Return, to be made to me from and after the first week of the ensuing quarter.

In apprising me of the issue of this Form, the Poor Law Board have requested me "to make the necessary preparation for carrying this arrangement into effect;" and there are a few points on which I desire to offer suggestions which may be useful.

"Imbecile or Idiots in the Workhouse" must be entered twice, once, when enumerated in the Table among the inmates of the workhouse, and again at the place where the words stand which describe them. They will not be entered separately in the Summary.

If there are any paupers at a contractor's establishment (such as Mr. Weekly's or Mr. Perry's at Margate) or in a workhouse of any other Union or Parish, such paupers may be entered on the second page and also on a separate line in the Summary. And if there are in any Workhouse of your Union any paupers chargeable in any other Union, they must be distinguished as such in your Return, and excluded from the Summary.

I take this opportunity to remind you of the absolute necessity of regularity and promptness in making the returns. The practice of the majority of the clerks with whom I have the pleasure of corresponding proves sufficiently that it is not unreasonable to require that every Return be forwarded to me immediately after the meeting of Guardians held next after the expiration of the week to which the Return relates.

I am, &c.

To (Signed) J. WALSHAM.

The Clerk to the Guardians.

No. 10.

CIRCULAR from the POOR LAW BOARD to Boards of Guardians accompanying the Directions and Regulations, together with the Notification of the General Board of Health.

Poor Law Board, Whitehall,
21 *Sept.* 1853.

SIR,

I AM directed by the Poor Law Board to forward to you a copy of the Directions and Regulations issued on the 20th instant, by the General Board of Health, under the provisions of the 11 & 12 Vict. c. 123.; together with a copy of the Notification of that Board on the subject of those Directions and Regulations.

As an Order in Council has been issued for putting this Act in force throughout England and Wales, it becomes the duty of all Guardians of the Poor, and of all other persons to whom they are addressed, to act, in compliance with the provisions of the Statute, upon all Directions which they may receive from the General Board of Health; and on all questions regarding those Directions the Guardians may communicate directly with that Board.

The Guardians will observe that some of the Directions, viz. No. XI. and those that follow, apply only to cases in which cholera, or other serious epidemic, endemic, or contagious disease is actually present in the district, or in which there is reason to apprehend its immediate approach. The others, however, are of immediate and universal application, and it is of essential importance to the interests of the community at large that they should be promptly and effectually carried into effect.

The Board, accordingly, request the special and immediate attention of the Guardians to the provisions contained in the Directions for the removal of nuisances; and they would further bring under their notice, as a measure which it is very important to adopt without delay, the obtaining, as required by the Direction No. II., a list of places where epidemic, endemic, or contagious diseases may have of late prevailed, with the view of giving special attention to such places, and removing as far as practicable any causes of disease which may be found to exist.

The Board do not doubt that the Guardians will adopt without delay, for the purpose of effectually carrying out these Directions, such an organized system of action as may be necessary, and the Board suggest for their consideration the appointment of a Sanitary Committee (unless the Guardians should prefer to act as a body), who shall be in regular and frequent communication with the medical officers.

It will also, no doubt, be in many cases necessary that the Board of Guardians should meet, if not de die in diem, at least more frequently than under ordinary circumstances. Special Meetings, too, may often be required to meet immediate exigencies, or for the consideration of special Directions from the General Board of Health issued under pressing circumstances; and the Board refer, therefore, to Art. 34 and 36. of the General Consolidated Order, under the latter of which, an Extraordinary Meeting of the Guardians may be summoned at any time, on the requisition of any two Guardians addressed to the Clerk.

The Guardians will further observe that the 14th section of the Statute above referred to, though enabling them to call upon the existing officers to act in the matter, gives them authority to appoint other persons to aid the officers in the discharge of the duties cast upon them by the Statute itself, and by the Directions now issued in the execution of its provisions.

How far such additional assistance will be required, the Guardians themselves will determine, upon due consideration of the circumstances of the district, and of the labour which necessarily devolves upon their officers in the performance of their

ordinary and necessary duties. But the Board think it desirable to take this opportunity of expressing their decided opinion, as stated in substance in a Circular issued by the Poor Law Commissioners, in October 1846, that money judiciously expended, in the cases to which the Statute applies, in the improvement of the sanitary condition of the poorer classes, and in the prevention or removal of causes of disease, has a direct tendency to diminish or prevent future destitution and pauperism ; and will thus be found to be most profitably expended, even in reference to the more direct object of the duties of the Guardians.

The Board think it desirable that a separate account should be kept in the Ledger of the expenditure incurred in carrying the Directions of the General Board of Health into execution, so that it may be distinguishable from the cost of the ordinary relief of the Poor.

The Board rely with entire confidence on the zealous and energetic co-operation of the Guardians and their officers in the prompt and effectual adoption, at the proper time, of the measures, both precautionary and remedial, required by the Directions now transmitted to them ; and I have only further to state that the Board will always be ready to afford all needful assistance to the Guardians, by advice from this Office, by placing (when practicable) the Inspector of the District in communication with them, or otherwise, while they are engaged in the discharge of the arduous and most important duties which are cast upon them by the Act of Parliament.

I am, &c.

(Signed) COURTENAY,

Secretary.

To

The Clerk to the Board of Guardians.

No. 11.

DIRECTIONS and REGULATIONS of the GENERAL BOARD OF HEALTH, issued under Authority of the Nuisances Removal and Diseases Prevention Act, 1848, Section X.

To LOCAL BOARDS OF HEALTH acting under the Public Health Act, 1848 ;

To Town Councils or other Bodies acting under the Authority of Local Acts of Parliament in which the Provisions of the Public Health Act are included ;

To the Guardians of the Poor of the several Unions in England and Wales named in the First Schedule hereunto annexed ;

To the Guardians of the Poor of the several Parishes in England and Wales named in the Second Schedule hereunto annexed ;

To the Overseers of the Poor of all Parishes, Townships, and Places not comprised in the Unions and Parishes mentioned in the First and Second Schedules hereunto annexed ;

To the Mayor, Aldermen, and Burgesses of Cities and Boroughs, Commissioners under Local Acts, the Surveyors of Highways, their Deputies and Assistants, Road Trustees, Commissioners, County Surveyors, and other Persons by Law intrusted with the Care and Management of all Streets, public Ways, and Places in any Parish or Place in England and Wales;

To the Owners and Occupiers of Houses, Dwellings, Churches, Buildings, and Places of Assembly within the said Unions and Parishes, and others having the Care and Ordering thereof;

And to all whom it may concern;—

Whereas by the provisions of "*The Nuisances Removal and Diseases Prevention Act*, 1848," for the prevention of epidemic, endemic, and contagious diseases, We, the General Board of Health, are authorized to issue such Directions and Regulations as the said Board shall think fit for the prevention (as far as possible) or mitigation of epidemic, endemic, or contagious disease: And whereas by the said Act it is provided that the Directions and Regulations to be issued as aforesaid shall extend to all parts or places in which the said provisions of the said Act shall for the time being be in force, under the Order of Her Majesty's Privy Council, unless such Directions or Regulations shall be expressly confined to some of such parts or places, and then to such parts or places as in such Directions and Regulations shall be specified:

And whereas by an Order of Her Majesty's Most Honourable Privy Council, bearing date the 15th day of September 1853, the said provisions of the said Act were directed to be put in force throughout the whole of Great Britain for a period of six calendar months thence next ensuing:

Now, in exercise of the authority vested in us as aforesaid, We, the General Board of Health, do issue the Directions and Regulations herein-after contained, to extend to all parts and places within the several unions, parishes, and places throughout England and Wales; that is to say,—

I. We direct that all the local authorities charged by the Common Lodging Houses Act, 1851, with the execution of that Act, shall see that the provisions of the said Act, and any Act amending the same, are enforced forthwith.

II. We direct the Guardians, Overseers, and persons as aforesaid to order the clerk to the Guardians of any such union or parish, forthwith upon the publication of these Directions, to make out, from the Medical Officers books or other sources of information readily obtainable by him, a list of the places within his union or parish where cases of cholera, diarrhœa, typhus fever, or any epidemic or endemic disease, may have lately been frequent; and to give the list or portions of the list relating to particular districts to the Medical Officer of each district to which it shall relate. And the Medical Officer of every union or parish shall visit the places within his district named in such list, and any other places within it, and examine the houses situate in such

places, as to their present condition in respect to cleanliness, or as to any existing predisposing and removable causes of disease likely to affect the inmates thereof.

III. We direct the Guardians, Overseers, or persons to whom these Regulations may apply to order the said Medical Officer to inquire into the state of the health of the inhabitants of all such places, and into the state of health of the children in schools, of the workpeople in places of work, and of the inmates of common lodging houses, and where he shall ascertain that any case of diarrhœa or of any premonitory stages of an epidemic disease exists, to treat or direct the treatment of the same at once.

IV. And such Medical Officer, where it may be necessary, shall certify in writing to the Guardians of his union or parish all such places as are in a state dangerous to health, or as need frequent and effectual cleansing by way of preservation against disease, and such dwelling houses as are in a filthy and unwholesome condition, and all such nuisances and matters injurious to health as ought to be abated, cleansed, and removed under these Regulations.

V. We direct that all Town Councils and other governing bodies of cities and boroughs, Commissioners under Local Acts, Local Boards of Health, Surveyors and District or Assistant Surveyors of Highways, Road Trustees or Commissioners, County Surveyors, and others now by law intrusted with the care and management of the streets and public ways and places within the parishes and places to which these Directions and Regulations extend,—

> Shall see to the effectual and continued cleansing of all such of the streets, rows, lanes, mews, courts, alleys, and passages, and public ways and places, under their respective care and management, as by the Medical Officer of the Guardians or others authorized to superintend the execution of these Directions and Regulations shall be certified in writing to be in a state dangerous to health, or to require frequent and effectual cleansing by way of precaution against disease,—
>
> And shall cause all filth, ordure, and nuisances to be removed therefrom.

VI. We direct that where any such streets, rows, lanes, mews, courts, alleys, and any passages, public ways, or places to which any houses or tenements adjoin, which have not been intrusted by law to the care or management of any Town Council, Local Board of Health, Commissioners, Surveyors, Trustees, or others, have been certified in writing by such Medical Officer as aforesaid to be in a state dangerous to health, or to require such frequent and effectual cleansing, every occupier of a house or tenement so adjoining shall keep or cause to be kept sufficiently cleansed every part of the street, row, lane, mews, court, alley or passage, way or place, which adjoins the house or tenement occupied by him, which works of cleansing and removal of filth, ordure, and nuisances required by these Directions and Regulations shall be done by effectual washing or otherwise, and with

the use of fluids or substances for preventing the escape of noxious effluvia during the operation, when the Medical Officer of the Guardians or others authorized to superintend the execution of these Directions and Regulations shall direct and prescribe the same.

VII. We do hereby require the said Guardians and Overseers, and all other persons to whom these present Regulations are addressed, by themselves or by their officers, or persons already employed by them, or to be specially appointed by them in this behalf, to superintend and see to the execution of the foregoing Directions and Regulations within their respective unions, parishes, or places over or in which they may legally have jurisdiction.

VIII. And where it shall appear that by want or neglect of the Town Council of any city or borough, Local Board of Health, Commissioners, Surveyors, Trustees, or others intrusted with the care and management of streets and public ways and places as aforesaid, or by reason of poverty of the occupiers or otherwise, there is any default or delay in the cleansing of or removing nuisances from any street, row, lane, mews, court, alley, passage, or public way or place certified as aforesaid within any of the said unions, parishes, or places, We direct the Guardians of such union or parish, or the Overseers of such parish, and all other persons having legal authority within such parish or place, to cause such street, row, lane, mews, court, alley, passage, way, or place to be effectually cleansed, and all nuisances to be removed therefrom, and to do all acts, matters, and things necessary for that purpose.

IX. We also direct—

That

When and so often as any dwelling house in any part or place to which these Directions and Regulations extend is in such a filthy and unwholesome condition as to be a nuisance to or injurious to the health of any person; or

Where, upon, adjoining to, or near any premises, or any part or place, as aforesaid, there is any foul and offensive drain, ditch, gutter, privy, cesspool, or ashpit, or any drain, ditch, gutter, privy, cesspool, or ashpit kept or constructed so as to be a nuisance to or injurious to the health of any person; or

Where, upon, adjoining to, or near any such premises, swine, or any accumulation of dung, manure, offal, filth, refuse, or other matter or thing is kept, so as to be a nuisance to or injurious to the health of any person; or

Where, upon, adjoining to, or near any such premises, being a building used wholly or in part as a dwelling house, or being premises underneath any such building, any animal is kept so as to be a nuisance to or injurious to the health of any person:

In each of the above-recited cases the owner or occupier, and

persons having the care or ordering of such dwelling house, or of the premises where the nuisance or matter injurious to health may be, or where they by reason of poverty or otherwise are unable, then the Town Council, Local Board of Health, Guardians, Commissioners, or Overseers, shall cleanse, whitewash, or otherwise purify, as the case may require, such dwelling house or building, or abate or remove the nuisance or matter injurious to health as aforesaid, with all reasonable speed after the publication of these our Directions and Regulations, or after the nuisance or matter injurious to health shall have arisen.

X. Wherever there shall not be a Town Council, Local Board of Health, or other governing body of a city or borough, or Commissioners having jurisdiction for the removal of nuisances, or where such Council, Local Board of Health, governing body, or Commissioners shall not cause to be effectually executed such Directions, We direct the said Guardians and Overseers, as the case may be,—

> To *visit*, from time to time, or cause to be visited, the several dwellings and places where there may be ground for believing that necessity will arise for executing such Directions;

And where, from the poverty of occupiers or otherwise, there may be default or delay in the cleasing or purifying of any such dwelling house, or the abatement or removal of any such nuisance or matter injurious to health, and the Medical Officer, or other person duly authorized as aforesaid, shall have certified that the same requires immediate attention, and where, from want of co-operation of the owners or occupiers, there is any default or delay in cleansing any foul and offensive drain, ditch, watercourse, or gutter into which several dwellings or tenements may drain,—

> To cause such dwelling houses to be cleansed and purified, and such drain, ditch, watercourse, or gutter to be frequently and effectually cleansed, and such nuisance or matter injurious to health to be abated and removed respectively, and to do all acts and provide all matters and things necessary for that purpose.

XI. Every Medical Officer shall forthwith upon any unusual amount of diarrhœa, or any case of cholera, or of typhus or other epidemic, endemic, or contagious disease, becoming known to him within his district, report the same to the Board of Guardians of his union or parish.

XII. On the occurrence of any unusual prevalence of diarrhœa, or of severe premonitory symptoms of the disease of cholera, or any severe epidemic disease, in any school or place of work, or among the inmates of any establishment which shall appear to be overcrowded, the Medical Officer shall, so soon as he shall be informed thereof, and if he deem it necessary, order the separation of the inmates of such school, place of work, or establishment, and direct such measures to be taken as shall appear to him to be expedient to prevent the spread of the disease.

XIII. And where it shall sufficiently appear to such Guardians,

Overseers, or others to whom these Regulations apply, by certificate of their Medical Officer, or of the Medical Superintending Inspector of the General Board of Health, or otherwise, that cholera, or any other severe epidemic, endemic, or contagious disease, is present or imminent in any union, parish, or place, and that extraordinary medical aid is required for persons resident within such union, parish, or place attacked or threatened to be attacked by cholera, or other severe epidemic, endemic, or contagious disease, or for the discovery and treatment of persons so attacked or threatened, We direct such Guardians, Overseers, or persons as aforesaid to provide, as soon as may be practicable, sufficient medical aid for examination, by house-to-house visitation, of the state of the inhabitants of the union, parish, or place, and for medical treatment of persons found to be threatened or affected with cholera, or such epidemic disease, or symptoms premonitory thereof, and for warning and instruction of such persons, and for the provision in suitable places of such medicines as may be required within their respective unions or parishes for necessitous persons attacked by cholera or by premonitory symptoms, and to make arrangements for the distribution of notices stating the places where such aid and medicines shall have been provided.

XIV. To ensure proper treatment to many of the poorer class, We require the said Guardians, where it shall appear to their Medical Officer, or to the Medical Superintending Inspector of the General Board of Health, that such extraordinary aid is requisite, to provide suitable rooms or places capable of accommodating necessitous cases, to which persons attacked by cholera, who cannot be properly treated in their own homes, may be conveyed.

XV. We direct the said Guardians, where it shall appear to their Medical Officer, or to the Medical Superintending Inspector of the General Board of Health, requisite, to provide rooms or places of refuge to which may be removed the families of such necessitous persons as have been attacked with cholera, and also such necessitous persons living under the same roof with or in the vicinity of persons attacked, as the Medical Officers acting under the authority of the said Guardians may deem it necessary to remove, and to cause the houses, rooms, or dwellings from which persons may have been so removed to the houses of refuge to be cleansed and purified by the owners or persons having the care or ordering thereof, or, in their default, by the said Guardians.

XVI. On the occurrence of any case of cholera, or other epidemic, endemic, or contagious disease, in any room occupied by one family or more, the Medical Officer of the union or parish attending the case shall cause to be removed either the patient or so many of the occupants of such room as he shall consider would, unless removed, tend to prevent the recovery of the patient, or endanger the spreading of the disease.

XVII. In case of death by cholera, or any other severe epidemic, endemic, or contagious disease, the last Medical

Attendant upon the person of the deceased, or, in case of there having been no Medical Attendant, the housekeeper or person present at the death, or who shall be in charge of the body, shall forthwith notify the fact of the death to the Medical Officer of the district charged with the execution of these Orders, for the prevention of the spread of such disease, and the Medical Officer shall give such directions as may appear to him needful in respect to the care, removal, and the time of interment of the body, for preventing the communication or spread of disease.

And We hereby authorize and require all persons to give such information or such assistance to such Medical Officer, and to be otherwise aiding him, as he may need in the execution of these Orders.

XVIII. In the event of the fatal termination of any case of cholera, or of severe epidemic, endemic, or contagious disease, in any room occupied as a living or sleeping room by one family or more, or by numerous persons, the Medical Officer of the district, so soon as he shall be informed of the death, shall cause to be removed, as speedily as may be, the corpse from the same premises, or, if this be not convenient, shall cause the persons occupying such rooms to be removed therefrom until the corpse can be conveniently removed and properly interred.

XIX. And We direct the said Guardians to make arrangements for obtaining daily lists of persons attacked by cholera or other epidemic disease within their respective unions or parishes, with the particulars of their cases and treatment, and for communicating the same daily to the General Board of Health.

XX. And We direct the said Guardians, where it may appear needful, to appoint such additional Medical Officers, and also to appoint such other officers as may be necessary to execute and superintend the execution of these Regulations, and to publish and circulate, by private handbills or other means, notices of the provisions of the said Act for the Prevention of Nuisances, and of our Directions, Regulations, and Instructions, or of such part of any of them as it may appear to them expedient to make publicly known.

XXI. And We direct that in these Directions and Regulations the words "Guardians of the Poor" shall mean the Guardians, Directors, Wardens, Governors, or other like officers having the management of the poor of any union, parish, or place where the matter requiring the cognizance of any such officers arises; and the word "parish" shall include every place where the relief of the poor is administered by a Board of Guardians for such place.

Given under our Hands and under the Seal of the General Board of Health, this Twentieth day of September, One thousand eight hundred and fifty-three.

(L. S.) Edwin Chadwick.

No. 12.

CIRCULAR accompanying SUPPLEMENTARY DIRECTIONS and REGULATIONS of the GENERAL BOARD OF HEALTH.

General Board of Health, Whitehall,
13th Oct. 1853.

SIR,

IN forwarding to you the supplementary Directions and Regulations of this Board, issued under the Authority of the Order of Her Majesty's Privy Council dated 15th of September last, I am to state that the principal object in issuing these Directions, in lieu of those already issued numbered 9 and 10, is to remove doubts which have been expressed to this Board by local authorities as to the proper body to execute those Directions, where there is a Town Council, Local Board of Health, or Board of Commissioners under a Local Act, as well as a Board of Guardians.

The first Direction expressly charges the duty of cleansing and removing nuisances,—

1st. On Owners and Occupiers, or the person causing the nuisance ;

2d. In their default, on the local authority (as defined in the sixth direction) ;

3d. And in their absence or default, on the Board of Guardians.

Boards of Guardians under this section were not precluded from proceeding for a penalty against owners or occupiers or persons causing a nuisance, who may make default in removing it, under the 16th section of "The Nuisances Removal and Diseases Prevention Act, 1848," where the default is not from poverty, but amounts to a wilful violation of the Board's Direction.

You will also remark that this Direction imposes the duty of removal on the person causing a nuisance. This is to meet the very common case of offensive matter being deposited in open or waste places, or so that there is no owner or occupier to proceed against. Proceedings may be taken under this Direction against the person making the deposit.

The second direction points out the way in which complaint of nuisances may be made when there is both a Board of Guardians and another local authority having jurisdiction for cleansing or removal of nuisances.

The direction to local authorities to proceed forthwith on a complaint from the Guardians is intended to remove a doubt which has been expressed, whether, where a Local Act requires a particular authentication of a complaint, as the certificate of a medical practitioner, or the signature of householders, the local authority have power to proceed, under the Directions of this Board, on a complaint not so authenticated.

This Direction calls on them to proceed forthwith on the complaint forwarded by the Guardians, in whatever form it may be.

Where the Guardians choose to proceed under the 1st section of the Nuisances Removal Act, they may do so, as they could

have done before any issue of Directions by this Board. But if they elect to proceed under that section, the complaint must be authenticated as required in that section, or the sixth section of the Amendment Act of 1849, by signature of two householders, or of any medical or relieving officer of the union or parish where the nuisance occurs.

One reason in favour of proceeding under this 1st section is, that it empowers the Guardians or local authorities to recover expenses incurred by them from an owner or occupier ; whereas they can only proceed against those who violate the Directions of the Board for a penalty under the 16th section.

The Third Direction gives a power to Guardians, where cholera has actually appeared, or where its appearance is to be reasonably apprehended, to take measures for cleansing and removal of nuisances, without any previous complaint.

The Fourth Direction gives a power to medical officers to certify any cases of dangerous overcrowding of rooms or houses, and to fix the number of inmates.

The Board have found that in many cases no measures of cleansing, purification, or ventilation are of the least avail, while overcrowding continues. This direction is not confined to common lodging houses, but extends to all classes of dwellings.

The Fifth Direction is framed to meet attempts which have been made to evade the Common Lodging Houses Acts, by letting rooms to members of different families for longer than the night or week ; it being contended that such letting takes the houses out of the class of common lodging houses. This has prevailed particularly among lodging houses occupied by the Irish, and the Board are informed that local authorities have, in many instances, hesitated to apply the Common Lodging Houses Acts to such places.

In the metropolis, however, the Acts have been applied generally to this class of houses ; and I am to express the Board's conviction, that the practice of the metropolitan authorities might be safely and most beneficially followed, as no dwellings need the enforcement of provisions for health, cleanliness, and decency so much as these. Their Direction renders it compulsory on the local authorities charged with execution of these Acts to apply them in all cases of rooms occupied by members of different families, whether for short or long periods.

The Board have found, from experience of the working of these Acts, that their enforcement operates most materially for the prevention of epidemic disease ; and they would earnestly impress upon local authorities the duty of most stringently carrying out the provisions of these Acts, which, like all measures of prevention, will be found, in the long run, to be in reduction, instead of increase, of the existing charges upon ratepayers.

I am, &c.,

(Signed) T. Taylor,

Assistant Secretary.

No. 13.

DIRECTIONS and REGULATIONS of the GENERAL BOARD of HEALTH, issued under Authority of the Nuisances Removal and Diseases Prevention Act, 1848, Section X.

To Local Boards of Health acting under the Public Health Act, 1848;

To Town Councils or other Bodies acting under the Authority of Local Acts of Parliament in which the Provisions of the Public Health Act are included;

To the Guardians of the Poor of the several Unions in England and Wales named in the First and Third Schedules hereunto annexed;

To the Guardians of the Poor of the several Parishes in England and Wales named in the Second Schedule hereunto annexed;

To the Overseers of the Poor of all Parishes, Townships, and Places not comprised in the Unions and Parishes mentioned in the Schedules hereunto annexed;

To the Mayor, Aldermen, and Burgesses of Cities and Boroughs, Commissioners under Local Acts, the Surveyors of Highways, their Deputies and Assistants, Road Trustees, Commissioners, County Surveyors, and other Persons by Law intrusted with the Care and Management of all Streets, public Ways and Places in any Parish or Place in England and Wales;

To the Owners and Occupiers of Houses, Dwellings, Churches, Buildings, and Places of Assembly within the said Unions and Parishes, and others having the Care and Ordering thereof;

And to all whom it may concern;—

Whereas Directions and Regulations, bearing date the 20th day of September 1853, were issued by Us, the General Board of Health, according to the provisions of "The Nuisances Removal and Diseases Prevention Act, 1848," acting under an Order of the Lords and others of Her Majesty's most Honourable Privy Council bearing date the 15th day of September 1853:

And whereas doubts have arisen in relation to those of the said Directions numbered respectively 9 and 10 in the copies thereof printed by the Queen's Printers; and it is expedient to remove the same and to make other Regulations in place thereof:

Now, therefore, in exercise of the Authority vested in us as aforesaid, We, the General Board of Health, do hereby, from and after the expiration of one week from the date hereof, revoke the Regulations and Directions, numbered respectively 9 and 10, above referred to, and from and after such period:

We direct,

1. That when any dwelling house in any place to which these Directions and Regulations extend is in such a filthy and unwholesome condition as to be a nuisance or injurious to health; or,

Where upon, adjoining to, or near any premises or place as aforesaid there is any drain, ditch, gutter, watercourse, privy, cesspool, or ashpit kept or constructed so as to be a nuisance or injurious to health; or,

Where upon, adjoining to, or near any such premises or place swine or any other animal, or any accumulation of dung, manure, offal, filth, refuse, or other matter or thing, shall be kept so as to be a nuisance or injurious to health:

Then the owner or occupier, or the person having the care of such dwelling house or premises, or the person causing the nuisance aforesaid, shall forthwith cleanse, whitewash, ventilate, or otherwise purify, as the case may require, such dwelling house or premises, or otherwise abate or remove the nuisance or matter injurious to health as aforesaid.

And if default be made herein by reason of the poverty of the owner, occupier, or other person or otherwise, and complaint shall have been made as herein-after provided,

The Local Authority empowered to act in the place where the premises complained of shall be situate,

Or, if there shall be no such Local Authority, or the Local Authority shall delay for an unreasonable time, the Guardians of the Union or Parish, or the Overseers respectively, shall forthwith take all proper means for carrying into effect the Directions above prescribed for the owner or occupier.

2. Complaint as to any of the matters in the preceding Direction may be made to the Board of Guardians and Overseers respectively, or to the Local Authority of the Union, Parish, or Place wherein the matter of complaint exists; and the Board of Guardians or Overseers respectively, on receipt of such complaint, shall either cause proceedings to be taken under the first section of the Nuisances Removal and Diseases Prevention Act, 1848, or forward the complaint to such Local Authority, who shall proceed thereon forthwith, unless where there has been previous default on the part of such Local Authority, when the Board of Guardians or Overseers shall themselves forthwith, if necessary, act on the complaint as above directed.

3. That the Guardians of any Union or Parish, or the Overseers respectively, if they deem it necessary by reason of the appearance or reasonable apprehension of cholera in such Union or Parish, shall cause any such dwelling house or premises to be cleansed and purified, and any such nuisance or matter injurious to health, herein-before described, to be forthwith removed and abated, without any previous complaint being made to them or to the Local Authority.

4. That where any Medical Officer engaged in carrying our Regulations into execution shall certify in writing that any dwelling house or room is so overcrowded as to threaten danger to the health of the inmates on the occurrence of cholera or any epidemic disease, and shall specify in such certificate the number of inmates which shall not be exceeded in such house or room, the owner or occupier having the control of such house or room shall forthwith reduce the number of inmates as specified in such certificate, notwithstanding any measures may have been taken to ventilate, purify, or cleanse the house or room.

5. That the Provisions of the Common Lodging Houses Act, shall extend to rooms occupied by members of different families, whether for weekly, monthly, quarterly, or longer periods.

6. The expression Local Authority used herein shall signify the Town Council, Local Board of Health, or any Trustees or Commissioners for the draining, paving, lighting, cleansing, managing, or directing the police of any town, borough, or place, or any other body of a like nature, or any Commissioners of Sewers, or any body, excepting Boards of Guardians and Overseers, having by law powers for the removal of nuisances; and the other words used herein shall be interpreted as in our Regulations and Directions dated the 20th September last.

Given under our Hands and under the Seal of the General Board of Health, this Twelfth day of October, One thousand eight hundred and fifty-three.

(Signed)

No. 14.

LUNATIC PAUPERS.—CIRCULAR from the POOR LAW BOARD to BOARDS of GUARDIANS on the Quarterly Visitation of, by Medical Officers.

Poor Law Board, Whitehall,
19th October 1853.

SIR,

I AM directed by the Poor Law Board to communicate to you the new Provision contained in the Act of the last Session of Parliament, 16 & 17 Vict. c. 97. sect. 66. regarding the quarterly visitation of Pauper Lunatics by the Medical Officer, and his report thereon.

The Enactment is in the following terms :—

> "Every Pauper Lunatic not in an Asylum, or a Hospital registered, or a House licensed for the Reception of Lunatics, shall be visited once in every Quarter of a Year (reckoning the several Quarters of the Year as ending on the thirty-first day of March, the

thirtieth day of June, the thirtieth day of September, and the thirty-first day of December,) by the Medical Officer of or for the Parish or Union or District of a Parish or Union in which such Lunatic is resident; and such Medical Officer shall be paid the sum of two shillings and six-pence for each such quarterly visit to any Pauper not being in a Workhouse, which sum shall be paid by the same persons and be charged to the same account as the relief of such Pauper; and within seven days after the end of every such Quarter such Medical Officer shall prepare and sign a List according to the Form in the Schedule (E.) to this Act of all such Lunatics, and shall state therein whether, in the opinion of such Medical Officer, all or any of such Lunatics are or are not properly taken care of, and may or may not properly remain out of an Asylum, and such Medical Officer shall, within the time aforesaid, deliver or send such List to the Clerk to the Guardians of such Parish or Union, or if such Parish be not under a Board of Guardians, to one of the Overseers thereof; and the Forms for such Lists shall be from time to time furnished to the Medical Officer of every Parish under a Board of Guardians, and to the Medical Officers of every Union, by the Guardians of such Parish or Union; but nothing in this Enactment shall be taken or construed to relieve any Medical Officer from any obligation by this Act imposed upon him to give notice to a Relieving Officer or Overseer where it appears to such Medical Officer that any Pauper Lunatic ought to be sent to an Asylum; and such Clerk or Overseer receiving any such List as aforesaid shall, within three days after the receipt thereof, transmit the same to the Commissioners in Lunacy, and a copy thereof to the Clerk to the Visitors of the Asylum for the County or Borough in which the Parish or Union for which he is Clerk or Overseer is situate; and every such Medical Officer, Clerk, or Overseer failing to comply with this Enactment shall for every such offence forfeit any sum not exceeding Twenty Pounds, nor under Two Pounds."

You will remember that by the previous Statute, 8 & 9 Vict. c. 126. sect. 55., the Medical Officer was required to visit and report once in every quarter, to make a list of all Lunatics so visited, and to send three copies of that list to the persons specified in the Statute without any special fee or remuneration. No provision was made in that Act for the supply of Forms to be filled up by the Medical Officer.

The recent Enactment will be found to be much more favourable to the Medical Officer, inasmuch as it defines more clearly the class of Pauper Lunatics whom he is to visit, and the proper mode of computing the quarters wherein his visits are to be made. It diminishes the trouble of making the report, since it requires him to prepare and sign one list only instead of three, and provides that the Forms which he is to fill up shall be supplied by the Guardians. Lastly, a certain fee is to be paid for every such quarterly visit. At the same time, however, a pecuniary penalty is imposed upon the Medical Officer in case of non-compliance by him with the provisions of the Enactment in question.

The clause expressly provides that "nothing in this enactment shall be taken or construed to relieve any Medical Officer from any obligation by this Act imposed upon him, to give notice to a Relieving Officer or Overseer, where it appears to such Medical Officer that any Pauper Lunatic ought to be sent to an asylum."

In reference to this important part of your duty, the Board wish to point out that by section 67. of the Act, "every Medical Officer of a Parish or Union who shall have knowledge that any pauper resident in such parish, or in any parish within the district of such Medical officer, is or is deemed to be a Lunatic and a proper person to be sent to an Asylum, shall, *within three days after obtaining such knowledge*, give notice thereof in writing to a Relieving Officer of such parish, or if there be no such Relieving Officer, then to one of the Overseers of such parish." Section 70. renders any neglect of this duty on the part of a Medical Officer punishable by a pecuniary penalty.

The Board will add that the restriction contained in the former Act, which prevented the Medical Officer of the Union or Parish from certifying to the insanity before the Justices who might be applied to for the order to place a pauper lunatic in confinement, is now repealed.

I am, &c.

(Signed) W. G. Lumley,

Assistant Secretary.

To

The Medical Officer.

Schedule (E.)

County of
Union [or *Parish*] *of*
District of

Quarterly List of Lunatic Paupers within the District of the Union of [*or* the Parish of] in the County *or* Borough of not in any Asylum, Registered Hospital, or Licensed House.

Name.	Sex.	Age.	Form of Mental Disorder.	Duration of present Attack of Insanity, and, if Idiotic, whether or not from Birth.	Where and with whom Resident.	Date of Visit.	In what Condition, and if ever restrained, why, by what Means, and how often.

I declare that I have personally examined the several persons whose Names are specified in this List on the days set opposite to their Names, and that they are all [*or* all except *A.B.*, *C.D.*, and *E.F.*,] properly taken care of, and may properly remain out of an Asylum, and that these are the only Pauper Lunatics, to the best of my knowlege, in the District of the Union [*or*

in the Parish] of who are not in an Asylum, Registered Hospital, or duly Licensed House.

Medical Officer of the District
of the Union [*or* Parish] of

Dated the Day of One thousand eight hundred and

No. 15.

LUNATIC PAUPERS.

CIRCULAR from the POOR LAW BOARD to BOARDS OF GUARDIANS, transmitting a copy of the above Circular of the 19th October 1853.

Poor Law Board, Whitehall,
SIR, *20th October* 1853.

I AM directed by the Poor Law Board to transmit to you a copy of a Letter which the Board have addressed to every Medical Officer in the Unions and Parishes of England and Wales, upon the subject of his duties, under the new Act relating to Lunatic Asylums, 16 & 17 Vict. c. 97, and to request that you will lay the same before the Guardians at their next Meeting.

The Board wish you to draw the attention of the Guardians particularly to the provisions in Section 66, for the payment of a fee for every quarterly visit, and for the supply of the lists in blank which are to be filled up by the Medical Officers. It is advisable that the Guardians should procure the requisite supply for the use of the Medical Officers without delay, as the present Quarter will be far advanced by the 1st of November, the day on which the Act comes into operation.

With reference to your own duty as Clerk to the Guardians, the new Act requires that, within three days after the receipt by you of the above list from the Medical Officer, you shall transmit *the same* to the Commissioners in Lunacy, and *a Copy thereof* to the clerk to the visitors of the Asylum for the county or borough in which the Parish or Union for which you are clerk is situate. Any failure in the performance of this duty will incur a penalty not exceeding 20*l.* nor under 2*l.*

I am directed to add, that you are required, by sect. 64, to make out the same annual list of Pauper Lunatics as you were required to do by sect. 47. of the 8 & 9 Vict. c. 126. Some slight variations will be found in the form of the list, which is now to be adapted to the case of Lunatics chargeable to the Common Fund. A penalty of any sum not exceeding 20*l.* is imposed upon the clerk neglecting to make out and sign such list, or to transmit copies thereof as directed by the Act.

I am, &c.
(Signed) W. G. LUMLEY,
Assistant Secretary.

To
The Clerk of the Guardians.

No. 16.

Agricultural Statistics (England).

Reports of Sir John Walsham and Mr. Hawley on the Agricultural Statistics of Norfolk and Hampshire.

Report of Sir John Walsham, Bart., Poor Law Inspector, to the Poor Law Board, on the Agricultural Statistics of Norfolk.

The Court House, Bury St. Edmunds,
7th March 1854.

My Lord,

1. I am at length enabled to report to the Poor Law Board, for the information of the Board of Trade, the results of the operations for the collection of the Agricultural Statistics of Norfolk, which I have been engaged for many months past in conducting, under the instructions of the two Boards.

I very much regret that the communication of these results should not have been made before the end of January, in accordance with the wish of the Board of Trade and my own arrangements; and it is but right I should observe that the delay has been in no respect attributable to the officers and agents through whose diligence and success the returns from the Unions named first in the margin (1.) were completed in proper time, and in the order in which I have placed them.

St. Faith's.

It is due also to the officers and agents, to whose exertions I am indebted for the returns from the second detail of Unions (2.), that I should add that my report might have been sent up three or four weeks ago, had I not been obliged to wait for the returns from the Depwade and Freebridge Lynn Unions, and the incorporated Hundreds of East and West Flegg; the last of which returns I have not been, until to-day, in a position to enter in my summary.

Thetford.
Downham.

For the postponement of the Freebridge Lynn and Flegg returns there is this excuse, that one of the relieving officers of the former Union (who had undertaken to act as an enumerator), and the relieving officer of the latter Incorporation (who had undertaken to act both as enumerator and classifier), respectively tendered their resignations as relieving officers during the proceedings. The Flegg officer has at last executed his task; but the Freebridge Lynn officer left the completion of his share of the return from that Union to his successor, who, being entirely new to his work, had of course great difficulty in meeting the pressing demands upon his attention, to which the severity of the weather and the high prices of provisions subjected all the relieving officers of this part of my district throughout January, and had consequently little time to spare for extra duties.

In the Depwade Union the non-completion of the return appears to have been wholly owing to the multiplicity of enumerators, and the want of punctuality and care which (as might have been anticipated from their number) many of them evinced. I shall have, however, occasion again to allude to the comparative failure of the arrangements adopted in this Union.

I venture to trouble your Lordship with this prefatory explanation, not from considering it particularly important or interesting in itself, but as an act of simple justice to those who, notwithstanding impediments which often threatened to be insurmountable, carried out my directions to the very letter, and fulfilled unpopular objects with remarkable zeal and intelligence.

2. It is hardly necessary to remind your Lordship that early in March 1853 the President did me the honour of asking my opinion as to the practicableness of collecting Agricultural Statistics through the agency of Boards of Guardians and their officers; that I thought myself justified in assuring the President that, in my opinion, such information might be so obtained, and that I, in fact, supposed the machinery in question to be probably more effective, and certainly less costly and likely to offend, than any other which could be used to the important end had in view by the Board of Trade; that I believed moreover that the Poor Law Board might readily put this machinery in motion in *most* of the Norfolk Unions, but that much jealous misapprehension and strong consequent opposition (more especially in respect of returns of live stock), would have at first to be encountered on the part of influential sections of occupiers, whilst the occupiers generally could scarcely be expected to regard with favour an inquiry which they would be sure to deem inquisitorial, until they should fully understand and appreciate its purposes.

The President will likewise recollect that, being unwilling he should trust solely to my impressions, I requested his approval of my addressing a confidential circular to the Chairmen of all the Norfolk Boards of Guardians concerned in the question.

In this letter (which was despatched on the 18th March 1853), I particularly inquired of the Chairmen in question whether the duty of enumerating and classifying the agricultural statistics of their respective Unions and Incorporations could, in their judgment, be effectually discharged, and would be willingly undertaken (for certain specified fees of no very great amount) by the relieving officers and clerks, or whether a different machinery, as for example that of the constabulary as in Ireland, would appear to them preferable.

The Chairmen of the Depwade, Erpingham, and Flegg boards suggested some slight modifications of my plan; but the several answers returned to my communication were all, in a greater or lesser degree, confirmatory of the impressions which I had stated to the President; by whom, as your Lordship is aware, I was then authorized to take such measures as should seem to me best adapted for procuring the required statistics. But for reasons which I had the honour of submitting subsequently to the President of the Board of Trade, it was determined that these measures should not be carried into practical effect until the autumn.

3. The unusual pressure of my official duties during the greater part of last year (through the occurrence of many special inquiries, the approach of cholera, the rise in the price of pro-

visions, &c.), obliged me to defer the organization of my final arrangements to a later period than I could have wished.

In framing, however, the series of documents (numbered 1. to 11.), which will be found annexed to this report under the head of Enclosure 2., I derived valuable assistance from the forms and papers which had been already prepared and used with much ability and success by Mr. Hall Maxwell, in the collection of the agricultural statistics of the counties of Roxburgh, Haddington, and Sutherland, in the spring and summer of last year, under the auspices of the Highland and Agricultural Society of Scotland; and eventually the circular (marked 1. in Enclosure 2.) having been sent out on the 20th September, I was made acquainted, before the 20th October, with the decision of the Guardians of all the Norfolk Unions and Incorporations, with the exception of the Guardians of the City of Norwich and the Boroughs of Lynn and Yarmouth, who had necessarily no interest in the inquiry.

4. In the fifteen Unions specified in the margin, statistical committees were duly appointed in the manner proposed by myself; but in the Blofield, Docking, and Downham Unions, the Guardians refused to co-operate, *as Guardians*, in the experiment; whilst in the Depwade Union (although the Guardians cannot be strictly said to have refused their aid) no statistical committee was nominated, and a plan was sketched out by the Chairman and clerk (to which, in order to test its value, I offered no objections), and under which both a special classifier for the whole Union and a special enumerator for each of its forty-three parishes were appointed.

In the Blofield Union, after some unsuccessful efforts to alter the determination of the Guardians (who rested the refusal of their assistance upon the ground that neither they themselves nor their officers could afford the requisite time and labour), I was ultimately obliged to appoint, as special statistical agent, a gentleman well known as a land agent in the district, by whom and his sub-agent the inquiry was admirably completed.

It is only fair to add that, notwithstanding their original refusal, the Blofield Board readily allowed their clerk to obtain for me a list of all the occupiers in the Union (according to the form marked 11. in Enclosure 2.), without which there would have been great difficulty in proceeding; and that about two-thirds of the occupiers, including many of the opposing Guardians, freely furnished my special agents (Mr. Butcher and Mr. Hewitt) with the information sought.

In the Docking Union the Guardians, by a small majority, declined at first to act as a Board of Guardians in forwarding the undertaking—but they threw no obstacles whatever in my way—and under the zealous and effective guidance of the present Chairman of the Union (Mr. Rolfe), the former Chairman (Mr. Blyth), and other gentlemen, the relieving officers and clerk were permitted to perform the functions allotted to those officers in my scheme, and enabled to produce an admirable return.

The Guardians of the Downham Union, on the other hand, re-

jected my propositions by a very large majority, and although their clerk (Mr. Bell, of Downham Market) kindly consented to oblige me by assuming the superintendence and ably directing the labours of several special enumerators, and by classifying the returns furnished by them, yet the continued opposition manifested by a great number of the occupiers of those large parishes (in the *Thetford* as well as the *Downham* Union), which are situated in or bordering upon the fen district, has rendered the returns from these two Unions more incomplete and unsatisfactory than the returns from any other Union or Incorporation in this great county, that of the Depwade Union perhaps excepted.

In the Depwade Union, however, the imperfectness of the return, and the great trouble and difficulty experienced by Mr. Cotman, of Diss (the classifier specially nominated by the chairman of the Board of Guardians), in making out a return at all, must, I think, be chiefly attributed to the inefficiency of the arrangements; which (as I have already remarked) were experimentally tried in this Union on the recommendation of the chairman and clerk, and to which I shall have to advert more fully in a supplementary report on such of the methods available for the collection of agricultural statistics as I have necessarily had to consider in connexion with my statistical operations in Norfolk.

5. I had occasion, in a preceding paragraph, to mention that from the Thetford Union a very imperfect return has been received, owing to the combined opposition of the occupiers of certain parishes, (the parishes namely of Feltwell, Hockwold, Methwold, and Northwold,) and this notwithstanding the readiness with which the Guardians nominated a statistical committee, and appointed the relieving officers and clerk to enumerate and classify the agricultural statistics of their Union.

But the Thetford Union was not the only Union or Incorporation in which I met with a similar disappointment. The officers of the St. Faith's, Freebridge Lynn, and Guiltcross Unions, and of the Tunstead and Happing Incorporation, for which excellent statistical committees had also been formed, had to encounter similar obstacles; and so serious were those obstacles in the St. Faith's Union, and the Tunstead and Happing Incorporation, that it required a good deal of persuasion on my part, and of moral courage on theirs, to induce the officers to persevere in their unwelcome efforts, so as to bring them, as they at length did, to a termination far more successful than could have been at one time anticipated. In making these efforts, the clerk of the Tunstead and Happing Incorporation (Mr. Barnard), and one of the relieving officers of the St. Faith's Union (Mr. Richards), were especially zealous.

It gives me very great pleasure, however, to bear sincere testimony to the cordial, vigorous, and sustained assistance which was generally extended to me by all classes throughout Norfolk.

The Lord Lieutenant of the county (the Earl of Leicester)

availed himself of the occasion of his attendance at an agricultural dinner to address advice to the occupiers of Norfolk on the subject of the proceedings which I was then just commencing, of an extremely judicious, and to me serviceable character; the statistical committees included the names of many of the great proprietors and influential occupiers; the editor of the Norwich Mercury, himself distinguished for an essay on the Agriculture of Norfolk to which the Royal Agricultural Society awarded the prize in 1844, gave the undertaking the very valuable support of most ably written articles; and even in the Unions, where our success was imperfect, and among the opponents of the undertaking (some few of whom, I must confess, surprised me, considering their station, by the line which they took), I met personally with the greatest courtesy and kindness, although I am afraid that (from a kind of *esprit de corps*, which made me very anxious that the occupiers of a county so celebrated for its agriculture should not appear to fall behind the Scotch farmers in liberality and discernment,) I may not always have been sufficiently moderate in expressing my manner of viewing refusals of co-operation of which I could not appreciate the force.

6. I have now only to request that your lordship will move the Poor Law Board to draw the attention of the Board of Trade to the summary (schedule D.) of the statistics of the nineteen agricultural Unions and Incorporations of Norfolk, which I annex to this report under the head of Enclosure 1.

I should add that I propose to do myself the honour of submitting, in a supplementary report, the results of my recent experiences in their bearing upon the future collection of agricultural statistics.

The importance of obtaining these statistics systematically and from authentic sources, I need not of course pause to explain; the facts patent on the face of the Norfolk return (Enclosure 1) would alone suffice to show the magnitude of investments upon which, although having for their immediate object the principal provisioning of our population, we have been hitherto most imperfectly informed: and when it is affirmed by those best able to judge, that the value of the produce and live stock of the forty-six parishes of the Aylsham Union alone, if only estimated "at "a moderate rate, is not less than 1,500,000*l.*, exclusive of the "dead stock, which is said to be no less than 900,000*l.* in addi-"tion," it must surely be superfluous to accumulate arguments in proof of the necessity under which the Government appears to be placed of devising some plan for periodically supplying the country with accurate statistics of agricultural produce and progress.

7. It seems unnecessary to carry this report much further. The note at the foot of schedule D. will, I think, sufficiently explain what might be otherwise obscure in the arrangement of that document, and its four supplementary columns, (which were suggested by my colleague Mr. Hawley, and in which are shown the numbers and per-centages of schedule A, as filled up by the occupiers and enumerators, or returned to me in blank,) will

afford no inadequate idea both of the indefatigable exertions of the enumerators, and of the very satisfactory response made by the agriculturists of Norfolk *as a body* to the appeal addressed to them on the part of the Government.

Whilst 82¼ per cent. of the schedulage was, it will be seen, supplied by the occupiers themselves, and 15 per cent. was obtained by the enumerators from sources which may be regarded as perfectly trustworthy, information is wanting in respect only of 2¾ per cent. upon a total of nearly 15,000 schedules.

I have, &c.

(Signed) JOHN WALSHAM.

a Per-centage, 93·9023. *b* Per-centage, 6·0977.

* NOTE (1.) The column headed Arable comprises the sum of all the columns numbered 1 to 18, and so, of course, includes the 13th column. (2.) The "First Division" of eleven Unions and Incorporations includes those Unions, &c., from which the returns are perfectly satisfactory and complete; the "Second Division" of five Unions and Incorporations, includes those Unions, &c., from which the returns are also complete, although not quite so satisfactory; and the "Third Division" of three Unions, includes those Unions, &c., from which the returns are to a considerable extent incomplete, and therefore unsatisfactory. (3.) The Erpingham return includes the Statistics of the adjoining Gilbert's Union of Brinton; and the Downham return includes the Statistics of the four adjoining *Norfolk* Parishes of the *Cambridgeshire* Union of Wisbech. (4.) The land unaccounted for in all the Unions and Incorporations, *with the exception of the three Unions named in the Third Division*, does not consist of land under cultivation, but of woods, parks, wastes, sea shore, roads, fences, &c.; of which the correct measurements are unattainable. (5.) The wastes, woodlands, &c., appear, moreover, to have been considerably understated in the Parochial returns (schedule B.), for, according to the census of 1851, the area of Norfolk contained 1,354,301 acres in 738 parishes. But in the above return, only 1,206,462 acres in 678 parishes are accounted for; and, even after the addition of the acreage of the 60 omitted parishes belonging to Norwich, Yarmouth, Lynn, and the Wisbech Union, a deficiency of 77,071 acres is left, as compared with the return of the last Census; which return, however, exceeds that of the preceding Census by 62,001.

ENCLOSURE II. IN SIR J. WALSHAM'S REPORT.

(1.)

AGRICULTURAL STATISTICS.—NORFOLK.

The Court House, Bury St. Edmund's,
September, 1853.

MY DEAR

Adverting to my letter to of the 18th of March, in which I mentioned the wish of Her Majesty's Government that (with the sanction of the President of the Poor Law Board, and through the agency, wherever practicable, of the clerks and relieving officers of Unions) I should endeavour to obtain reliable information on the important subject of the Agricultural Statistics of Norfolk; adverting also to your communication in reply of the I beg now to request the favour of your further assistance towards effecting the object indicated in my former letter.

This object would, it appears to me, be best attained by the co-operation of a small committee of leading agriculturalists, to be called "The Statistical Committee," with yourself for its chairman.

The countenance and support which a committee so constituted must afford, by the mere fact of its existence, would go far to ensure the success of the undertaking.

I trust, therefore, that you will find no difficulty in organising such a committee. It is not essential that it should consist exclusively of members of the Board of Guardians.

The duties of the committee will not be of a nature to subject its members to much personal trouble. All, I apprehend, or nearly all they will have to do, may be summed up under the three following heads:

1. To give the relieving officers (or enumerators) letters of recommendation to the parish officers.
2. To induce, by their example and influence, their neighbours, and more particularly their misinformed or unwilling neighbours, to fill up Schedule A. by the 10th of November.*
3. If the classifiers and enumerators should be perplexed by their instructions, or otherwise impeded in executing them, to explain and generally to superintend and urge forwards the fulfilment of those instructions; so that it may not be said that an experiment which has fully succeeded in Scotland, through the ready and liberal manner in which the Scotch farmers have responded to the appeal made to them, has failed in Norfolk.

I have annexed for your own and your Board's information copies of the various documents which I have considered it desirable to prepare for this inquiry, and which I hope you will not find insufficient.

I have only to add that the remuneration to the *classifiers* and

---

* The 24th November in the case of Mr. Hawley.

enumerators will be what I suggested in my letter of the 18th of March, viz. 10*s.* per 100 schedules to the *former*, and 40*s.* per 100 schedules to the latter; or 50*s.* per 100 schedules to those persons who may be appointed to perform both functions.

With much regret for the trouble I am occasioning you,

Believe me to be, my dear ,

Yours truly,

To (Signed) JOHN WALSHAM.

Chairman of the

LIST of the DOCUMENTS annexed.

1. Instructions for the guidance of clerks, relieving officers, and other persons, who have undertaken to act as classifiers and enumerators.
2. Schedules A. B. and C.
3. Copy of the Abstract of the *published* Returns from a Scotch county.
4. Letter from the Statistical Committee to parish officers, recommending them to give aid and assistance to the enumerators.

(2.)

AGRICULTURAL STATISTICS, 1853.—NORFOLK.

Sir John Walsham requests the attentive consideration of the clerks, relieving officers, and others who have undertaken the enumeration and classification of the statistics in question, to the following memoranda which he has prepared for their guidance :—

1. On or before the 1st day of October* instant, a sufficient number of schedules (A.) and (B.) will be transmitted from the Poor Law Board to the clerks, or other persons appointed to act as classifiers, of the Rural Unions and Incorporations of Norfolk.

2. As soon as possible after receiving such schedules, each clerk or classifier will deliver to the relieving officers, or other person or persons appointed to act as enumerators, in his Union or Incorporation, as many schedules as may be required in order to the delivering of one schedule (A.) to every occupier of *two acres and upwards* in each relieving officer's district; and also two copies of schedule (B.) for every parish in each such district.

3. Each relieving officer, or enumerator, will then obtain from the statistical committee of the Union, through the chairman of the Board of Guardians, a recommendation to the officers of every parish to give him aid and assistance, as well in addressing and delivering the schedules to each occupier of *two acres* in every such parish, as in persuading those occupiers to fill up the schedules by the appointed day; and upon this recommendation the relieving officers will proceed to act without loss of time.

---

* The 15th October in the case of Mr. Hawley.

4. The mode and period of the relieving officer's, or enumerator's, preliminary conference with the parish officers must of course be arranged by himself; and, in the case of a relieving officer, with due regard to the fulfilment of his regular duties.

5. At such preliminary conference with the officers of any given parish, it will be necessary that the relieving officer, or enumerator, should obtain a list of all the occupiers in such parish, so that he may be enabled to fill up correctly the heading, or address, of every schedule.

6. When an occupier holds more than one farm in the same parish, one schedule will be sufficient; only the heading of the schedule must be altered by the relieving officer, or enumerator, into "Names of Farms."

7. But when an occupier has two or more farms or holdings in *different* parishes *within the same enumeration district*, separate schedules must be issued for each such farm or holding by the relieving officer, or enumerator, of that district.

8. When, however, an occupier has two or more farms or holdings in different parishes, and also *in different enumeration districts*, the schedules prepared for the farms or holdings situated in the district or districts in which the occupier *does not* reside should be given or sent, by hand or post, to the relieving officer, or enumerator, of the district in which the occupier *does* reside.

9. As the collection of the schedules of non-resident occupiers will probably be the most troublesome part of the operations, it is very desirable that each relieving officer, or enumerator, should *commence* his proceedings by ascertaining, 1st, how many non-resident occupiers belong to his district; and, 2dly, by transmitting their schedules to the enumerators of the districts in which those occupiers reside. Such schedules must of course be returned to the officer who issued them, by the officer who actually delivered them, as soon as they shall have been filled up, pursuant to these instructions. (See ss. 3 and 13.) With regard, however, to occupiers who do not reside in Norfolk at all, or reside in Norwich, Yarmouth, or Lynn, their schedules must be delivered, or forwarded direct, to themselves.

Especial attention is requested to the observance of the directions given in sections 6, 7, 8, and 9.

10. In every parish there will probably be found occupiers with holdings or allotments of less than two acres of land, and in most parishes there will be woods, plantations, and commons or pieces of waste land. It will be necessary, therefore, that, in respect of every parish in his district, each relieving officer, or enumerator, should obtain through the overseers, from the rate book, or tithe commutation map, or otherwise, the particulars requisite to fill up the asterisked (*) entries in schedule (B.) The remaining entries will be filled up from schedules (A.)

11. As the schedules (A.) are collected in, or received by, the relieving officers, or enumerators, they should be carefully marked off on the lists of occupiers. The enumerators will thus be able at once to ascertain the names of those who have failed to make their returns, and will thereupon apply to the members of the

respective statistical committees to use their influence to induce such persons to comply with the earnest request addressed to them, on the part of the Government, by Sir John Walsham.

12. Sir John Walsham expects, however, with much confidence, that the farmers of Norfolk will not refuse information sought from them solely in the public interest. But should the relieving officers, or enumerators, though backed by the influence of the statistical committees, meet, nevertheless, with positive refusals to fill up section No. 2, of Schedule (A.); for Sir John Walsham anticipates no difficulty in reference to Section No. 1.; then the alternative proposed in the observations endorsed upon Schedule (A.) should be urged upon the recusants. Or it may be suggested to them that two, three, or more farmers of the same parish might enter the gross amount of their joint crops and stock on one schedule, so that the exact manner in which any one farm has been cropped and stocked will not be indicated. But neither of these alternatives should be resorted to unless the feelings of particular farmers leave no other course open.

13. In the improbable event of persons refusing altogether to furnish any part of the information requested, the relieving officers, or enumerators, must fill up duplicates of the schedules addressed to such persons, according to the best means of information available to them; noting on every schedule so filled up, that the details are merely approximations to the reality, owing to the occupier who had been requested to furnish them having formally declined to do so.

14. The month ending the 10th November* is the period for the delivery and return of the schedules, which has been fixed by Sir John Walsham; and it would be very desirable that the operation should, as far as possible, be completed between the 10th of October† and the 10th November.* But as the ordinary duties of relieving officers, and other impediments which it is not possible to foresee, may interfere to prevent the accomplishment of the inquiry within the time specified, such time may be further extended according to the requirements of particular enumerators; but so always that all the returns obtained in Schedules (A.) from each enumeration district, as well as the parochial summaries of such returns entered in Schedules (B.), shall be communicated to the clerk or classifier *before the 10th December.*

15. As soon after the 10th November* as the obtainable returns from each Union shall have been received and compared by the clerk or classifier; and at all events *before the 20th December*,‡ he shall carefully prepare from such returns, according to the form marked Schedule (C.) an abstract of the information which Schedule (B.) and the *2d part* of Schedule (A.) supply; and, having first obtained the signature of the Chairman of the Board of Guardians, in verification of such abstract, and countersigned it himself, he will transmit the abstract to "Sir John

---

* 24th November, in the case of Mr. Hawley.
† 24th October, do.
‡ 5th January, do.

Walsham, Bury St. Edmunds," by the post, together with a list of the occupiers (distinguishing the parishes to which they belong), who may have failed, wholly or in part, to comply with the request made to them. At the same time the schedules should be packed up in a parcel and forwarded to Sir John Walsham's address as above, by public conveyance.

16. A postage account should be accurately kept by the officers engaged in this undertaking ; but before such account is transmitted to Sir John Walsham for payment, it must be certified as having been passed by the Statistical Committee. The remuneration to the officers in question, which was indicated in Sir John Walsham's letter (of the 18th March) to the Chairmen of Unions, has been agreed to by the Board of Trade.

Bury St. Edmunds, 14th September,* 1853.

(3.)

AGRICULTURAL STATISTICS, 1853.—NORFOLK.

Her Majesty's Government having instituted an experiment for the collection of agricultural statistics in the counties of Roxburgh, Haddington, and Sutherland, which experiment, through the agency of the Highland and Agricultural Society, and by the hearty co-operation of the tenant farmers of Scotland, has been brought, during the present year, to a perfectly successful conclusion, the Poor Law Board has been requested to undertake a similar experiment for Norfolk, in the confident expectation that the farmers of a county so celebrated for its agriculture, will not be more backward than their Scotch brethren in supplying the information by which alone an object of such importance to themselves and to the country can be attained.

Sir John Walsham, therefore, begs earnestly to request that the within schedule may be filled up and returned to the relieving officer (or the person acting as enumerator) of the district, before the 10th of November.

Should any occupier object, however, to communicate his return of live stock to the appointed enumerator, Sir John Walsham requests that he will in that case have the goodness to separate the parts of the schedule numbered 2. from the foregoing part, and to transmit the former (viz., the return of live stock) by post, addressed to "Sir John Walsham, Bart., Bury St. Edmunds," before the 10th day of November.

Of course it will be far more convenient to return the schedule as a whole to the enumerator.

But whatever be the mode adopted by occupiers, it is not intended in any way to make public either the names of individual occupiers, or the returns from particular parishes. The aggregate returns of each Union, and the county total which they will collectively compose, will alone appear in print. The form to be used for that purpose will be the same as the form followed

---

* 26th September, in the case of Mr. Hawley.

in Scotland ; an exemplification of which has been forwarded to the statistical committees of the Norfolk Unions.

Bury St. Edmunds, October 1, 1853.

AGRICULTURAL STATISTICS, 1853.—NORFOLK.

SIRS,

The Poor Law Board having, at the request of the Board of Trade, undertaken the experiment of obtaining the Agricultural Statistics of Norfolk, through the agency chiefly of the officers of the Boards of Guardians (similar statistics having already been obtained during the present year, from three Scotch counties, through the agency of the Highland and Agricultural Society), it has been deemed advisable that a statistical committee, in aid of this important experiment, should be formed in each Union.

The statistical committee of the Union, consists of the persons named in the margin; and I am requested by them to beg the favour of your co-operating with, and facilitating the proceedings of, Mr. who has been appointed to act as an enumerator for the collection of the statistics of your parish.

Names of the Statistical Committee of the Union.

Mr. will personally wait upon you at , on the day of October, for the purpose of explaining to you in detail the arrangements for accomplishing the wishes of Her Majesty's Government, which Sir John Walsham has made, and which the committee (relying on the intelligence and public spirit of their neighbours) hope to see successfully carried out in this Union.

I remain, Sirs,
Your obedient Servant,

To the Churchwardens and
Overseers of
The Parish of

Chairman of the Union.

(9.)

AGRICULTURAL STATISTICS.

The following letter has been addressed by Lord Ashburton to the Statistical Committee of the Alresford Union:—

"MY DEAR SIR, "*The Grange, October* 25, 1853.

"Having been unfortunately prevented from attending the Board of Guardians on Friday last, when the subject of Agricultural Statistics was brought under discussion, I may perhaps be allowed to endeavour to remedy that omission by addressing a few words to you and to the other gentlemen appointed as a select committee to report upon the question. I am the more strongly

induced to do so on account of the misapprehensions which seem to have prevailed, both as to the exact nature of the return desired of us, and as to the motives of the Government in desiring it.

"Now, with regard to the first point, the Government does not seek to know the amount of each man's stock or the extent of each man's cultivation. Such a return would be too cumbrous for use, too expensive for publication. The Government wants the sum-totals, not the items of which these sum-totals are composed. It seeks no more to mark and distinguish the return of each occupier than we seek to mark and distinguish each brick of which our house is composed. The house must be put together brick by brick, and the return for the three kingdoms must be gathered item by item; but the items which compose the sum-total will be as much lost in the mass and aggregate of the whole as the bricks which compose the house are lost in the mass and magnitude of the building.

"The next question is—why does the Government desire these statistics? What is its motive? It certainly is not with the view of turning corndealer itself, as some have supposed, for that would be not only absurd, but illegal. It assuredly has no notion of taxing our produce, for no Government, under a representative system, would dare to propose a tax upon the first necessaries of life. It evidently does not wish to pry into our secret concerns, for it provides that we may make our returns at our option, either jointly or severally.

"It appears to me that the wonder is, not that the Government should now endeavour to collect Agricultural Statistics, but that it should never have sought to do so before. It has now for many consecutive years spent large sums in order to collect, digest, and publish the statistics of trade, shipping, and manufactures for the good of the merchants, shipowners, and manufacturers. Why should not some little money have been spared to do as much for us? Is it consistent with common sense that every month the public should have paraded before their eyes, and canvassed in the newspapers, the tons of shipping and the pounds of cotton which have entered or quitted our ports, and that no intimation should be given from year's end to year's end of the food prepared and preparing for a people's subsistence? Is our industry so unimportant, or capital so minute, that no note should be taken of its condition?

"This is not the case in other countries. The United States of America make an annual return of the number of bushels of corn drawn, the quantity they require for their own consumption, and the quantity they can spare for export. The great corn-dealers have long felt the necessity of collecting some such information for their own guidance. Mr. Saunders, of Liverpool, told the House of Commons' Committee in 1833 that he employed agents to travel over the corn districts and report to him both the cultivation and the yield.

"Now, what is the consequence of this partial knowledge? Mr. Saunders can operate on the market for many days before

we, the bulk of the sellers, become aware of the true circumstances which regulate the price of what we have to sell.

"Some ten years ago the same advantage was enjoyed by the great money jobbers on the London Stock Exchange. They kept their couriers travelling from city to city, and obtained information five or six days in advance of the ordinary post. They made rapid fortunes at the expense of the public; but now the electric telegraph has placed all upon a level. The publication of these statistics will produce the same good on the Corn Exchange.

"There is a further consideration which should operate on our judgments, and I therefore mention it, though it may trench upon politics. Not only does the farmer suffer for want of statistics in his contest for price with the great dealer on the Corn Exchange, but he suffers also from the same want in his contest for consideration and political power with other classes on the great stage of life. I have no doubt in my own mind but that the capital we employ and the produce we raise exceed in value all the capitals and all the produce besides raised in this great manufacturing country; but I have no figures to appeal to—I can speak only from conjecture. When, therefore, next year, or when at any future time, it is proposed to make a new apportionment of power according to the importance and magnitude of the several industries, our claims will be most assuredly underrated.

"These statistics would obtain for us justice in this respect. They would show that the contribution of the foreigner to the subsistence of this country is as nothing when compared to that furnished by us. They would prove that, instead of being a backward unenterprising race, bigoted to ancient practices and incapable of improvement, we were bringing every year more and more acres into cultivation, and that we were every year investing more capital, however small might be the profit we derived from it. They would place the small farmer more upon an equality with the great dealer upon the Corn Exchange. They would further give to the trade such accurate information as would diminish the danger of those fatal speculations which ransack the world for corn under mistaken apprehensions of scarcity, and bring ruin on all engaged.

"Actuated by these impressions, I have long desired that we should be put on an equality with the other great industries of the country, and I have done my best at all times to induce the Government of the day to advance the money requisite for the experiment which is now before you.

"I remain, &c.

"Mr. Edward Hunt. "Ashburton.

"I should add that our Scotch neighbours, who are shrewd enough to detect what is and what is not for their advantage, have made their return without hesitation. A still more searching return has been made for two years from Ireland, without complaint on the part of a tenantry who are as quick in perceiving as they are skilful in producing a grievance."

(10.)

SIR, *November* 1, 1853.

As Enumerator specially appointed to take charge of the statistical inquiry in your district, I beg herewith to send you a schedule which I hope you will have the goodness to fill up before the of this month, on (or very soon after) which day I will call for it.

I have to request the favour of your attention to the observations prefixed to Schedule A.; and to add, that should any further information be required, you may apply for it either to me or to Mr.

I am, Sir,
Your obedient servant,

(11.)

REPORT of W. H. T. HAWLEY, Esq., Poor Law Inspector to the POOR LAW BOARD, on the AGRICULTURAL STATISTICS of HAMPSHIRE.

West Green House,
MY LORDS AND GENTLEMEN, *January* 31, 1854.

The inquiry into the Agricultural Statistics of the county of Hants, which you did me the honour to intrust to my charge, has been brought to a close, though, I regret to state, not in a manner so complete and satisfactory as its importance demanded, or my own opinion of its practicability led me to expect. Its imperfections, however, are not attributable to the officers employed in conducting it, who, with one or two exceptions, have evinced a zeal and perseverance in the discharge of their duties highly creditable to themselves.

In my first conference with your Board on the subject of the inquiry on the 3d September last, you were pleased to give me

the option of selecting that county in the district under my charge which, in my own opinion, might be supposed to offer the most advantageous field for its prosecution, and believing, from my long connexion with Hampshire as a magistrate and Poor Law Inspector, that no locality could be selected in which, from the variety of the soil, greater difference in the mode of cultivation could be exhibited, or where agriculture generally had made greater progress, I was disposed to prefer that county to others in contiguity. I was, however, considerably influenced in my selection by the hope that I should find the agriculturists of Hampshire perfectly alive to the objects and importance of the inquiry, and should be giving them an opportunity of showing that they were in no respect inferior to their Scottish brethren, who had recently responded to a similar call in the counties of Roxburgh, Haddington, and Sutherland, with a promptness and acuteness of perception redounding to their own credit, and resulting in the complete success of the undertaking.

After receiving your instructions and taking the necessary steps for putting the machinery of the Boards of Guardians in motion, one of my first proceedings was to call upon many of the most intelligent and influential agriculturists for the purpose of acquainting them with the intentions of the Government, to explain the nature and process of the inquiry, and to obtain such information on my own part as would enable me at the same time to ascertain the feelings of the public upon the question, and to guide me in the performance of my own duties. I also took every opportunity which presented itself of giving publicity to the measure, and satisfying as far as possible the doubts and objections of inquirers. In the outset of these communications with the agriculturists I found most of those with whom I held conferences to be favourably disposed towards the object which I had in view, and I have reason to believe that had it been left to the decision of individual opinions the issue of the inquiry would have been completely successful; but a body of opponents was speedily organized through the instrumentality of certain agricultural clubs, established in different parts of the county, whose zealous hostility created great subsequent difficulties.

In justice to the landlords as a body (though there have been some exceptions) it is a gratifying part of my duty to state that nothing could exceed the alacrity and kindness with which they came forward to support me in the difficulties against which I had to contend, and my warmest acknowledgments are due to them for advice and assistance, deprived of which, my own efforts, in endeavouring to bring the inquiry to a successful termination, would have been powerless.

I have also to acknowledge with gratitude that the objects of the inquiry were advocated by every newspaper circulating in the county—in many cases with great ability and effect.

An admirable letter (which I have thought right to subjoin to this report) addressed by Lord Ashburton to one of the members of the Agricultural Statistical Committee of the Alresford Union was widely circulated at the same time, and proved a powerful auxiliary to the efforts of the public press.

The reception which the measure, on its first promulgation, met with generally from the Boards of Guardians was highly favourable (though here, too, there were some few exceptions). To the circulars which, as a preliminary step, I addressed to the chairmen, requesting their co-operation, I received replies containing offers of ready and effective assistance, and the promises then so spontaneously given were subsequently fairly redeemed. Committees were promptly formed, in which some of the leading agriculturists of the Union were associated with the Guardians, and by this arrangement all grounds of complaint that their interests were not fairly represented and protected were effectually removed. The clerks readily undertook the duties of classifiers, and the relieving officers were appointed as enumerators—an office for which their general knowledge of their districts and their daily intercourse with the inhabitants peculiarly qualified them. The aid of the churchwardens and overseers was also requested, and generally nothing was left undone which could tend in any way to facilitate and forward the proceedings. During the inquiry I was in constant communication with the guardians, and the officers employed, and I personally visited the several boards to advise and assist as frequently as my other duties would permit, and wherever my attendance was specially required. The preliminary arrangements were speedily completed, and within four weeks from the time I made my first communication to the Board of Guardians, the whole of the machinery for the inquiry was organized and in operation.

I regret, however, to state that shortly after the committees had commenced their proceedings, the active hostility to which I have already alluded (and which was founded almost wholly upon the misapprehensions and prejudices so clearly exposed in Lord Ashburton's letter) commenced, and the duties of the officers, which promised only an ordinary amount of trouble, were seriously impeded and increased by it. They, however, persevered against all difficulties, and the results of their labours, if not so satisfactory as I anticipated, are still creditable to themselves, and have brought the inquiry to a degree of completeness much higher than I latterly expected.

The documents which have been used by me in the prosecution of the inquiry are identical with those prepared and employed by Sir John Walsham, modified only as to dates to adapt them to the period at which they were brought into operation, which was a fortnight later than that at which Sir John commenced his proceedings. Copies of these documents will be found in the Appendix to this Report. *

They consist of—

A 1. Circular to Chairmen following a preliminary private communication.

A 2. Memoranda for the guidance of officers acting as classifiers and enumerators.

* All the appendices to Mr. Hawley's report will be found in the Appendix to Sir John Walsham's report, with which they are identical (except as respects the name of the county, date, &c.) The document referred to as A 9, which contains the result of Mr. Hawley's inquiry, is, however, appended to *this* report.

A 3. Copy of the abstract of published returns from Scotland.
A 4. Letter from statistical committees to parish officers, requesting their aid and assistance for the enumerators.
A 5. Schedule A. Statement to be made by every occupier of two acres and upwards.
A 6. Schedule B. Parochial abstract of Schedule A.
A 7. Auxiliary Schedule for the correct preparation of Schedule B.
A 8. Schedule C. Abstract of parochial returns for the Union made in Schedules A. and B. to be prepared by the classifier.
A 9. Schedule D. Abstract of Union returns for the county to be prepared by the Poor Law Inspector.

Experience has shown that for the purpose of any future inquiry the schedules containing the returns will require considerable alterations, so as to ensure a more perfect accuracy in the classification of the meadow and pasture lands, and of live stock of all descriptions ; the incomplete mode of subdivision in these particulars has created misunderstandings which have only been cleared up on the present occasion by constant replies to the explanations required by the enumerators. Some suggestions have been thrown out by correspondents for simplifying and amending the schedules, which may be found useful hereafter.

The county of Hampshire comprises twenty-three Unions, formed under the provisions of the Poor Law Amendment Act, viz. :— Reference to detail in Schedule D.

1. Alresford.
2. Alton.
3. Andover (partly in Wiltshire).
4. Basingstoke (partly in Berkshire).
5. Catherington.
6. Christchurch.
7. Droxford.
8. Fareham.
9. Fordingbridge (partly in Wiltshire).
10. Hartley Wintney.
11. Havant.
12. Hursley.
13. Kingsclere.
14. Lymington.
15. New Forest.
16. Petersfield.
17. Portsea Island.
18. Ringwood.
19. Romsey (partly in Wiltshire).
20. South Stoneham.
21. Stockbridge (partly in Wiltshire).
22. Whitchurch.
23. Winchester.

Two incorporations under Gilbert's Act, viz. :
Farnborough.
Headley.

One single parish under Gilbert's Act, viz. :—
Alverstoke.

Two incorporations under local Acts, viz. :—
Isle of Wight.
Southampton.

And two single parishes, unconnected with any Union or incorporation within the bounds of the county, viz. :—
Aldershott.
Sutton.

The parish of Sutton has been added to the Hartley Wintney Union for the purposes of the inquiry.

The total number of acres returned by the enumerators is 895,410¾, of which 603,219½ include land under tillage and meadow and pasture, and the remainder consists of "holdings less than two acres," "woods and plantations," "commons and wastes," and "lands not accounted for," containing in the aggregate 292,191¼ acres.

The total number of schedules issued to the occupiers of two acres and upwards throughout the county was 8,599, of which 6,408, or 75 per cent., have been filled up and signed by the occupiers themselves; 1,498 have been filled up by the enumerators from information obtained by them from sources upon which positive reliance could be placed, and from 693 holdings no returns have been made, the occupiers having either declined to furnish the necessary data themselves, or the enumerators having failed to obtain such information as would justify them in supplying the data withheld by the occupiers. Of these 693 blank schedules, 424 have been returned from the Isle of Wight alone. In that locality 1,088 schedules were issued, of which 664 were voluntarily filled up by the occupiers, but the obstacles thrown in the way of the enumerators whilst endeavouring to obtain the required information for completing the remainder, were so insurmountable, that they very properly returned them in a blank state rather than incur the risk of making estimates, the accuracy of which could not be relied upon. Omitting, therefore, the deficiencies in the Isle of Wight, which are in great disproportion to the county generally, the result for the whole county will stand thus:—

Number of schedules filled up by occupiers themselves - - -	6,408	or 78½ per cent.
Number of schedules filled up by enumerators from information obtained by them - - - -	1,498	or 18 per cent.
Total schedules filled up by occupiers and enumerators - - -	7,906	or 96½ per cent.
Total returned blank where no information could be obtained - -	269	or 3½ per cent.

I have, &c.
(Signed) W. H. T. Hawley,
Poor Law Inspector.

The Poor Law Board, London.

Enclosure in Mr. Hawley's Report.

NOTE.—In-maintenance consists of the cost of food, clothing, and necessaries supplied for the use of the poor in the Workhouse. Out-relief consists of relief in money and kind, together with relief by way of loan (if any) to the out-door poor.

The above expenditure applies to 608 unions and single parishes under the Poor Law Amendment Act, but does not include parishes under Local Acts, Gilbert's Act, and the 43d of Elizabeth, the total expenditure for in-maintenance and out-relief of which in the latter half-year may be stated at about 182,474*l.* The cost of maintaining irremovable poor is included in the above Return. Total population of England and Wales, according to the Census of 1851, 17,927,609.

* This sum includes the expenditure, for the half-year ended Lady-day last, of the parishes lately separated from the Anglesey Union.

† Increase, after deducting Decrease, £23,478.

No. 21.—STATEMENT showing the Amount of Money expended for In-maintenance and Out-door Relief in 617 Unions and Single Parishes, under the Poor Law Amendment Act, in England and Wales, during the Half-years ended at Michaelmas 1852 and Michaelmas 1853 respectively.

NOTE.—In-maintenance consists of the cost of food, clothing, and necessaries supplied for the use of the poor in the Workhouse. Out-relief consists of relief in money and kind, together with relief by way of loan (if any) to the out-door poor.

The above expenditure applies to 617 unions and single parishes under the Poor Law Amendment Act, but does not include parishes under Local Acts, Gilbert's Act, and the 43d of Elizabeth (excepting those acting under the accounts order of the Poor Law Commissioners), the total expenditure for in-maintenance and out-relief of which in the half-year ended Lady-day 1853, may be stated at about 171,300*l*. The cost of maintaining irremovable poor is included in the above Return. Total Population of England and Wales, according to the Census of 1851, 17,927,609.

* Seventeen parishes have been separated from the Great Boughton Union in the county of Chester, fifteen of which now form the Hawarden Union in the county of Flint, and two form part of the Whitchurch Union, Salop; four parishes have also been separated from the Anglesey Union and added to the Carnarvon Union; and twelve from the Wrexham Union, Denbighshire, and added to the Whitchurch Union, Salop; therefore a correct comparison cannot be shown so far as regards those counties.

† Increase, after deducting Decrease, £10,118.

No. 22.

TABLE showing the Estimated Population, the Amount of Money levied for Poor Rates, and th Amount Expended for the Relief and Maintenance of the Poor in England and Wales, for th Years ended at Lady-day, 1834 to 1853, both inclusive; with the Rate per Head of the Amou levied and expended for Relief to the Poor, on the Estimated Population, the Rate in the Poun of Expenditure for Relief to the Poor on the Annual Value of Rateable Property in 1847; an the Average Price of Wheat per Quarter in each Year.

NOTE.—The Returns for the year 1803 were obtained under an Act of the 43d Geo. III., and those for 1813, 1814, and 1815, under the Act of 55th Geo. III. For the years 1816 to 1834 inclusive the Returns were made in pursuance of Orders of the House of Commons; and from the latter period to the present time they have been called for by the Commissioners under the Poor Law Amendment Act, forming an unbroken Parliamentary series, from the year 1813 to the present time.

* The average price of wheat per quarter was obtained from the Comptroller of Corn Returns.

† In this year the expenditure for the relief of the poor was at the maximum.

‡ The Poor Law Amendment Act received the Royal Assent on the 14th August 1834.

Wales in each year, from the earliest period for which authentic Parliamentary Returns have ding heads, for the same periods, showing also the Increase or Decrease in each year on the of Wheat per Quarter in each Year.

EXPENDITURE.									
ents for ards the ty and Police [if any, if not ut of the nty or gh Rate ncluded with previous mn.]	Costs of Voters, Burgess, and Jury Lists.	Expenses of Parish Property. No. 32. Statement of the Number of Poor Persons who have been authorized to Emigrate at the Cost of Parishes, and of the Sums which the Poor Law Board have authorized to be raised or borrowed for the purpose, from the 1st January to the 31st December 1854 . . 137

No. 33. Statement of the Number of Poor Persons who have been authorized to Emigrate at the Cost of the Common Fund, from the 1st of January to the 31st of December 1854 139

No. 34. List of Unions and Parishes for which Workhouses have been ordered by the Poor Law Board to be built or adapted, with the Sums authorized to be expended, from the 1st of January to the 31st December 1854 140

No. 35. List of Unions in which Parish Property has been sold, and the Produce appropriated under Orders of the Poor Law Board . . 142

No. 36. Statement showing the Purposes to which the Produce of the Sale of Parish Property has been directed to be applied, of such part of the Property in the former Reports as was not previously applied, from the 1st January to the 31st December 1854 144

No. 37. Statement.—New Unions formed by the Poor Law Board . . 146

No. 38. Statement showing the Number and Subjects of Orders issued by the Poor Law Board from the 1st January to the 31st December 1854 148

No. 39. Vaccination Extension Act.—Abstract of Returns from 649 Unions and Parishes under Boards of Guardians, in England and Wales, of the Number of Persons vaccinated in such Unions and Parishes, in the Year ended 29th September 1854 150

No. 40. Abstract of Returns showing the Number of Pauper Lunatics and Idiots chargeable to Parishes comprised in each County in England and Wales on the 1st January 1854 152

REPORT.

To the Queen's Most Excellent Majesty.

Poor Law Board, Whitehall,
December 31, 1854.

May it please Your Majesty,

We, the Poor Law Board, beg leave to submit to Your Majesty the following Report of our proceedings for the past year :

In doing so we propose to adhere to the arrangement of subjects observed in our preceding Reports,—setting forth, in the first place, the amount of the expenditure for the relief of the poor, and the number of persons relieved during the past year, and then adverting to such other points connected with the administration of the poor law as it appears to us desirable to notice.

Expenditure for Relief.

It will be seen from the Poor Rate Returns, summaries of which are inserted in the Appendix, that the amount expended for the relief of the poor, during the year ended at Lady-day 1854 (the date to which the Annual Poor Rate Return is made out), is 5,282,853*l.* The sum expended during the preceding year amounted to 4,939,064*l.* ; and there has, therefore, been an increase in the expenditure of the last year as compared with that of the preceding year of 343,789*l.* or 7·0 per cent.

The expenditure per head on the population during the last year was 5*s.* 8*d.*, and during the preceding year 5*s.* 4½*d.*, being an increase of 3½*d.* per head.

The comparison between the expenditure of the two years will be more conveniently exhibited by the following Table :—

Years ended Lady-day.	Expended for Relief of the Poor in England and Wales.	Increase in 1854, as compared with 1853.	Increase per Cent.	Rate per Head on Population.	Increase per Head in 1854, as compared with 1853.
	£	£		*s.* *d.*	*s.* *d.*
1853	4,939,064	343,789	7·0	5 4½	0 3½
1854	5,282,853			5 8	

Note.—The Summary of the Poor Rate Return inserted in the Appendix (page 46) sets forth the expenditure, the total of which is shown in the

This increase is mainly attributable, in our opinion, to the rise which took place in the year 1853 in the price of food and of many of the principal necessaries of life, and which has continued with little variation to the present time.

Notwithstanding the large increase which has taken place in the total expenditure of 1854, as compared with 1853, there has been a slight decrease in three counties.

The following are the rates per cent. both of the *increase* and of the *decrease* of 1854 as compared with 1853 in the several counties in England and Wales:

Increase per cent. :—

Bedford	7·8	Lincoln	4·4	Worcester	7·4
Berks	10·6	Middlesex	12·4	York (E. Riding)	0·8
Buckingham	8·7	Monmouth	0·5	York (N. Riding)	3·5
Cambridge	10·5	Norfolk	10·1	York (W. Riding)	1·6
Chester	0·9	Northampton	5·8		
Cumberland	3·8	Northumberland	3·0		
Derby	2·7	Nottingham	5·9	Anglesey	23·2
Devon	3·4	Oxford	4·5	Brecon	2·0
Dorset	6·6	Salop	8·8	Cardigan	6·4
Durham	4·7	Somerset	2·4	Carmarthen	2·1
Essex	10·5	Southampton	7·4	Carnarvon	8·0
Gloucester	6·4	Stafford	3·6	Denbigh	3·0
Hereford	8·1	Suffolk	8·4	Flint	1·4
Hertford	6·4	Surrey	9·5	Merioneth	0·8
Huntingdon	9·5	Sussex	9·9	Montgomery	2·9
Kent	13·2	Warwick	15·4	Pembroke	4·0
Lancaster	5·8	Westmorland	3·3	Radnor	8·4
Leicester	5·4	Wilts	6·2		

Decrease per cent. :—

Cornwall	0·7	Rutland	1·0	Glamorgan	2·0

The following Table exhibits the expenditure for the relief of the poor for each year from 1834, when the Poor Law Amendment Act was passed, to 1854 :—

---

above Table, more in detail. This expenditure comprises "in-maintenance" (column 1.), "out-relief" (column 2.), "workhouse loans repaid, and interest thereon" (column 3.), "salaries and rations of officers" (column 4.), "other expenses of or immediately connected with relief" (column 5.) Those "other purposes" comprehend the cost incurred for emigration, for the maintenance of lunatics in asylums, for extra medical relief and fees, and for the burial of paupers.

Years ended at Lady-day.	Estimated Population.	The Total expended in Relief to the Poor.	Rate per Head of Amount expended in Relief to the Poor on the Estimated Population.	Rate in the Pound of Expenditure for Relief to the Poor in each Year, calculated on the Annual Value of Rateable Property in 1847.
		£	s. d.	s. d.
1834	14,372,000	6,317,255	8 9½	1 10½
1835	14,564,000	5,526,418	7 7	1 7¾
1836	14,758,000	4,717,630	6 4¾	1 4¾
1837	14,955,000	4,044,741	5 5	1 2½
1838	15,155,000	4,123,604	5 5¼	1 2¾
1839	15,357,000	4,406,907	5 8¾	1 3¾
1840	15,562,000	4,576,965	5 10½	1 4¼
1841	15,906,741	4,760,929	6 0½	1 5
1842	15,981,000	4,911,498	6 1¾	1 5½
1843	16,194,000	5,208,027	6 5¼	1 6½
1844	16,410,000	4,976,093	6 0¾	1 5¾
1845	16,629,000	5,039,703	6 0¾	1
1846	16,851,000	4,954,204	5 10½	1 5¾
1847	17,076,000	5,298,787	6 2½	1 7
1848	17,304,000	6,180,764	7 1¾	1 10
1849	17,534,000	5,792,963	6 6½	1 8¾
1850	17,765,000	5,395,022	6 1	1 7¼
1851	17,927,609	4,962,704	5 6½	1 5¾
1852	18,205,000	4,897,685	5 4½	1 5½
1853	18,402,000	4,939,064	5 4½	1 5½
1854	18,617,000	5,282,853	5 8	1 6¾

The preceding statements have had reference to the expenditure for all purposes immediately connected with relief as well as for relief itself; but the following Tables show the cost of relief alone, so far as the Unions and single Parishes under Boards of Guardians are concerned:—

Number of Unions.	Years.	Expended for In-Maintenance and Out Relief.*		
		In-Maintenance.	Out-Relief.	Total.
		£	£	£
618	Year ended Lady-day 1853 -	653,848	2,614,764	3,268,612
	Year ended Lady-day 1854 -	791,212	2,721,835	3,513,047
Increase		137,364	107,071	244,435
Increase per Cent.		..	..	7·5

Number of Unions.	Years.	Expended for In-Maintenance and Out-Relief.		
		In-Maintenance.	Out-Relief.	Total.
		£	£	£
618	Year ended Michaelmas 1853 -	686,868	2,591,862	3,278,730
	Year ended Michaelmas 1854 -	902,015	2,923,788	3,825,803
Increase		215,147	331,926	547,073
Increase per Cent.		..	..	16·7

It will be observed that the first of the above Tables comprehends the year ended at Lady-day last, and the second the year ended at Michaelmas last.

Number of Persons relieved.

Having thus noticed the *cost of relief*, we proceed to state the *number of persons* in receipt of relief on the 1st day of January and the 1st day of July last, and to compare the number in receipt of relief on those days with the number in receipt of relief on the corresponding days in the year 1853. The following summaries will exhibit these particulars.

Summary of Returns from 618 Unions and Single Parishes under Boards of Guardians, showing the Number of Persons of all Classes in receipt of Relief on the 1st January 1853 and 1st January 1854 respectively.

Number of Unions.	Year and Day.	All Classes except Insane and Vagrants.	Insane Persons.	Vagrants.	Total of all Classes.
618	1st January 1853 .	790,583	15,469	1,494	807,546
	1st January 1854 .	800,551	16,638	1,633	818,822
Increase on 1st January 1854 compared with 1st January 1853		9,968	1,169	139	11,276 or 1·4 per Cent.

* The cost of *in-maintenance* includes the cost of food, clothing, and other necessaries supplied for the use of the poor in workhouses. The cost of *out-*

SUMMARY of RETURNS from 619 UNIONS and SINGLE PARISHES under Boards of Guardians, showing the Number of Persons of all Classes in receipt of Relief on the 1st July 1853 and the 1st July 1854 respectively.

Number of Unions.	Year and Day.	All Classes except Insane and Vagrants.	Insane Persons.	Vagrants.	Total of all Classes.
619	1st July 1853 . .	732,124	15,747	1,499	749,370
	1st July 1854 . .	770,536	16,783	1,702	789,021
Increase on 1st July 1854 compared with 1st July 1853		38,412	1,036	203	39,651 or 5·3 per Cent.

STATEMENT of the Number of Adult Able-bodied Persons (In-door and Out-door) in receipt of Relief in 618 UNIONS and SINGLE PARISHES under Boards of Guardians on 1st January 1853 and 1st January 1854 respectively.

Number of Unions.	Year and Day.	Widows receiving Out-door Relief.	All other Classes, In-door and Out-door.	Total.
618	1st January 1853 .	47,082	80,537	127,619
	1st January 1854 .	47,200	88,849	136,049
Increase on 1st January 1854 compared with 1st January 1853		118	8,312	8,430 or 6·6 per Cent.

Returns have been received, during the progress of printing this Report, of the number of persons in receipt of relief in 620 Unions and Single Parishes, under Boards of Guardians, in England and Wales, on the 1st January 1855. Summaries of these returns are inserted in the Appendix (pages 110 and 111).

The following is a comparison of the number in receipt of relief (in-door and out-door) on the 1st January 1855, with the number in receipt of relief on the 1st January 1854:—

As respects paupers of all classes,—

The number in receipt of relief on the 1st January 1854 - 819,985
The number in receipt of relief on the 1st January 1855 - 840,720

Increase - - - - 20,735 *or* 2·5 *per cent.*

As respects adult able-bodied paupers,—

The number in receipt of relief on the 1st January 1854 - 136,277
The number in receipt of relief on the 1st January 1855 - 142,656

Increase - - - - 6,379 *or* 4·7 *per cent.*

In twenty-two of the English counties and in four of the Welsh there appears to have been an increase in the number of the adult able-bodied paupers in receipt of relief

---

relief includes the cost of relief in money and kind and relief by way of loan (if any) given to the out-door poor. The cost of medical relief is not, however, included under that of in-maintenance or out-relief. The cost of medical relief amounted for the year ended at Lady-day 1854 to 230,777*l.*, and for the preceding year to 215,054*l.*

STATEMENT of the Number of Adult Able-bodied Persons (In-door and Out-door) in receipt of Relief in 619 UNIONS and SINGLE PARISHES under Boards of Guardians on 1st July 1853 and 1st July 1854 respectively.

Number of Unions.	Year and Day.	Widows receiving Out-door Relief.	All other Classes, In-door and Out-door.	Total.
619	1st July 1853 . .	46,600	62,598	109,198
	1st July 1854 . .	47,500	76,159	123,659
Increase on 1st July 1854 compared with 1st July 1853		900	13,561	14,461 or 13·2 per cent.

It will be observed that the returns comprehended in the foregoing summaries are returns of the number of persons in receipt of relief in Unions, and Single Parishes under Boards of Guardians only; the places under Local Acts, as well as Gilbert's Incorporations, and Single Parishes under the Act 43 Eliz. c. 2., which together contain a population of 1,676,748, not being included therein. It will be noticed also that the above summaries relate either to the 1st of January, when pauperism is highest, or the 1st of July, when it is lowest.

In order to exhibit the pauperism of the *whole* of England and Wales, we have in the TABLE below made an estimate of the numbers in receipt of relief in the places not included in the above summaries, based on the actual numbers in receipt of relief in the places which are in-

---

on the 1st January 1855, as compared with the number in receipt of relief on the 1st January 1854; but in all the other counties there was a decrease. The rate per cent. of the increase and decrease in the several counties is as follows:—

Increase.

Chester . . . . . 17·1	Middlesex . . . 8·3	Westmorland . . . 1·6
Cornwall . . . . 0·5	Northumberland . 2·6	Worcester . . . . 5·7
Cumberland . . . 19·1	Nottingham . . . 37·2	York, East Riding . 0·8
Derby . . . . . 0·2	Oxford . . . . 13·3	York, West Riding . 46·8
Devon . . . . . 9·9	Rutland . . . . 6·9	Anglesey . . . . 18·4
Gloucester . . . . 9·1	Stafford . . . . 12·4	Brecon . . . . . 32·1
Hereford . . . . 11·3	Surrey . . . . 21·3	Cardigan . . . . 3·4
Lancaster . . . . 18·1	Sussex . . . . 2·0	Pembroke . . . . 6·5
Leicester . . . . 1·6	Warwick . . . . 10·4	

Decrease.

Bedford . . . . . 7·2	Kent . . . . . 4·0	Wilts . . . . . 5·1
Berks . . . . . 0·7	Lincoln . . . . 2·7	York, North Riding . 2·9
Buckingham . . . 1·9	Monmouth . . . 2·9	Carmarthen . . . 5·2
Cambridge . . . . 26·2	Norfolk . . . . 9·0	Carnarvon . . . . 0·7
Dorset . . . . . 4·3	Northampton . . 4·4	Flint . . . . . 8·2
Durham . . . . 7·3	Salop . . . . . 14·1	Glamorgan . . . . 0·5
Essex . . . . . 3·5	Somerset . . . . 0·3	Merioneth . . . . 1·1
Hertford . . . . 3·5	Southampton . . 5·1	Montgomery . . . 9·8
Huntingdon . . . 22·7	Suffolk . . . . 7·4	Radnor . . . . . 7·1

cluded therein; that is to say, we have estimated the pauperism of places comprising a population of 1,676,748 on the actual pauperism of places comprising a population of 16,250,861; and in order to show the average numbers *at one time* in receipt of relief during the whole year, we have taken the mean of the numbers in receipt of relief on the 1st of January and the 1st of July respectively. The Table gives a view of these important particulars for each year from 1849 (being the first year for which they can be given) to 1854.

TABLE.

Years ended at Lady-day.	Population of England and Wales.	The Average Number of *Paupers of all Classes* (including Children) at one time in receipt of Relief in England and Wales.			Ratio per Cent. of Paupers relieved on the Population.	The Average Number of *Adult Able-bodied Paupers* (exclusive of Vagrants) at one time in receipt of Relief in England and Wales.			Ratio per Cent. of Adult Able-bodied Paupers on the Total Number of Paupers of all Classes relieved.	Average Price of Wheat per Quarter.
		In-door.	Out-door.	Total.		In-door.	Out-door.	Total.		
										s. d.
1849	17,534,000	133,513	955,146	1,088,659	6·2	26,558	202,265	228,823	21·0	49 1
1850	17,765,000	123,004	855,696	1,008,700	5·7	24,095	167,815	191,910	19·0	42 7
1851	17,927,609	114,367	826,948	941,315	5·3	20,876	142,248	163,124	17·3	39 11
1852	18,205,000	111,323	804,352	915,375	5·0	18,455	130,705	149,160	16·3	39 4
1853	18,402,000	110,148	776,214	886,362	4·8	17,649	121,926	139,575	15·7	42 0
1854	18,617,000	111,635	752,982	864,617	4·6	18,237	116,954	135,191	15·6	61 7

The decrease in the average number of paupers of all classes in receipt of relief in 1854 as compared with 1849, is shown to be 20·6 per cent; and as regards able-bodied paupers the decrease in 1854 as compared with 1849 appears to be 40·9.

Vaccination.

A summary of the Returns received from the several Unions and Parishes in England and Wales of the number vaccinated by the public vaccinators during the year ended at Michaelmas last is given in the Appendix, page 150. This summary shows the number of persons vaccinated during the last year to have been 698,935, being an increase upon the number vaccinated in the preceding year of 322,717. The summary also shows that the number of cases in which vaccination was successful was 677,886, which is an increase of 311,293 upon the number successfully vaccinated during the last year as compared with the preceding year.

Emigration.

We find that only 327 persons received assistance out of the poor rates during the year to emigrate.

These persons proceeded from the following counties :—

Bedford	14	Leicester	13
Berks	5	Middlesex	31
Cambridge	46	Northampton	5
Devon	15	Rutland	21
Dorset	13	Somerset	7
Essex	10	Southampton	7
Gloucester	17	Suffolk	20
Hereford	5	Surrey	32
Hertford	11	Sussex	28
Huntingdon	3	Wilts	14
Kent	2	Worcester	3
Lancaster	5		

The destinations of the emigrants were as follow :—

Canada	68
Australian Colonies	259

As bearing upon this subject we think it right to observe, that we have declined during the past year to sanction any expenditure from the Poor Rate in aid of emigration to the Australian Colonies (except in cases presenting special circumstances), on the ground that the condition of those colonies appears to us at present to be such as of itself to attract largely voluntary and independent emigration.

Lunatic Paupers.

A summary of Returns received by the Board in regard to pauper lunatics will be found in the Appendix (p. 152, 153). The total number of insane persons chargeable on the 1st January 1854, appears to be 24,487. Of this number 15,697 (6855 males and 8842 females) were lunatics and 8790 (4206 males and 4584 females) were idiots. 11,956 were maintained in county or borough lunatic asylums, 1878 in licensed houses, 5713 in union workhouses, and 4940 with their friends. The total cost of maintaining pauper lunatics is shown to be 388,498*l.*

Workhouse and District Schools.

With regard to the training and education of pauper children receiving in-door relief, we feel justified in stating that there is a satisfactory improvement observable. We believe that Boards of Guardians generally entertain an increasing sense of the importance of securing for the children under their charge such an education as may fit them for the duties of their probable positions in life, and of the necessity of ensuring their separation from adult paupers. We learn from our Inspectors that the number of Workhouse Schools in which a system, more or less complete, of industrial training, has been adopted, is certainly increasing ; and, in addition to the numerous

instances already known to us in which wash-houses and laundries have been erected for the employment of the girls, separately from the adult women, we have been informed of several Unions in which cows have been purchased, and small dairies provided, with a view of training girls in this part of a female servant's duty — so essential among the agricultural classes. We shall continue, through our Inspectors, strenuously to urge the extension of industrial training. As respects District Schools, though we are unable to report any addition to their number, we have reason to believe that those which exist are working well, and that the demand for the services of girls and boys trained in those schools is increasing.

A statement will be found in the Appendix (page 123) showing the average number of children attending the Workhouse School of every Union in England and Wales, as well as the number attending District Schools, during the half-year ended at Lady Day last; and also the amount of money paid in each case from the Parliamentary Grant in respect of the salaries of the teachers. The following is a summary of this statement: —

Average number of children attending *workhouse* schools during the half-year ended at Lady-day 1854,—		
Boys,—		
Under 10 years of age . .	8,529	
Above 10 years of age . .	8,749	
		17,278
Girls,—		
Under 10 years of age . .	9,190	
Above 10 years of age . .	7,355	
		16,545
Average number of children attending *district* schools during the same period,—		
Boys,—		
Under 10 years of age . .	344	
Above 10 years of age . .	663	
		1,007
Girls,—		
Under 10 years of age . .	371	
Above 10 years of age . .	492	
		863
Total of Boys and Girls . .		35,693

	£	*s.*	*d.*
The amount paid to Boards of Guardians out of the Parliamentary grant in respect of the salaries of workhouse and district school teachers, for the year ended at Lady-day 1854	23,012	12	2

Satisfactory progress has been made during the past year in providing or improving Workhouse accommodation, and

New Workhouses.

we may observe particularly that the Guardians in many Unions have taken effectual steps for the improvement and extension of the accommodation for the sick. We have affixed our seal to plans for new Workhouses in five Unions; viz., in the Camelford Union for 70 inmates, in the Dulverton Union for 60 inmates, in the Stratton Union for 80 inmates, in the Sunderland Union for 500 inmates, and in the Newport (Salop) Union for 130 inmates.

We have also approved of plans for altering, enlarging, or otherwise improving the Workhouses of forty-six Unions (in the majority of cases with reference either to the infirmaries or to the school premises); viz., Altrincham, Ashton-under-Lyne, Bath, Blackburn, Bradford (York), Brampton, Bridge, Cardiff, Carmarthen, Chepstow, Church Stretton, Downham, Faversham, Freebridge Lynn, Hackney, Halstead, Hartismere, Huddersfield, Islington, St. Ives, Medway, Newcastle-on-Tyne, Newport (Monmouth), Ongar, Paddington, Reigate, Rye, Southampton, Stafford, Stockport, Stourbridge, St. Thomas, Ticehurst, Totnes, Tynemouth, Uxbridge, Wallingford, Warrington, Watford, Wellington (Somerset), Wells, West Derby, Williton, New Winchester, Windsor, and Wolverhampton.

New Unions. We have formed two new Unions during the year, namely, the Knaresborough and the Great Ouseburn Unions, in the county of York. The former comprises 21 townships and the latter 41. A large number of these townships had for a series of years been acting as an incorporation under the 22 Geo. 3. c. 83., but without being legally constituted; while in the others relief to the poor continued to be administered by Overseers under the 43 Eliz. c. 2.

Medical Order. In the month of May last a Committee of the House of Commons was appointed, on the motion of Mr. Pigott, for the purpose of inquiring into the mode in which medical relief was then administered in the different Unions in England and Wales, and to ascertain whether any additional facilities might be afforded the poor in obtaining medical aid. That Committee having reported to the House, among other things, "that every medical officer to be appointed after the 25th of March 1855 should continue in office until he may die, resign, or become legally disqualified to hold such office, or be removed therefrom by the Poor Law Board," it became our duty to take the subject into immediate consideration. We have accordingly prepared, and are about immediately to issue, a General Order providing that, except in those cases in which, from local or

special causes, such an arrangement should be proved to the Poor Law Board to be impracticable, every medical officer, if duly qualified, and resident within his district, shall "hold his office until he shall die, or resign, or be proved to be insane by evidence which the Poor Law Board shall deem sufficient, or become legally disqualified to hold such office, or be removed by the Poor Law Board."

Outbreak of Cholera.

In consequence of the recurrence of cholera in several parts of the country, we thought it right, in August last, to issue a circular to Boards of Guardians (a copy of which is printed in the Appendix, p. 35), with a view of directing their attention specially to their powers and duties under the several statutes which have been passed for the removal or abatement of nuisances injurious to health. We also deemed it expedient to urge upon Guardians in that circular the importance of guarding against any over-crowding in the workhouse, and of revising the workhouse dietary, should such revision be deemed necessary by the medical officer. We have reason to believe that Guardians, generally, throughout the Kingdom, have displayed, on this as on the former visitation, much energy and promptitude, as well in the discharge of their duties under the Nuisances Removal Act as in the execution of the instructions received from the General Board of Health. We have much satisfaction, too, in expressing our sense of the zeal and activity of our own Inspectors in promoting the effectual adoption of the preventive or remedial measures which the visitation rendered necessary.

Poor Removal.

In the course of last Session, a Select Committee of the House of Commons was appointed "to inquire into the operation of the Act 8 & 9 Vict. c. 117. relating to the removal from England of chargeable poor persons born in Scotland, Ireland, the Isles of Man, Scilly, Jersey, or Guernsey; and also into the operation of the Act 8 & 9 Vict. c. 83. relating to the removal from Scotland of chargeable poor persons born in England, Ireland, or the Isle of Man."

The Committee to whom these important subjects were referred, examined a considerable number of witnesses, and prosecuted the inquiry diligently till the close of the Session. At that time, however, they considered the investigation so far from complete, that they agreed simply to report the evidence already taken, and to recommend that the inquiry should be resumed early in the next Session of Parliament.

Amendment of the Law.
17 & 18 Vict. c. 41.

Some of the statutes passed in the last session of Parliament apply to the subject of Poor Law Administration. By the 17 & 18 Vict. c. 41. the continuance of this Board is extended for a further period of five years, that is, until the 23d day of July 1859, and to the end of the then next session of Parliament.

17 & 18 Vict. cc. 43 & 66.

By the 17 & 18 Vict. c. 43. and c. 66. the temporary Act which renders certain classes of poor persons in Unions chargeable upon the Common Fund, and that which exempts inhabitants from liability to be rated as such in respect of stock in trade and other property, are each renewed for another year.

17 & 18 Vict. c. 104.

The statute 17 & 18 Vict. c. 104. provides for the apprenticeship of poor boys to the sea service, and requires, subject to certain specified provisions, such apprenticeships, when made by any Guardians or Overseers of the Poor, or persons having the authority of Guardians, to be made in the same manner and to be subject to the same laws and regulations as other apprenticeships may be made by the same persons. Sections 168. and 169. provide for the allotment of portions of a seaman's wages on behalf of his wife, parents, children, or other relatives; and sections 192. and 193. render his wages liable in certain proportions to be charged with the cost of the relief supplied during his absence for the maintenance of his wife, child, or stepchild, and give a summary remedy to Guardians or Overseers for the recovery of the amount so charged out of the wages on the return of the seaman.

17 & 18 Vict. c. 120.

The 17 & 18 Vict. c. 120. repeals the 8 & 9 Vict. c. 116. as applied to apprenticeships to the sea service, and the 59 G. 3. c. 12. sect. 32., which related to the relief of seamen's wives and families. The same Act in section 16. contains the following important provision:—"If a native of any country in Asia or Africa, or of any of the islands in the South Sea or the Pacific Ocean, or of any other country not having any Consul in the United Kingdom, is brought thereto in any ship, British or Foreign, as a seaman, and is left in the United Kingdom, and within six months of his being so left becomes chargeable upon the Poor Rate, the master or owner of the said ship is rendered liable to a penalty of 30*l.*, unless he can show that the person so left quitted the ship without the consent of the master, or that due means have been afforded by such master or owner to such person of returning to his native country, or to the country from which he was shipped; and the court inflicting the penalty may order the whole or any part of such penalty to be applied towards the relief or

sending home of such person." In regard to a foreign ship, the person who is consignee of the ship at the time of the seaman being so left is rendered liable to the penalty.

Proceedings in a Court of Law. Caton Incorporation.

In January last we deemed it right to place the Caton Incorporation, which is a Union formed under Gilbert's Act, and situate in the northern part of Lancashire, under the supervision of a district auditor, and, acting in pursuance of the 7 & 8 Vict. c. 101. sect 32., we added this Incorporation to the West and North Lancashire Audit District. The Guardians of the Incorporation declined to acknowledge his authority, on the ground, so far as we were informed, that the Poor Law Board had no power to add a Gilbert's Union to an existing Audit District, and they declined to submit their accounts to the Auditor. We were therefore under the necessity of applying to the Queen's Bench for a mandamus, to enforce the law in this respect. Counsel appeared on their behalf, but showed no substantial cause against the application, and the Court granted the writ. The Guardians then expressed their intention to acquiesce in the decision, and they have subsequently submitted their accounts to the Auditor.

Parish of Westbury-upon-Severn.

It may be proper to advert to another legal proceeding, in which a question was raised as to the powers and duties of this Board. By the 5 & 6 Vict. c. 57. sect. 8. the Board are empowered to determine questions which arise as to the right of any person to act as an elective Guardian, by an order under their seal, which order is not to be removed into the Court of Queen's Bench unless application for the writ of certiorari shall be made during the term next after the issuing of such order. In the course of last spring a question arose as to the right of the Guardians elected for the parish of Westbury-upon-Severn in the Union of that name to act as such, the clerk having rejected a nomination paper which had been delivered to him on a Sunday, on the ground of an inaccuracy in the name of the parish. Certain parties aggrieved by this proceeding appealed to us, under the statute. We investigated the case, and having come to the conclusion that the paper had been improperly rejected, we issued an order declaring the election void. An application was made to the Court of Queen's Bench for a certiorari to bring up this order, for the purpose of quashing it. In support of the rule for the certiorari it was urged against the order, that the delivery of the paper on the Sunday was void, and that the inac-

curacy in it was fatal. The Court stated, that though they would not review any decision which this Board might come to in the exercise of the above authority upon a matter of fact, they were required to review any such decision in point of law, even though the question did not arise upon the face of the order itself. After hearing counsel fully, the Court held that the view taken by the Poor Law Board was correct in point of law, and the rule was discharged.

Agricultural Statistics.

In our last Report we stated, that, at the instance of the Lords of the Committee of Privy Council for Trade, we had requested two of our Inspectors, Sir J. Walsham and Mr. Hawley, to undertake the collection of Agricultural Statistics in the counties of Norfolk and Southampton, and we were enabled to publish the reports of those gentlemen in our Appendix. In June last we were again requested by the Board of Trade to undertake the collection of Agricultural Statistics on a more extended scale, with a view of ascertaining, so far as might be, by a further experiment, the applicability of Poor Law machinery for the collection of such statistics throughout the country. We accordingly requested eight of our Inspectors, viz., Sir John Walsham, and Messrs. Hawley, Weale, Pigott, Graves, Doyle, Manwaring, and Farnall, to undertake respectively the collection, in the counties of Norfolk, Suffolk, Southampton, Wilts, Leicester, Berks, Worcester, Salop, West Riding of York, Brecon, and Denbigh, employing a similar agency to that which had been previously established.

All which we most humbly submit to your Majesty.

M. T. BAINES,
President.

APPENDIX.

No. 1.

STAMP DUTY. — CIRCULAR from the POOR LAW BOARD to Boards of Guardians on the Exemption from Stamp Duty of their Orders on their Treasurers.

Poor Law Board, Whitehall,
4th January 1854.

SIR,

I AM directed by the Poor Law Board to state, that in consequence of several applications which they have received on the subject of the liability of the Orders of Guardians, drawn upon their Treasurer, to the payment of Stamp Duty, under the recent Statute 16 & 17 Vict. c. 59, the Board deemed it advisable to submit to the Commissioners of Inland Revenue, under Section 13. of that Act, an Order drawn and issued by the Guardians of a Union upon their Treasurer, who was not a banker, in favour of a creditor, in the following Form :—

W———Union.

W——24th day of November 1853.

To Mr. W———H———*Treasurer.*

Pay to Mr. I———I———P———or bearer, the sum of Forty-eight Pounds Seven Shillings and Sixpence.

R——C——H——*Presiding Chairman.*

W——F——
D——B—— } *Guardians.*

W——O——Clerk to the Board of Guardians of the said Union.

The Board informed the Commissioners that the Order was drawn and executed in conformity with the 84th Article of the General Consolidated Order, and suggested that the 86th sect. of the 4 & 5 W. 4. c. 76. was therefore applicable, and rendered it exempt from the Stamp Duty which is chargeable upon a Draft or Order for the payment of a sum of money payable to the bearer on demand.

The Commissioners in reply acquainted the Board that they considered that the Draft is an instrument made in pursuance of the Poor Law Amendment Act, and therefore exempt from Stamp Duty.

The Board deem it right to call the attention of the Guardians to the fact, that the above Order on the Treasurer of the W———Union was drawn upon him by name, and not upon his Banker or any Banking Firm.

I am, &c.,
W. G. Lumley,
Assistant Secretary.

The
Clerk to the Board of Guardians.

No. 2.

Stamp Duty.—Circular from the Poor Law Board to Boards of Guardians on the Exemption from Stamp Duty of Receipts given by Treasurers to Overseers, on Payment of Contributions.

Poor Law Board, Whitehall,
24th March 1854.

Sir,

I am directed by the Poor Law Board to state, that having lately had occasion to communicate with the Commissioners of Inland Revenue, on the subject of the liability to Stamp Duty of Receipts given by the Treasurers of Boards of Guardians, on the payment to them by Overseers of the Poor of contributions ordered by the Guardians, the Board have been informed, that it is the opinion of the Commissioners that such Receipts are exempt from Stamp Duty by virtue of the provisions of the 4 & 5 Will. 4. c. 76. sect. 86., the Treasurer being an officer appointed in pursuance of that Act, and the contributions paid to him by the Overseers being likewise made in pursuance of the same statute.

The Board request that the Guardians will communicate the foregoing opinion to their Treasurer.

I am, &c.,
Courtenay,
Secretary.

To
The Clerk to the Guardians.

No. 3.

Vaccination.—Circular from the Poor Law Board to Boards of Guardians on the Preparation of Vaccination Contracts.

Poor Law Board, Whitehall,
6th January 1854.

Sir,

I am directed by the Poor Law Board to state, that they have observed in a large number of the new Vaccination Contracts forwarded to them for approval that no provision is made in the Schedule A. to the contracts for the inspection of the progress of the Vaccination in the persons vaccinated, in accordance with Section 1. of the Act 16 & 17 Vict. c. 100., and the Board have therefore directed me to call attention to the requirements of the

Statute in this respect; and to state, that in every instance where the Vaccinators do not attend one day at least in each week for the performance of Vaccination, it will be necessary that the Schedule A. should specify both the day appointed for Vaccination and Inspection, respectively.

In some instances the Contracts have been forwarded to the Board with the provision struck out for the payment to the Vaccinators of the higher fee for the vaccination of persons at places more than two miles distant from the Vaccinators' residences. The Board direct me to state, that, according to the express provision of Section 6. of the Act, every contract made by the Guardians with "any medical officers or practitioners for the vaccination of the persons *resident* in their respective Unions," must specify the rate of payment for every person successfully vaccinated "at any place more than two miles distant" from the residence of the Vaccinator, as well as the fee payable to him for every person successfully vaccinated at his residence or within two miles therefrom.

The Vaccinator may not be bound by his Contract to vaccinate at any place more than two miles distant from his residence, but if he do vaccinate any person *resident* in the Union, at any place more than that distance from his residence, he would, according to the Statute, be entitled to a payment for each successful case of vaccination of not less than 2*s.* 6*d.*; and the form of Contract in the recent General Order issued by the Board was framed accordingly.

I am, &c.,
GRENVILLE C. L. BERKELEY,
Secretary.

To
The Clerk to the Guardians.

No. 4.

ELECTION OF GUARDIANS.—CIRCULAR from the POOR LAW BOARD to Boards of Guardians as to how to proceed when the day appointed for the performance of any Act shall be a Sunday or Good Friday.

Poor Law Board, Whitehall,
18th February 1854.

SIR,

I AM directed by the Poor Law Board to call your attention to the proviso in Article 6. of the General Consolidated Order of July 1847, which is as follows:—

"Provided, that, whenever the day appointed in this Order for "the performance of any act relating to or connected with the "election of Guardians shall be a Sunday or Good Friday, such "act shall be performed on the day next following, and each "subsequent proceeding shall be postponed one day."

By Article 8. of the above-mentioned Order, it is directed that the last day for receiving Nominations shall be the 26th day of March; but as that day in the present year falls upon a Sunday,

the last day for receiving Nominations at the approaching annual election of Guardians will be Monday the 27th of March.

The delivery of the voting papers under Article 11. will take place on the 6th of April, and the collection of those papers under Article 17. will be made on the 8th of the same Month.

Following the same rule of postponement, the opportunity of obtaining voting papers under Article 19. will be extended to the 8th of April inclusive, and the proceeding provided for in Article 20. would be delayed until the 9th; but as that day will fall upon a Sunday, a further postponement will become necessary, and the 10th of April will, accordingly, be the day on which parties whose voting papers may have not been collected may deliver them before 12 o'clock at noon to the Clerk.

Under these circumstances, it seems requisite that the examination and computation of the votes under Article 21. should take place on the 11th of April, so as to allow a due interval between the proceedings respectively provided for by Articles 20. and 21.

The Board have deemed it advisable to issue the foregoing Instructions, partly because they have already received several inquiries on the subject and partly because their attention has been directed to some publications in which the notification of dates, in reference to the proceedings adverted to, appears to be in some respects inaccurate.

I am, &c.,
COURTENAY,
Secretary.

To
The Clerk to the Board of Guardians.

No. 5.

WEEKLY RETURN, FORM A.—CIRCULAR from the POOR LAW BOARD to their Inspectors.

Poor Law Board, Whitehall,
14th March 1854.

SIR,

A DESIRE for earlier information in regard to the number of persons in receipt of relief has induced the Poor Law Board to direct me to request that, instead of waiting till the close of the week, you will have the goodness to transmit to them from day to day a summary of such of the weekly returns (Form A.) as may have been received during the day. In order to ensure greater regularity in the transmission of the returns by Union Clerks, the Board direct me to suggest to you the expediency of addressing a reminder to every Clerk whose returns may be in arrear not less than two days, and of reporting to the Board any Clerk who may be found to be habitually negligent in regard to these returns.

I have, &c.,
COURTENAY,
Secretary.

To
Poor Law Inspector.

No. 6.

AUDITORS' ADDRESSES.—CIRCULAR from the POOR LAW BOARD to District Auditors.

Poor Law Board, Whitehall,
16th March 1854.

SIR,

I AM directed by the Poor Law Board to request, that when you are absent from your usual residence for the purpose of holding audits, you will be good enough to keep the Board constantly informed of your address, according as it may change from time to time.

The Board do not doubt that you will readily perceive the convenience which will result from a compliance with this request, though it may impose some slight trouble upon you. The Board need scarcely remark that, at present, considerable delay is not unfrequently occasioned in their communications with the District Auditors, owing to the absence of the information which it is the object of this letter to secure.

I am, &c.,
W. G. LUMLEY,
Assistant Secretary.

To
District Auditor.

No. 7.

POOR RATE.—GENERAL ORDER of the POOR LAW BOARD prescribing Regulations in regard to the *Rate Book*, *Rate Receipt Check Book*, *Collecting and Deposit Book*, Collectors' Monthly *Statements*, and *Unpaid Rates Statements.*

Queen's Arms.

TO THE GUARDIANS OF THE POOR of the several Unions set forth in the Schedules hereunto annexed ;—

To the Churchwardens and Overseers of the Poor of the several Parishes and Places comprised within the said several Unions ;—

To the Clerk or Clerks to the Justices of the Petty Sessions held for the Division or Divisions in which the said several Unions are respectively situate ;—

And to all others whom it may concern.

Whereas, by a General Order bearing date the Seventeenth day of March One thousand eight hundred and forty-seven, and addressed to the Guardians of the Poor of the several Unions named in the Schedule F. thereunto annexed, being the several Unions set forth in the Second Schedule hereunto annexed, and to the Churchwardens and Overseers of the Poor of the several Parishes and Places comprised within the said Unions, and by divers Orders, the dates whereof are respectively set forth in

the Third and Fourth Schedules hereunto annexed, addressed to the Guardians of the Poor of the several Unions mentioned in such Schedules, and to the Churchwardens and Overseers of the several Parishes comprised within such Unions, the Poor Law Commissioners and the Poor Law Board respectively have made certain regulations with reference to the making and entering of the Poor Rates, and the giving of Receipts for the same, and the duties of the Collectors of the Poor Rate or Assistant Overseer in reference to such Rate.

And whereas by a General Order bearing date the Eighteenth day of November One thousand eight hundred and fifty, addressed to the several Unions therein mentioned, being the several Unions set forth in the said Second and Third Schedules hereunto annexed, the Poor Law Board did make certain alterations in the Orders as to the form of the Poor Rate.

And whereas it is expedient that certain alterations should be made in the several Orders as herein-after mentioned, and that certain other Regulations should be added thereto.

Now, therefore, We, the said Poor Law Board, in pursuance of the powers given in and by the several Statutes in that behalf made and provided, do hereby rescind, from the Twenty-fifth day of March instant, all such parts of the Orders herein-before referred to which shall be inconsistent or at variance with anything herein contained.

And We do Order and Direct, from the said Twenty-fifth day of March instant, as follows :—

Article 1. The several columns of the *Rate Book* which contain the rateable value, and the rate in the pound assessed upon the several persons liable to be assessed, shall be added up at the foot of every page, and the general total shall be ascertained and set forth at the foot of the rate, before the same shall be submitted to the Justices for their allowance.

Article 2. If the Overseers shall deem it convenient, the rate may be divided into several portions corresponding with the several divisions of their Parish, so as to bring all the rateable property of each division together, and there may be separate series of numbers for the assessments in every division.

Article 3. When the Owners of property are assessed instead of the Occupiers, the Overseers may, if they think proper, bring together and assess under one number all or any portion of the properties situated in the Parish, or in the separate division, where the Parish is divided into divisions, belonging to the same person, and for which he shall be liable to be assessed as wner.

Article 4. When any Overseer or Collector shall receive the whole amount due for Poor Rate from any Person assessed, he shall at that time, and not before, detach the Receipt applicable to such person's assessment from the Check Book, and deliver the same, stamped with an adhesive stamp where the amount of the payment shall render such stamp necessary, to the person paying the same, and retain the note in the book.

He shall insert in the Receipt and in the Note thereof so retained the true date of the payment of the money.

When the rate shall be paid by instalments, the fact of every payment shall be noted on the back of the Receipt and on the Note thereof, and the Receipt shall not be given to the person paying the rate until the whole amount of the rate shall have been received, but an acknowledgment of the amount received shall be given in writing upon the demand note, or ticket, or otherwise, as the Collector or Overseer shall find convenient.

Article 5. The Form of the *Rate Receipt Check Book* shall be according to the Form set forth in the first Schedule hereunto annexed.

Article 6. The Collector shall every week pay over all monies collected by him, or in his hands, belonging to the Parish, to the Banker whom the Overseers may direct, to be placed to the account of one or more of them; or, if directed by one of the Overseers, to the Treasurer of the Guardians of the Union, in payment of any order from such Guardians then due; or, in the absence of any such direction, shall pay the same to one of the said Overseers in person; provided that as often as at any time in the course of any week the sum or sums of money in the hands of such Collector belonging to the Parish shall together exceed Fifty Pounds, he shall forthwith pay over such sum or sums in the manner herein-before directed.

Article 7. The Collector shall balance the *Collecting and Deposit Book* monthly, at the times provided in the following article.

Article 8. The Collector shall keep a book containing blank Forms of *Monthly Statements*, according to the Form set forth in the said several Orders first referred to, and shall every Month fill up one of such Statements with the several particulars set forth in the said *Form*, which statement shall be made up to the last day of every calendar month inclusive; excepting in the case of the month of March, when it shall be made up to the 25th, and in that of the month of September, when it shall be made up to the 29th; so that any receipts or payments on the remaining days of those months respectively shall be included in the next monthly statement; and he shall forthwith deliver a copy of such statement, signed by himself, to one or more of the Overseers and another to the Board of Guardians at their next ordinary meeting.

Provided that the Board of Guardians or the Overseers of the Parish may, if they think fit, require a statement containing the several particulars set forth in the said Form, to be made out and delivered to them respectively every week or fortnight; and the Clerk to the Guardians shall preserve the copies forwarded to the Board of Guardians, and shall produce the same to the Auditor at the next audit.

Article 9. The Collector shall at each audit produce to the Auditor *an unpaid Rates statement* showing the name of every person rated to the relief of the poor in respect of whom there

shall be, at the end of the half year for which the audit is being held, any arrear of the rate made immediately before that in the course of collection at that time, with the other particulars set forth in the Form in the first Schedule hereunto annexed.

Article 10. The words herein used shall be construed in like manner as in the said first-mentioned General Order.

Schedules referred to in the foregoing Order.

First Schedule.

The Rate Receipt Check Book.

POOR RATE.—CIRCULAR from the POOR LAW BOARD to Overseers on the above General Order.

Poor Law Board, Whitehall,
16th March 1854.

GENTLEMEN,

I AM directed by the Poor Law Board to state that, in consequence of the alteration of the Law regarding the Stamp Duties, they have considered that the provision contained in the Order of Accounts relating to the Receipts for Poor Rates which require a Stamp might be conveniently changed.

Heretofore the Receipt made out for the Ratepayer was directed to be retained in the Rate Receipt Check Book, and a Stamped Receipt was required to be substituted. The Board have deemed it advisable to alter this provision, and to require that the receipt prepared for that assessment shall be given, and an adhesive stamp affixed, where a stamp shall be necessary.

The Board have therefore issued a General Order containing this alteration, and have availed themselves of this opportunity to introduce a few additional regulations applicable to Overseers and Collectors.

They have required some of the columns in the rate to be added up on each page, and the total also to be added up at the foot of the rate, before its allowance by the Magistrates. The amounts ascertained at the foot of each page may be carried on to the next page, or the several totals brought together at the end of the rate for a gross total, as the Overseers in particular Parishes may find most desirable.

Where any Parish is divided into several parts it is sometimes convenient that the Poor Rate should be framed in accordance with such division, and authority is now given to the Overseers so to frame it.

A provision is also introduced to enable the Overseers to assess the owners of property when liable to be assessed in the place of the occupiers for all or part of the property in one assessment, and under one number.

In the Form of the receipt for the rate the date of the rate is introduced, and the Board have also provided for the receipt of rates where the payment is made by instalments.

In regard to the Collector, I am to state that the Board have required him to balance his *Collecting and Deposit* book *monthly,* and to keep a book for his *monthly statements,* copies of which are to be forwarded to the Overseers and the Board of Guardians as heretofore.

They have also enabled him to pay, out of the Monies collected by him weekly, the amount which may be due from the Overseers to the Guardians upon their order of contribution, if directed by one of the Overseers to do so.

Lastly, the Board have deemed it advisable to express with more precision the Rate which is to be the subject of the *Unpaid*

Rates Statement previously required to be made out by the Collector and laid before the Auditor.

The Board transmit herewith two copies of the Order, and request that you will give one of them to the Collector or Assistant Overseer now employed in the collection of the Poor Rate, and deposit the other with the documents belonging to the Parish.

I am, &c.,
GRENVILLE C. L. BERKELEY,
Secretary.

To
The Overseers of the Poor.

No. 9.

AUDIT OF ACCOUNTS.—CIRCULAR from the POOR LAW BOARD to the District Auditors.

Poor Law Board, Whitehall,
31st July 1854.

SIR,

I AM directed by the Poor Law Board to send to you the enclosed Forms of Reports and Statements for your use at the Audit of the Accounts of the several Unions and Parishes in your District for the half-year ending the 29th September next.

I am further directed to request that you will have the goodness to insert in the Statements respecting the Books of the Union Officers in your District, in the blank spaces left for that purpose, the date on which the Audit of the Books contained in each Statement is concluded; and also that in any case, in which during the half-year a change of Union Officers may have taken place, you will further have the goodness to forward to the Board separate Statements in reference to the Books of the Officer ceasing to hold the office and of his successor.

I am also directed to draw your attention to the importance of the Columns of the Workhouse Medical Relief Book being duly filled up, which contain respectively the Nos. of the Dietaries upon which the Sick are placed, and the entries relating to extras in the Medical Officer's portion of the Book. If these Columns are not properly used by the Medical Officer, the chief means of testing the accuracy of the Master's portion of the Book is necessarily wanting, and considerable difficulty attends the examination of the Provision Accounts. The Board are desirous of preventing any irregularity in the manner in which the Columns referred to are used, and they request that you will report to them at your next Audit and subsequent Audits any defect in those Columns which may come under your notice.

I am, &c.,
COURTENAY,
Secretary.

To
District Auditor.

FORM VI.

_____ *AUDIT DISTRICT.*

_____ *Union.*

(*a*) *According to the fact.*

_____ *Parish or Township.* (*a*)

Date _____ 185 .

MY LORDS AND GENTLEMEN,

I have the honour to report to the Poor Law Board that at the audit of the accounts for the above-named Union (*b*) for the half-year ended _____ held on the _____ day of _____ I examined the accounts of the officers of the parish or township (*a*) of _____ comprised in the said Union; and I have to report the following matters to the Poor Law Board.

(*b*) *If the audit is for a separate parish or township, not in Union, this part of the Report to be altered accordingly.*

I. [The Auditor to state the books, forms, &c. which any paid officer of the parish or township is bound to keep or use according to the Orders for Accounts, and which such officer has *altogether neglected to keep or use* during the half-year for which the accounts are audited. *The name and address of the officer and his style of office to be carefully given.*]

II. [The auditor to state the books and forms which any paid officer of the parish or township is bound to keep or use according to the before-mentioned Orders, and which such officer has *kept or used imperfectly or informally*, during the half-year for which the accounts are audited; describing the imperfections or informalities with sufficient particularity for the information of the Board.]

III. [The auditor to state any non-observance of or departure from the Orders for Accounts by any paid officer of the parish or township not comprised under the two foregoing heads I. and II.]

I have the honour to be,
My Lords and Gentlemen,
Your obedient servant,

To
The Poor Law Board,
London.

District Auditor.

No. 10.

REMOVAL OF NUISANCES: CHOLERA.—CIRCULAR from the POOR LAW BOARD to Boards of Guardians.

Poor Law Board, Whitehall,
21st August, 1854.

SIR,

IN consequence of the recurrence of the disease of Cholera in a more or less alarming form in many parts of the country, the Poor Law Board are anxious to recal to the recollection of Boards of Guardians the recommendations given to them on the previous visitations of this formidable epidemic.

The Poor Law Board, by a Circular dated 30th of September 1852, brought fully under the notice of Guardians their powers and duties under the several statutes which have been passed for the abatement and removal of Nuisances injurious to health. It is satisfactory to the Board to find that the Guardians have very generally enforced the provisions of those statutes, and the Board confidently rely upon their continuing actively and zealously to do so. The Guardians may be assured that they destroy one of the most fruitful sources of contagion and disease by vigilance in the abatement and removal of such nuisances.

The state and condition of the Workhouses require at this moment the especial care of the Guardians.

The particular attention of the Guardians ought to be directed to the cleanliness, ventilation, drainage, state of repair, and general condition of the Workhouse, and they cannot be too careful in guarding against the slightest over-crowding of any of the wards or apartments.

It may be expedient for the Guardians to require their Medical Officers to revise the Workhouse Dietary, with the view of ascertaining whether any alteration is advisable as a precaution under present circumstances.

The Board also recommend that the Guardians should carefully examine the weekly returns showing the state of health of the inmates of the Workhouses and of the poor in the several districts; and in every case where it may be necessary to increase the amount of Medical assistance and to establish depôts for dispensing medicines, the Board are satisfied that the Guardians will think it right to take immediate steps to effect these objects.

It is almost needless for the Board to point out to the Guardians the duty which the present emergency imposes upon them of adopting all such precautionary measures as prudence and past experience may suggest as the most effectual means of checking the progress of Cholera, or to assure the Guardians that they may at all times reckon upon the most prompt and willing aid of the Poor Law Board and of their Inspectors in the discharge of the obligations which the Guardians are legally bound to fulfil.

I am, &c.,

COURTENAY,
Secretary.

To
The Clerk to the Board of Guardians.

No. 11.

REMOVAL OF NUISANCES: CHOLERA.—DIRECTIONS and REGULATIONS of the GENERAL BOARD OF HEALTH, 22d March 1854.

To LOCAL BOARDS OF HEALTH acting under the Public Health Act, 1848 ;—
To Town Councils or other Bodies acting under the Authority of Local Acts of Parliament in which the Provisions of the Public Health Act are included ;—
To the Guardians of the Poor of the several Unions in England and Wales named in the First and Third Schedules hereunto annexed ;—
To the Guardians of the Poor of the several Parishes in England and Wales named in the Second Schedule hereunto annexed ;—
To the Overseers of the Poor of all Parishes, Townships, and Places not comprised in the Unions and Parishes mentioned in the Schedules hereunto annexed ;—
To the Mayor, Aldermen, and Burgesses of Cities and Boroughs, Commissioners under Local Acts, the Surveyors of Highways, their Deputies and Assistants, Road Trustees, Commissioners, County Surveyors, and other Persons by Law intrusted with the Care and Management of all Streets, public Ways, and Places in any Parish or Place in England and Wales ;—
To the Owners and Occupiers of Houses, Dwellings, Churches, Buildings, and Places of Assembly within the said Unions and Parishes, and others having the Care and Ordering thereof ;—
And to all whom it may concern ;—

Whereas by the provisions of "*The Nuisances Removal and Diseases Prevention Act*, 1848," for the prevention of epidemic, endemic, and contagious diseases, We, the General Board of Health, are authorized to issue such Directions and Regulations as We shall think fit for the prevention (as far as possible) or mitigation of epidemic, endemic, or contagious disease: And whereas by the said Act it is provided that the Directions and Regulations to be issued as aforesaid shall extend to all parts or places in which the said provisions of the said Act shall for the time being be in force, under the Order of Her Majesty's Privy Council, unless such Directions or Regulations shall be expressly confined to some of such parts or places, and then to such parts or places as in such Directions and Regulations shall be specified:

And whereas by an Order of Her Majesty's Most Honourable Privy Council, bearing date the 15th day of September 1853, the said provisions of the said Act were directed to be put in force throughout the whole of Great Britain for a period of six calendar months thence next ensuing:

And whereas We, the General Board of Health, did under the Authority of the said Order issue certain Regulations and Directions as aforesaid, bearing date the 20th day of September 1853,

and certain other Regulations and Directions, bearing date the 12th day of October 1853 :

And whereas by an Order of Her Majesty's Most Honourable Privy Council, bearing date the 10th day of March 1854, the said first-mentioned Order was renewed for a further Period of six calendar Months thence next ensuing :

Now, in exercise of the Authority vested in us as aforesaid, We, the said General Board of Health do hereby renew the said Directions and Regulations of the 20th day of September and of the 12th day of October 1853, for such time as the said renewed Order shall continue in force.

Given under our Hand, and under the Seal of the General Board of Health, this Twenty-second day of March, in the Year of our Lord One thousand eight hundred and fifty-four.

(Signed) Shaftesbury,
(L.S.) Edwin Chadwick,
T. Southwood Smith.

No. 12.

Removal of Nuisances : Cholera.—Notification of the General Board of Health.

General Board of Health, Whitehall, April 17, 1854.

Notification.

The General Board of Health deem it their duty to warn Boards of Guardians, Local Boards of Health, Parochial Boards, and other local authorities, against placing a false security in the present apparent disappearance of Epidemic Cholera.

It is of the last importance to bear in mind that a similar decline of the pestilence took place at corresponding periods of its progress on both its former visitations.

The attack of 1831 was premonitory of a more severe and wide-spread outbreak in 1832.

The epidemic of 1848, which in the autumn of that year numbered nearly one thousand victims in the metropolis, almost wholly disappeared in the spring, yet returned with redoubled violence in the summer, destroyed nearly two thousand persons weekly for several weeks in succession, and produced, including deaths from diarrhœa, a total mortality of more than 17,000.

In like manner, the outbreak of last autumn, which commenced with greater virulence than the epidemic of 1848, and destroyed in the metropolis during the first months of its course double the number of victims, has been followed by a lull, which has been more complete than that of 1849. But within the last month the disease has again become more active, and a gradual increase has taken place in the number of deaths, raising, for this month, the total deaths to twice the amount of the corresponding period of 1849. The analogy of the preceding visitations therefore justifies the apprehension that the disease, instead of having ceased, is in

its period of incubation, and that THE epidemic, in its decided form and full force, is yet to come.

The modifications in its character which the pestilence has recently exhibited, are of a nature to render it doubly necessary that the first indications of its appearance in a locality should be vigilantly watched. In the majority of the places which it has hitherto attacked, it has seized its victims more suddenly and hurried them through its fatal course with greater rapidity than on any preceding visitation.

One stage of the disease, formerly well marked, and of the utmost value with reference to the opportunity afforded for the application of the means of prevention, is now generally much shorter in duration, and even often suppressed, namely, that denoted by the term "approaching cholera." Premonitory diarrhœa does still indeed exist, but it also is commonly of shorter duration, and passes more directly and rapidly into cholera, and cholera itself into collapse.

During its first visitation in 1831 and 1832 the attacks of the epidemic, with few exceptions, were confined to the poorer portions of the population residing in the most neglected and unhealthy districts. In 1848 and 1849 it was fatal to larger numbers of the middle classes inhabiting better conditioned localities and houses. As far as the disease has yet advanced, the proportion of the better class attacked is still greater than in 1849.

In that year, among the total number of persons who perished by the epidemic in the metropolis, 81 per cent. were labourers and artizans, and 15 per cent. were tradesmen ; but in the places in which the disease has lately prevailed, the proportion of deaths among labourers and artizans has been only 72 per cent., while the mortality amongst tradesmen has reached 24 per cent. In like manner in the epidemic of 1849, the proportion of the deaths of the gentry and professional persons to the total deaths, was 2·6 per cent., but recently it has risen to 3·2 per cent. In other countries the disease has not spared the highest classes, and if the safeguards against it are neglected, there is no reason why it should in our own.

It is further indicative of an increasing activity and intensity in the pestilence, that while the interval between its first and second visitation was sixteen years, the interval between its second and third visitations has been only four years ; and that its second visitation was far more extensive and mortal than the first. In the absence of more efficient precautions against it, there appears no reasonable ground for the expectation that the third will be less extensive and mortal than the second.

Besides the loss of life, the pecuniary loss occasioned by these local out-breaks demands attention. Irrespective of the permanent expense entailed on towns both by public rates and private contributions for the maintenance of widows, orphans, and others pauperized by the epidemic, the losses sustained by individual tradesmen, from the interruption, and in some instances, the

almost total suspension of commerce, are most severe. In some recent instances the sum thus lost would have sufficed to defray a very large proportion of the outlay required to place the town in a permanently safe and satisfactory sanitary condition. It is estimated that the total cost of the visitation of 1848 and 1849 to England and Scotland, exclusive of the cost to Ireland, could not have been less than 2,000,000*l.*

From these considerations, the Board have learnt with great regret that, since the lull in the epidemic, local authorities in numerous instances have suspended the preventive measures which they had actively commenced, under the assumption that the visitation of cholera is over, and that therefore the occasion for further watchfulness and effort has ceased.

While it is satisfactory to state that a great and growing number of local authorities now manifest an earnest desire to carry into effect every practicable means of prevention, there are some who show the same reluctance as formerly to admit the plainest facts evidencing the near approach of an outbreak. Instead of preparing to meet the danger, they shut their eyes against it. Cases of diarrhœa occurring in unusual intensity, in unusual numbers, and at an unusual season, they regard as of no real significance. Successive deaths, with the symptoms of malignant cholera, they call deaths from English cholera, as if changing the name altered the evil. They suppress as far and as long as possible the knowledge of all local forewarnings, whence a false security is maintained, which, on the outbreak of the pestilence, gives place to panic. On the arrival of one of the Board's medical inspectors, who under such circumstances is usually sent for, he finds the Union medical officers distracted with the sudden demands made upon them,—demands greater than they could possibly satisfy were they to devote day and night to the service, which indeed many of them do to the peril and some to the loss of their own lives. Thus occupied with the treatment of cases, they are wholly unable to devise, organize, and superintend measures for preventing the spread of the pestilence among the population as yet unattacked. Additional medical assistance has now to be sought from a distance; properly qualified house-to-house visitors to perform the service of bringing the premonitory cases under immediate treatment, are to be obtained; houses of refuge are to be procured; dispensaries are to be opened; in short, the whole preventive system has to be organized, and before these arrangements can be made, which ought to have been completed before a single case of the disease occurred, the pestilence is at its height.

One consequence of this neglect of the proper period of preparation is, that in the actual presence of the epidemic, some of the most powerful predisposing causes of the disease cannot be removed without the risk of increasing the evils intended to be remedied. Cleansing operations, which at all times require caution, are then hurriedly and precipitately resorted to, and are sometimes performed in such a manner as to produce positive

aggravation of the disease. In some instances cesspool matter has been discharged even into the kennels of the streets, and the contents of foul ditches, in a state to give off poisonous exhalations, on the slightest agitation, have been spread on the banks close to habitations. The Board deem it necessary again to caution local authorities against such a culpable mode of proceeding, which even in ordinary seasons would be attended with imminent danger; but that danger is greatly increased at an epidemic period. Though accumulations of filth may be removed with perfect safety with the proper use of disinfecting substances, and under the superintendence of persons of competent knowledge, yet in an epidemic season the emanations from decomposing animal and vegetable matter acquire so much potency that, at that time, it is better to leave large collections of foul refuse undisturbed, and to cover them temporarily with layers of quicklime or of fresh earth.

Wherever it has not been already done, an efficient scavenging staff should be immediately organized and kept in unremitting action. The mortality from the epidemic of towns well scavenged has in some instances been only one half of that of ill-scavenged towns, both being in other respects in similarly imperfect sanitary conditions.

It is sometimes observed, as a ground for inaction, that extraordinary epidemics merely take the place of ordinary epidemics, and only destroy, in a shorter space of time, those who would have perished, probably within the year, by some form of zymotic disease.

But even if this were true, it cannot be too strongly impressed on local authorities that ordinary epidemics, which may take the place of an extraordinary epidemic, are themselves preventible and are in great measure prevented by proper sanitary arrangements; as is seen in the comparative immunity from these diseases among the inmates of well managed Union-houses and prisons, of well-regulated lodging-houses, and of improved dwellings for the labouring classes. If, therefore, from the favourable state of the weather, or from some unknown cause, the disease should return only with diminished force, or should not recur at all as a general epidemic, no properly directed effort can fail to be of benefit, equivalent to the expense incurred. It should not require the occurrence of an extraordinary disease, which terrifies the imagination by the suddenness of its attack and the rapidity of its course to call forth such efforts: they are called for by ordinary epidemics, which, though less alarming as being always present, are for that very reason far more mortal than any extraordinary epidemic.

It is however so far from being true, that an extraordinary epidemic does not increase the average mortality, that it sometimes swells that mortality nearly by the whole number of persons who perish by it. This was the case, to a considerable extent, in the epidemic of 1849. Out of its 72,000 victims, 40,000 were added to the mortality of that year. Judging from

past experience, there is no reasonable ground to hope that a similar loss of life will not take place in the approaching summer, unless timely exertions are made to prevent the calamity, and it is *now* only that *timely* exertion can be made. It is at the present juncture, that the extraordinary powers conferred by the Order in Council for enforcing external and internal cleansing, and for the removal of nuisances, should be exercised with the utmost activity, vigilance, and stringency.

Nor should it be forgotten, that within the time of preparation which may yet be allowed us, in the actual condition of great numbers of places in all our towns, it is only palliatives that can be applied. Where there is no drainage, no proper water supply, no water-closets, nothing but foul cesspools, only limited benefits can be expected.

For this reason the Board would urge on Local Boards of Health, whose works under the Public Health Act are the most advanced, the great importance of hastening on the completion of such operations as are necessary for the abolition of cesspools, and the substitution of the water-closet apparatus; by laying down wherever possible, especially in epidemic districts and localities, impermeable and self-cleansing house drains, and by providing ample supplies of water. Hitherto, almost exclusive attention has been given to the construction of main sewers, but experience has shown that these alone, without systematized connexion with self-cleansing house drains and ample supplies of water, are of little avail in the prevention of disease; but that where foul cesspools have been the principal sanitary evil, as from house to house these have been filled up, and the water-closet substituted, the outbreak and spread of fever and other forms of zymotic disease have been at once arrested.

At the same time that these works are proceeded with, the damp and miry surface in front and at the back of houses should be removed by paving. There are instances in which this single improvement has apparently protected the inhabitants of courts and streets from the recurrence of ordinary epidemics. A flagged surface further affords the means of more effectual cleansing by the hose and jet. Paving may be done in many instances without waiting for the completion of drainage works, and where the principle has been adopted of draining from the backs of houses, instead of through them into sewers in the front streets, there will be comparatively few instances in which it will be necessary, on the completion of the works, to break up the pavements, in order to put in house-drains.

The Board regard with satisfaction the progress made by some local boards in carrying into effect in their respective towns a combined and complete system of sanitary works at moderate cost. Out of 182 cities and towns, comprising upwards of 2,000,000 of town population under the Public Health Act, 126 have had surveys made, the first step for effecting improved works. In 70 towns, plans for such works have been laid out, and in 13 more, the main or public works have been completed.

It is expected that in about 35 other towns similar works will be in operation in the course of another year.

The Act itself, constituting the necessary authority and conferring the requisite powers for carrying out these works, has been obtained at the average expense of 112*l.*; that is, at little more than a tenth or a sixteenth part of the average expense of a local Act.

In the towns in which the works are the most advanced, and which may be taken as average examples of the whole, the public works of drainage have been completed at the average cost of 1*d.* per week per house.

The supply of water, including the works within the house, the service-pipes, sinks, watercloset, and house-drains, has been afforded, with principal and interest, at a rate under $2\frac{1}{2}d.$ per week per house; making the total expense for the whole of these works $3\frac{1}{2}d.$ per week per house.

Sanctions for the execution of such works, after careful examination of their efficiency, economy, and completeness, have been given to the amount of upwards of 1,000,000*l.*; and it is estimated that there will be required for the towns already under the Act the further sanction of upwards of 6,000,000*l.*

Though the most advanced of these works are yet too recent for the development of their results on the public health, the diminution of sickness which has already been effected in some of the worst localities, the removal of the sense of depression, which was before so generally felt in these districts, and the cleanliness and comfort experienced by the inhabitants, justify the hope that these amendments will act, in some degree at least, as safeguards against the threatened pestilence.

But no external works, however perfect, can prevent the operation of the causes of disease which arise from residence in dwellings unfit for human habitation, such as underground kitchens and cellars, in which no families can maintain health. Nor can the most perfect external works stop the diseases caused by internal filth and overcrowding. The Common Lodging Houses Act, indeed, which enforces certain conditions of internal cleanliness, and prevents overcrowding, reaches the latter evils for the class of houses under its control; but there are hundreds of thousands of the people who live in tenemented houses, placed back to back; each house being divided into many rooms, and each room being in fact the house of the entire family, in which there is a total and habitual disregard both of cleanliness and of the amount of breathing space. These dwellings are considered as private houses, and consequently the Common Lodging Houses Act does not touch them.

With these and other conditions favourable to the generation and diffusion of epidemic disease, too common in all our villages and towns, local outbreaks of the pestilence must be expected, and preparation must be made to mitigate the calamity as far as may be practicable. With a view to assist local authorities in the preparation of preventive measures, the Board has issued

revised instructions, particularly with reference to the organization of the system of house to house visitation, and experience has shown that the saving of life in an outbreak of epidemic cholera will mainly depend on the promptitude and efficiency with which this measure is carried into execution.

The Board would call the earnest attention of Boards of Guardians and Local Boards of Health to the evidence which has been adduced of the surprising and almost incredible success that, in some instances, has attended timely and well directed exertion, even under circumstances in which temporary measures only were available, and when an outbreak seemed inevitable. Recently, at Tynemouth, where the local authorities exerted themselves with extraordinary energy, no case of cholera occurred though neighbouring towns were devastated by the pestilence.

Within the barracks at Newcastle, where all the means at command for cleansing, for the removal of nuisances, and for the avoidance of overcrowding, were employed with great promptitude and energy, no case of cholera occurred, though premonitory diarrhœa was so prevalent among the garrison that out of 519 men, forming its total strength, 451 suffered from this affection; while in the town there were upwards of 1,500 deaths from cholera, and nearly 45,000 persons received relief at the public expense.

At a settlement in the Bahamas, in which energetic measures of cleansing were promptly effected, the mortality from the disease scarcely reached one per cent. of the affected population; whereas in a neighbouring settlement, in which no such measures were adopted, the mortality ranged from 12 to 20 per cent.

At Baltimore, in the United States, during the epidemic of 1849, which ravaged neighbouring cities, neither money nor labour was spared to purify the town, and the cleansing operations were so energetically performed that it was admitted that the town had never before been in so clean a state. For the space of three weeks or a month, premonitory diarrhœa and other symptoms, denoting the presence of the cholera poison, were as prevalent throughout the city as in the barracks at Newcastle; yet no outbreak of the pestilence took place, though at the Baltimore Almshouses, situated about two miles from the city, and close to which a large mass of putrifying filth had been left uncleansed, 99 deaths occurred from cholera, out of a population of less than 600 souls.

These results recal the observation of a great physician of that country, made nearly a century ago, with reference to another epidemic, but which is equally applicable to this :—

"To all natural evils," says Dr. Rush, the eminent physician of the United States, "the Author of nature has kindly prepared "an antidote. Pestilential fevers furnish no exception to this "remark. The means of preventing them are as much under "the power of human reason and industry, as the means of "preventing the evils of lightning and common fire. I am so "satisfied of this opinion, that I look for the time when our

" courts of law shall punish cities and villages for permitting " any of the sources of malignant fevers to exist within their " jurisdiction."

(Signed) T. Taylor,
Secretary General Board of Health.

No. 13.

Removal of Nuisances : Cholera.—Directions and Regulations of the General Board of Health, 14th September 1854.

General Board of Health.

Directions and Regulations of the General Board of Health, issued under the authority of the Nuisances Removal and Diseases Prevention Act, 1848.

In exercise of the authority vested in us, we, the General Board of Health direct,

I. All surveyors, district or assistant surveyors of highways, trustees, county surveyors, and others by law entrusted with the care and management of streets and public ways and places, and where there are no public authorities so entrusted, the owners and occupiers of houses and tenements adjoining thereto, to take the measures necessary for the frequent and effectual cleansing thereof.

II. The owners and occupiers, and persons having the care and ordering of all houses, dwellings, churches, buildings, and places of assembly, to cleanse, purify, ventilate, and disinfect the same.

III. All local authorities and persons whatsoever to exert all the powers vested in them by law for the removal of nuisances.

IV. All relations of, or others in charge of the bodies of, persons who have died of cholera or other epidemic disease, to obey the directions of the medical officers of the guardians, as to the speedy interment of the dead.

In these directions and regulations, the word "Guardians" means the guardians, directors, wardens, governors, parochial board, or other like officers having the management of the poor of any union, parish, combination, or place where the matter requiring the cognizance of any such officers arises; and the expression "Local Authority" means the town council, local board of health, or any trustees or commissioners for the draining, paving, lighting, cleansing, managing or directing the police of any town, borough, or place, highway board, or any other body of a like nature, or any commissioners of sewers, or any body, excepting boards of guardians and overseers, having by law powers for the removal of nuisances.

Given under my hand and under the seal of the General Board of Health, this Fourteenth day of September, One thousand eight hundred and fifty-four.

(L.S.) B. Hall.

NOTE.—In-maintenance consists of the cost of food, clothing, and necessaries supplied for the use of the poor in the Workhouse. Out-relief consists of relief in money and kind, together with relief by way of loan (if any) to the out-door poor.

The above expenditure applies to 618 unions and parishes under the Poor Law Amendment Act, but does not include parishes under Local Acts, Gilbert's Act, and the 43d of Elizabeth (excepting those acting under the Accounts Order of the Poor Law Commissioners), the total expenditure for in-maintenance and out-relief of which in the half-year ended Lady-day 1854 may be stated at about 194,700*l*. The cost of maintaining irremovable poor is included in the above Return.

Total population of England and Wales, according to the Census of 1851, was 17,927,609.

* Increase, after deducting Decrease, £234,317.

No. 18.—Statement showing the Amount of Money expended for In-maintenance and Out-door Relief in 619 Unions and Parishes, under the Poor Law Amendment Act, in England and Wales, during the Half-years ended at Michaelmas 1853 and Michaelmas 1854 respectively.

NOTE.—In-maintenance consists of the cost of food, clothing, and necessaries supplied for the use of the poor in the Workhouse. Out-relief consists of relief in money and kind, together with relief by way of loan (if any) to the out-door poor.

The above expenditure applies to 619 unions and single parishes under the Poor Law Amendment Act, but does not include parishes under Local Acts, Gilbert's Act, and the 43d of Elizabeth (excepting those acting under the accounts order of the Poor Law Commissioners), the total expenditure for in-maintenance and out-relief of which for the half-year ended Michaelmas 1854 may be stated at about 177,700*l*. The cost of maintaining irremovable poor is included in the above Return.

Total Population of England and Wales, according to the Census of 1851, 17,927,609.

* Increase, after deducting Decrease, £312,756.

No. 19.

TABLE showing the Estimated Population, the Amount of Money levied for Poor Rates, and the Amount Expended for the Relief and Maintenance of the Poor in England and Wales, for the Years ended at Lady-day, 1834 to 1854, both inclusive; with the Rate per Head of the Amount levied, and expended for Relief to the Poor, on the Estimated Population, the Rate in the Pound of Expenditure for Relief to the Poor on the Annual Value of Rateable Property in 1847; and the Average Price of Wheat per Quarter in each Year.

Years ended at Lady-day.	Population estimated according to the Ratio of Increase which prevailed between 1831 and 1841, and the actual Population of 1841 and 1851.	Amount of Money levied for Poor Rates.	Total expended in Relief and Maintenance of the Poor.	Rate per Head of Amount Levied and expended in Relief to the Poor on the Estimated Population.		Rate in the Pound of Expenditure for Relief to the Poor in each Year, calculated on the Annual Value of Rateable Property, in 1847.	*Average Price of Wheat per Quarter.	Years ended at Lady-day.

Note.—The Returns for the year 1803 were obtained under an Act of the 43d Geo. III., and those for 1813, 1814, and 1815, under the Act of 55th Geo. III. For the years 1816 to 1834 inclusive the Returns were made in pursuance of Orders of the House of Commons; and from the latter period to the present time they have been called for by the Commissioners under the Poor Law Amendment Act, forming an unbroken Parliamentary series, from the year 1813 to the present time.

* The average price of wheat per quarter was obtained from the Comptroller of Corn Returns.

† In this year the expenditure for the relief of the poor was at the maximum.

‡ The Poor Law Amendment Act received the Royal Assent on the 14th August 1834.

§ The expenditure for the relief of the poor was at the minimum in this year.
‖ This amount includes the sum of £ 57,111, the expense incurred under the Act for taking the Census of 1841.
¶ Until the year 1839 the expense incurred in removal of paupers and travelling expenses of overseers was included under the head of "Law Charges;" in that and subsequent years it has been entered under the head of "other purposes."
** Included in previous column with "County and Borough Rate."
†† The expenses of Parish Property are now returned with "Money Expended for all other purposes."

* Seventeen parishes have been separated from the Great Boughton Union, in the county of Chester, fifteen of which now form the Hawarden Union, in the county of Flint, and two form part of the Whitchurch Union, Salop; four parishes have also been separated from the Anglesey Union and added to the Carnarvon Union, and twelve from the Wrexham Union, Denbighshire, and added to the Whitchurch Union; therefore a correct comparison cannot be made as regards those counties.

† Increase, after deducting Decrease, 11,276.

NOTE.—Parishes under Local Acts, Gilbert's Act, and the 43d of Elizabeth, are not included in the above Return. The Total Population of England and Wales, according to the Census of 1851, was 17,927,609.

No. 25.

REPORT.

To the Queen's Most Excellent Majesty.

Poor Law Board, Whitehall,
December 31, 1855.

May it please Your Majesty,

We, the Poor Law Board, beg leave to submit to Your Majesty the following Report of our proceedings during the year 1855:

We propose, according to the arrangement of subjects adopted in our Reports for previous years, to state, in the first place, the expenditure for the relief of the poor; secondly, the number of persons in receipt of relief; and then shortly to advert to such other matters, connected with the administration of the poor law, as it appears to us desirable to notice.

Expenditure for Relief

The poor rate returns for the year ended the 25th of March last, summaries of which are inserted in the Appendix, show that the sum of 5,890,041*l.* was expended for the relief of the poor during the year, being an increase of 607,188*l.* as compared with the sum expended during the preceding year.

The following Table shows the comparison of the two years' expenditure more in detail:—

Years ended Lady-day.	Expended for Relief of the Poor in England and Wales.	Increase in 1855, as compared with 1854.	Increase per Cent.	Rate per Head on Population.	Increased Rate per Head.
	£	£		*s.* *d.*	*s.* *d.*
1854	5,282,853	607,188	11·3	5 8	0 7
1855	5,890,041*			6 3	

Note.—The Summary of the Poor Rate Return inserted in the Appendix (page 66) sets forth the expenditure, the total of which is shown in the above Table, more in detail. This expenditure comprises "in-maintenance" (column 1.), "out-relief" (column 2.), "workhouse loans repaid, and interest thereon" (column 3.), "salaries and rations of officers" (column 4.), "other expenses of or immediately connected with relief" (column 5.) Those "other purposes" comprehend the cost incurred for emigration, for the maintenance of lunatics in asylums, for extra medical relief and fees, and for the burial of paupers.

Our attention having been directed to the fact of this increase in the expenditure for relief, we thought it desirable to make inquiry of our inspectors, with the view of ascertaining the causes which in their judgment had led to it. Their Reports in reply to the inquiry are set forth in the Appendix. From these reports there is reason to infer that the increase in the expenditure of 1855, as compared with 1854, is, in a great measure, to be attributed to the severity of the winter, and to the continued high price of many of the principal necessaries of life. The latter cause has obliged the Guardians in many instances to increase the amount of money allowances to the permanently disabled and aged poor receiving out-door relief, while the expenditure on account of relief in kind, and of supplies for the use of workhouses, has, for the same reason, been augmented. The returns relating to pauperism will show that some of this excess of expenditure is attributable to an increase in the number of persons in receipt of relief.

The rate per cent. of this increase in the expenditure, as it respects each of the counties in England and Wales, is as follows :—

Increase per cent. :—

Bedford . . 11·3	Lincoln . . 6·4	Wilts . . . . 6·9
Berks . . . 6·9	Middlesex . . 14·6	Worcester . . . 10·8

1852	18,205,000	4,897,685	5	4½	1	5½
1853	18,402,000	4,939,064	5	4½	1	5½
1854	18,617,000	5,282,853	5	8	1	6¾
1855	18,840,000	5,890,041	6	3	1	9
Average of the 22 years (1834 to 1855) .			6	2	1	6¼

It will be observed, that as respects the expenditure per head of the population, the year 1855 was slightly above the average; while as regards the expenditure per pound of the annual value of rateable property, the excess above the average was more considerable.

In the following Table the expenditure per head of the population, and the expenditure per pound of the annual value of rateable property, are given for the several years from 1834 to 1855. The years are arranged with respect to each of these two heads according to the amount expended, beginning with the highest sum and ending with the lowest. The expenditure per head, in 1855, will be seen to have been lower than it was in six, and higher than it was in fifteen years of the series; while the rate

in the pound was lower than it was in two, and higher than it was in nineteen years of the series.

The expenditure per head was 10½*d.* more in 1855 than in 1853, the lowest year of the series; and the expenditure in the pound in 1855, was 6½*d.* above that of 1837, the lowest year, and only 1½*d.* below that of 1834, the highest year. It will be observed too, that the expenditure in the pound in 1855, was only exceeded in the years 1834 and 1848; the one, the year before the amendment of the Poor Law, the other, including a portion of the year of the potato famine.

Years ended at Lady-day	Rate per Head of Amount expended in Relief to the Poor on the estimated Population.		Years ended at Lady-day.	Rate in the Pound of Expenditure for Relief to the Poor in each Year calculated on the Annual Value of Rateable Property in 1847.

The Annual Poor Rate Return, the only Return which shows the annual expenditure for all purposes connected with the relief of the poor, and for the whole of England and Wales, is made up for the year ending the 25th of March; and the preceding statements, taken from that return, have, therefore, reference to the expenditure for the years ending at that period.

The following statements show the amount expended for relief only, in unions and parishes under Boards of Guar-

dians, and afford the means of comparing the expenditure under that head for the years ending respectively on the 29th of September 1854 and 1855, as well as those ending on the 25th of March of the same years.

Number of Unions.	Years.	Expended for In-Maintenance and Out-Relief.		
		In-Maintenance.	Out-Relief.	Total.
		£	£	£
623	Year ended Lady-day 1854 -	806,860	2,748,525	3,555,385
	Year ended Lady-day 1855 -	952,576	3,026,915	3,979,491
Increase		145,716	278,390	424,106 or 11·9 per Cent.

Number of Unions.	Years.	Expended for In-Maintenance and Out-Relief.		
		In-Maintenance.	Out-Relief.	Total.
		£	£	£
623	Year ended Michaelmas 1854 -	917,471	2,949,630	3,867,101
	Year ended Michaelmas 1855 -	964,041	3,045,074	4,009,115
Increase		46,570	95,444	142,014 or 3·7 per Cent.

Note.—The amounts of the expenditure for the years ended at Lady-day and Michaelmas 1854 as stated above, differ from the amounts for the same periods as stated in the last annual Report. This arises from the fact that the amounts stated above comprise the expenditure of a larger number of Unions than was included in the amounts stated in the last Report.

Of the 3,979,491*l.*, shown by the first of these tables to have been expended during the year ended at Lady-day 1855, for in-maintenance and out-relief, the sum of 793,648*l.* is found to have been expended in relief to irremovable poor. The expenditure for relief to this class of poor is not, however, distinguished in several large parishes; and if the total of the expenditure (158,470*l.*) for in-maintenance and out-relief in those parishes be deducted from the total of the expenditure of such relief in the 623 Unions and Parishes, the cost of the relief to irremovable poor will be seen to amount to no less than 20·7 per cent. on the total expenditure for relief.

Number of Persons relieved.

The numbers of persons of all classes in receipt of relief on the 1st day of January and the 1st day of July 1855 respectively, in the several unions and parishes under

Boards of Guardians, are shown in the following summaries of returns received from the unions and parishes, the numbers for the preceding year being stated for purposes of comparison.

SUMMARY of RETURNS from 620 UNIONS and SINGLE PARISHES under Boards of Guardians, showing the Number of Persons of all Classes in receipt of Relief on the 1st January 1854 and 1st January 1855 respectively.

Number of Unions.	Year and Day.	All Classes except Insane and Vagrants.	Insane Persons.	Vagrants.	Total of all Classes.
620	1st January 1854 .	801,682	16,668	1,635	819,985
	1st January 1855 .	821,504	17,660	1,556	840,720
Increase on 1st January 1855 compared with 1st January 1854		19,822	992	..	20,735 or 2·5 per Cent.
Decrease		..	..	79	..

SUMMARY of RETURNS from 623 UNIONS and SINGLE PARISHES under Boards of Guardians, showing the Number of Persons of all Classes in receipt of Relief on the 1st July 1854 and the 1st July 1855 respectively.

Number of Unions.	Year and Day.	All Classes except Insane and Vagrants.	Insane Persons.	Vagrants.	Total of all Classes.
623	1st July 1854 . .	777,335	17,019	1,727	796,081
	1st July 1855 . .	791,518	17,799	1,576	810,893
Increase on 1st July 1855 compared with 1st July 1854		14,183	780	..	14,812 or 1·9 per Cent.
Decrease		..	..	151	..

STATEMENT of the Number of Adult Able-bodied Persons in receipt of Relief (In-door and Out-door) in 620 UNIONS and SINGLE PARISHES under Boards of Guardians on 1st January 1854 and 1st January 1855 respectively.

Number of Unions.	Year and Day.	Widows.	All other Classes.	Total.
620	1st January 1854 .	48,100	88,177	136,277
	1st January 1855 .	49,300	93,356	142,656
Increase on 1st January 1855 compared with 1st January 1854		1,200	5,179	6,379 or 4·7 per Cent.

STATEMENT of the Number of Adult Able-bodied Persons in receipt of Relief (In-door and Out-door) in 623 UNIONS and SINGLE PARISHES under Boards of Guardians on 1st July 1854 and 1st July 1855 respectively.

Number of Unions.	Year and Day.	Widows.	All other Classes.	Total.
623	1st July 1854 . .	48,389	76,878	125,267
	1st July 1855 . .	51,351	80,698	132,049
Increase on 1st July 1855 compared with 1st July 1854		2,962	3,820	6,782 or 5·4 per cent.

Returns have been received, during the progress of printing this Report, of the number of persons in receipt of relief in 624 Unions and Single Parishes, under Boards of Guardians, in England and Wales, on the 1st January 1856. Summaries of these returns are inserted in the Appendix (pages 150 and 151).

The following is a comparison of the number in receipt of relief (in-door and out-door) on the 1st January 1856, with the number in receipt of relief on the 1st January 1855:—

As respects paupers of all classes,—

The number in receipt of relief on the 1st January 1855 - 850,453
The number in receipt of relief on the 1st January 1856 - 876,655

Increase - - - - 26,202 *or* 3·1 *per cent.*

As respects adult able-bodied paupers,—

The number in receipt of relief on the 1st January 1855 - 144,500
The number in receipt of relief on the 1st January 1856 - 152,174

Increase - - - - 7,674 *or* 5·3 *per cent.*

In twenty-four of the English counties and in seven of the Welsh there appears to have been an increase in the number of the adult able-bodied paupers in receipt of relief on the 1st January 1856, as compared with the number in receipt of relief on the 1st January 1855; but in all the other counties there was a decrease. The rate per cent. of the increase and decrease in the several counties is as follows:—

Increase.

Bedford . . . . 16·9	Monmouth . . . . 14·0	Wilts . . . . . 2·4
Buckingham . . . 5·9	Norfolk . . . . . 4·6	Worcester . . . . 17·5
Chester . . . . 10·4	Northampton . . . 17·3	Cardigan . . . . 1·9
Cornwall . . . . 3·2	Northumberland . . 2·9	Carmarthen . . . 2·4
Derby . . . . . 11·4	Nottingham . . . 17·2	Carnarvon . . . . 2·1
Gloucester . . . . 6·5	Rutland . . . . 25·7	Denbigh . . . . 21·9
Hertford . . . . 7·3	Salop . . . . . 11·0	Flint . . . . . 16·0
Kent . . . . . 1·9	Somerset . . . . 0·5	Glamorgan . . . . 9·1
Lancaster . . . . 11·1	Stafford . . . . . 22·6	Pembroke . . . . 5·9
Leicester . . . . 19·1	Surrey . . . . . 11·6	
Middlesex . . . . 21·4	Warwick . . . . . 47·6	

Decrease.

Berks . . . . . 2·5	Huntingdon . . . 1·4	York, North Riding . 13·4
Cambridge . . . . 1·5	Lincoln . . . . . 3·1	York, West Riding . 8·1
Cumberland . . . 4·2	Oxford . . . . . 12·1	Anglesey . . . . 3·2
Devon . . . . . 0·5	Southampton . . . 2·0	Brecon . . . . . 35·1
Dorset . . . . . 1·4	Suffolk . . . . . 5·9	Merioneth . . . . 12·1
Durham . . . . . 6·5	Sussex . . . . . 9·0	Montgomery . . . 2·1
Essex . . . . . 1·8	Westmorland . . . 1·2	Radnor . . . . . 7·7
Hereford . . . . 10·9	York, East Riding . 4·1	

The foregoing summaries do not comprehend the persons in receipt of relief in certain places under Local Acts, in parishes incorporated under Gilbert's Act, or in Single Parishes not comprised in Unions, which together contain a population of 1,471,180.

In order to exhibit the pauperism of the whole of England and Wales, we have, in the TABLE below, made an

estimate of the numbers in receipt of relief, in the places not included in the above summaries, based on the actual numbers in receipt of relief in the places which are included therein; that is to say, we have estimated the pauperism of places comprising a population of 1,480,403* to be in the same proportion to that population as the pauperism of places comprising a population of 16,559,597*; and in order to show the average numbers *at one time* in receipt of relief during the whole year, we have taken the mean of the numbers, in receipt of relief on the 1st of January, an (the 1st of July respectively. The Table gives a view of these important particulars for each year from 1849 (being the first year for which they can be given) to 1855.

TABLE.

Years ended at Lady-day.	Population of England and Wales.	The Average Number of *Paupers of all Classes* (including Children) at one time in receipt of Relief in England and Wales.			Ratio per Cent. of Paupers relieved on the Population.	The Average Number of *Adult Able-bodied Paupers* (exclusive of Vagrants) at one time in receipt of Relief in England and Wales.			Ratio per Cent. of Adult Able-bodied Paupers on the Total Number of Paupers of all Classes relieved.	Average Price of Wheat per Quarter.
		In-door.	Out-door.	Total.		In-door.	Out-door.	Total.		
										s. d.
1849	17,534,000	133,513	955,146	1,088,659	6·2	26,558	202,265	228,823	21·0	49 1
1850	17,765,000	123,004	855,696	1,008,700	5·7	24,095	167,815	191,910	19·0	42 7
1851	17,927,609	114,367	826,948	941,315	5·3	20,876	142,248	163,124	17·3	39 11
1852	18,205,000	111,323	804,352	915,675	5·0	18,455	130,705	149,160	16·3	39 4
1853	18,402,000	110,148	776,214	886,362	4·8	17,649	121,926	139,575	15·7	42 0
1854	18,617,000	111,635	752,982	864,617	4·6	18,237	116,954	135,191	15·6	61 7
1855	18,840,000	121,400	776,286	897,686	4·8	20,669	125,962	146,631	16·3	70 0½

The decrease in the average number of paupers of all classes in receipt of relief at one time in 1855, as compared with 1849, is shown to be 17·5 per cent.; and as regards able-bodied paupers the decrease in 1855, as compared with 1849, appears to be 35·9.

Workhouse Schools: Industrial Training.

We have continued our endeavours to impress on Boards of Guardians the essential importance of the extension of industrial training in Workhouse schools, and we have reason to hope that the value of such training is now very generally recognised. We think it important, however, as bearing upon this point, to insert the following extract from a report recently received, as to the general state of

* The difference between these numbers and those stated in the last Report is owing to the fact, that the *actual* pauperism of several places has been returned during the last year, the pauperism of which was *estimated* previously.

his district, from our Inspector Sir J. Walsham, a copy of which is inserted in the Appendix :—

"A good deal has been attempted in the way of industrial training, by hiring or purchasing land, upon which, in the great majority of my Unions, the boys are employed, as well as by establishing washhouses and laundries for the girls, by teaching them to cook, and (in the Saffron Walden, Bosmere and Claydon, Cosford, Plomesgate, and Wangford Unions) by keeping cows.

"There are but few Unions, in fact, and those chiefly in Kent (where the children can be got early out to service), in which boys are not or may not be employed in spade husbandry. But it is far more difficult to induce Guardians to keep cows; although nothing can have been more satisfactory than the result of training the girls to dairy work in the few instances in which the experiment has been tried. I should, however, observe, that even the possession of land in connexion with the Workhouse will not positively ensure that the boys are regularly set to work upon it. Schoolmasters, more especially good Schoolmasters, rarely remain long in the same Workhouse School, and few of them know much, or care much, about the cultivation of land. The duty of superintendence consequently devolves chiefly upon the Masters of Workhouses, and is by them often delegated to the porters or to elderly inmates. The boys moreover have to be taught the use of the spade, &c., this gives trouble to the superintendent; and as the processes of cultivation can be carried on more rapidly by the employment of adult labour (which all Workhouses can supply), it requires on the part of the Visiting Guardians a degree of vigilance and interest in the subject, which I am afraid very few exercise, to prevent the cultivation of the five or six acres of land (originally hired or bought for the *exclusive* purpose of industrial training) from being carried on, if not chiefly, at all events too frequently and too largely, by means of the able-bodied men, or of the old men capable of doing some work. I know of no remedy but the establishment of District Schools for this fatal (and I apprehend increasing) obstacle to the successful development of that industrial training of the boys in the Workhouse Schools of rural districts which we had hoped to have found in the adoption of what formerly was best known among Unions by the name of 'The Quatt system.'"

A statement will be found in the Appendix (page 155) showing the average number of children attending the Workhouse School of every Union in England and Wales,

as well as the number attending District Schools, during the half-year ended at Lady Day last; and also the amount of money paid in each case, from the Parliamentary Grant, in respect of the salaries of the teachers. The following is a summary of this statement: —

Average number of children attending *workhouse* schools during the half-year ended at Lady-day 1854,—		
Boys,—		
Under 10 years of age . .	9,309	
Above 10 years of age . .	9,146	
		18,455
Girls,—		
Under 10 years of age . .	9,826	
Above 10 years of age . .	8,003	
		17,829
Average number of children attending *district* schools during the same period,—		
Boys,—		
Under 10 years of age . .	417	
Above 10 years of age . .	712	
		1,129
Girls,—		
Under 10 years of age . .	376	
Above 10 years of age . .	551	
		927
Total of Children attending Workhouse and District Schools		38,340

	£	s.	d.
The amount paid to Boards of Guardians out of the Parliamentary grant in respect of the salaries of workhouse and district school teachers, for the year ended at Lady-day 1854	23,981	13	6

Emigration. The number of persons who have received assistance from the Poor Rate during the year to emigrate has been very small; amounting in the whole to only 158.

Vaccination. A summary of the Returns of the number vaccinated by the public vaccinators during the year ended at Michaelmas last, together with the number of births, is given in the Appendix, page 180. This summary shows the number of persons vaccinated by the public vaccinators in England and Wales during the year to have been 464,099. The number of cases in which vaccination was successful was 448,519.

Workhouses built or enlarged. Satisfactory progress has been made during the year in providing new Workhouses, and in enlarging or improving existing Workhouses.

We have affixed our Seal to the plans of new Workhouses for the following Unions; viz., Chester-le-Street for 140 inmates, Conway for 60 inmates, Dolgelley for 60 inmates, Dudley for 680 inmates, Kings Lynn for 420 inmates,

Manchester (Township) for 1,600 inmates, North Bierley for 400 inmates, Runcorn for 200 inmates, West Bromwich for 600 inmates, Wigan for 700 inmates, and Brighton (Parish) for 748 inmates; and to plans for the enlargement or improvement of the Workhouses of the following Unions; viz., Bath, Berkhampstead, Berwick-on-Tweed, Biggleswade, Bishops Stortford, Bradford (York), Bridgend and Cowbridge, Carlisle, Carnarvon, Chard, Clun, Cookham, Darlington, Daventry, Durham, Easthampstead, East Retford, Edmonton, Ely, Epping, Eton, Fareham, Gateshead, Glanford Brigg, Glossop, Gravesend and Milton, Halifax, Hampstead (Parish), Hastings, Hexham, Huntingdon, Kidderminster, Lewes, Liverpool (Parish), Longtown, Newton Abbot, Oldham, Ringwood, Romford, Rotherham, Saddleworth (Township), Salford, Shoreditch (Parish), Stafford, Stepney, Stockport, Strand, Tetbury, Uttoxeter, Westham, Wimbourne and Cranbourne, Wolverhampton, and Wycombe. We have also to report that we learn from our Inspector, Mr. Pigott, that "during the past year the pauper children of the Oxford incorporated parishes have been removed from the crowded and ill-classified City Workhouse to the Industrial School at Cowley, when a favourable opportunity will be afforded of testing the efficacy of such institutions in preventing pauperism." Mr. Pigott also reports that the Managers of the Farnham and Hartley Wintney District School are proceeding with the erection of the new District School at Crondall, in place of the school at Aldershott which has been purchased by the Board of Ordnance for the use of the Camp.

Legislation. Union Charges and rating Stock in Trade. 18 & 19 Vict. cc. 47 & 51.

Referring to the legislative proceedings of the last session, we have to observe, in the first place, that by the 18 & 19 Vict. c. 47. and c. 51. the temporary Act which renders certain classes of poor persons in Unions chargeable upon the Common Fund, and that which exempts the inhabitants of parishes from liability to be rated *as such* in respect of stock in trade and any other property, were renewed for another year.

Education of the Children of Out-door Paupers. 18 & 19 Vict. c. 34.

Although the Poor Law Amendment Act contemplates, in sect. 15., that children who are in a workhouse shall be educated therein, and consequently sanctions the expenditure of the poor rate towards the cost thereof, while the 7 & 8 Vict. c. 101. contains express provisions for the establishment of district schools, we have always considered that Boards of Guardians had no legal authority to expend

money in providing the means of education for the children of paupers who may be relieved out of the workhouse. Sanction is, however, now given by the 18 & 19 Vict. c. 34. to the expenditure by Guardians of the poor rate in granting additional relief to persons who are relieved out of the workhouse, to enable them to provide education for their children in such schools as the Guardians shall approve of, subject to regulations from this Board.

We have lately addressed a letter to all Boards of Guardians explaining in detail the provisions of this Act, and offering suggestions as to the proper mode of carrying it into execution. From information which we have received from various quarters we have reason to believe that many Boards of Guardians are giving their careful attention to the measure, and we trust it will be soon brought into extensive operation.

Burial of Paupers. 18 & 19 Vict. c. 79.

In consequence of the closing of the over-crowded burial grounds in the parishes of the Metropolis, and in other parishes situated elsewhere, our attention was directed to the legal provisions which had been made for the burial of the dead bodies of poor persons by Boards of Guardians and Overseers, and which are contained in the 7 & 8 Vict. c. 101. sects. 31. and 56., and in the 13 & 14 Vict. c. 101. sect. 2. It will be seen that the legislature have in those Acts required that such dead bodies, when the Guardians undertake the interment thereof, should, under certain circumstances, be buried in places therein particularly described. By the operation of the Orders in Council it became impossible, in many cases, to obey this requirement of the law. We felt desirous of ascertaining the strict legal condition of this matter, and submitted a case to the Attorney General, Solicitor General, and Mr. Tomlinson, with reference as well to the poor dying in the Workhouse as to those dying out of it, where, according to the provisions above referred to, the proper place of burial would have been in a parish in which the burial grounds had been closed, and no other had been provided. We were advised by them that in such an emergency the Board of Guardians might legally bury the dead body of any person dying in the Workhouse out of the parish, and in a burial ground not belonging to it, but in respect of the dead body of a poor person dying out of the Workhouse they could not legally do so.

Under these circumstances the 18 & 19 Vict. c. 79. was passed which empowers the Guardians or Overseers, where

the burial ground of the parish has been closed, or where it is so crowded that the burial therein would be improper, to cause the body to be buried in a burial ground in some other parish as near as conveniently may be to the parish where the burial would have been required to take place under the provisions of the Act 7 & 8 Vict. c. 101. By the second section of the statute they are authorized to enter into agreements for the burial of dead bodies of poor persons with any legally constituted cemetery company or any burial board, and where no objection shall have been made by the deceased, his wife or next of kin, may bury any dead body in the cemetery or burial ground of such company or board. It is provided, however, that the agreement shall not be valid unless made with the approval of this Board.

Similar provisions were made in the 18 & 19 Vict. c. 105. with reference to pauper lunatics dying in asylums; and by sect. 13. the visitors or trustees of any such asylum are empowered to provide a consecrated burial ground for the reception of the pauper as well as the other lunatics who may die in such asylum.

The same Act, in sect. 14., deals with pauper lunatics whose settlements cannot be ascertained, who, being found in boroughs which do not contribute to the county rate, are sent to an asylum, registered hospital, or licensed house. The 12 & 13 Vict. c. 84. sect. 3. provided that such lunatics, when removed in pursuance of the provisions of the 8 & 9 Vict. c. 126., should be charged to the borough; but it became inoperative when the 8 & 9 Vict. c. 126. had been repealed by the 16 & 17 Vict. c. 97. Accordingly that section is now repealed, and such lunatic paupers are rendered chargeable to the borough, the provisions contained in the latter statute relative to the chargeability of such class of paupers to a county being applicable to the case of a chargeability to the borough.

Destitute Lascars. 18 & 19 Vict. c. 91.

It is proper to notice the 22d sect. of the 18 & 19 Vict. c. 91., which makes it the duty of the East India Company to provide for and send home all destitute Lascars and other natives of the territories under their government, and enables the Guardians or Overseers, upon sending certain particulars to the Company, to be repaid the cost of the relief which they may expend upon any such destitute person, after the sending of such notice. We issued a circular* letter in August last to all Boards of Guardians, calling their attention to this enactment.

---

* See Appendix, page 26.

Removal of Nuisances. 18 & 19 Vict. cc. 116 & 121.

The statutes heretofore passed for the removal of nuisances and the prevention of diseases had given various powers to Boards of Guardians, and had likewise imposed upon them certain obligations with reference to those subjects. By two statutes of the last session, c. 116. and c. 121., the previous statutes were repealed, and the powers of Boards of Guardians in these matters, and the obligations to which they had been rendered subject, were removed, and were transferred to other local authorities therein specified.

We considered it advisable to point out to the Guardians the effect of the statute relating to the removal of nuisances upon their functions, in a circular letter, which is set out in the Appendix;* but we did not advert to the other statute, as happily the abatement of the cholera rendered it unnecessary, on the part of the Privy Council, to bring its provisions into operation.

Agricultural Statistics.

We stated in our last Report that we had, at the instance of the Lords of the Committee of Privy Council for Trade, requested eight of our Inspectors, viz. Sir John Walsham, and Messrs. Hawley, Weale, Pigott, Graves, Doyle, Manwaring, and Farnall, to undertake as a further experiment, for the purpose of ascertaining the applicability of Poor Law machinery to the object in view, the collection of the agricultural statistics of the counties of Norfolk, Suffolk, Southampton, Wilts, Leicester, Berks, Worcester, Salop, West Riding of York, Brecon, and Denbigh. This work has since been completed, and the Reports of the several Inspectors, embodying the result of the operation in each of the counties, have been laid before Parliament.

All which we most humbly submit to Your Majesty.

EDWARD PLEYDELL BOUVERIE,
President.

---

* See page 27.

APPENDIX.

No. 1.

MEDICAL OFFICERS. — GENERAL ORDER of the POOR LAW BOARD regulating the Continuance in office of Medical Officers.

To the Guardians of the Poor of the several Unions named in the Schedules hereunto annexed ;—

To the Clerk or Clerks to the Justices of the Petty Sessions held for the Division or Divisions in which the said several Unions are respectively situate ;—

And to all others whom it may concern.

Whereas, by a General Order of the Poor Law Commissioners bearing date the Twenty-fourth day of July One thousand eight hundred and forty-seven, and addressed to the Guardians of the Poor of the several Unions named in the First Schedule hereunto annexed, and by divers other Orders, the dates whereof are respectively set forth in the Second Schedule hereunto annexed, addressed to the Guardians of the Poor of the several Unions therein named, certain Regulations were made with reference to the qualification of Medical Officers, and their tenure of office.

And whereas, among other Regulations in the said General Order, and in the said other Orders, it is provided that every Medical Officer duly appointed shall, unless the period for which he is appointed be entered on the Minutes of the Guardians at the time of making such appointment, or be acknowledged in writing by such Medical Officer, continue in office until he may die or resign or become legally disqualified to hold such office, or be removed therefrom by the Poor Law Commissioners.

And whereas it is expedient that the said Regulation should be rescinded in respect of Medical Officers to be appointed after the Twenty-fifth day of March next.

Now therefore, We, the Poor Law Board, in pursuance of the powers given in and by the Statutes in that behalf made and provided, do hereby, with respect to the several Unions in the said Schedules mentioned, and with respect to every Medical Officer to be appointed therein, after the Twenty-fifth day of March next, rescind so much of the said General Order and of the said other Orders as contains the provision above recited.

And We do further Order and Direct, with respect to every appointment of a Medical Officer to be made, after the said Twenty-fifth day of March next, in any of the said Unions in the said Schedules mentioned, as follows :—

Article 1.—Every Medical Officer of a Workhouse duly qualified according to the Regulations of the Poor Law Board in force at the time of such appointment, and every District Medical Officer duly qualified as aforesaid, and residing within the District in which he is appointed to act, shall hold his office until he shall die, or resign, or be proved to be insane by evidence which the Poor Law Board shall deem sufficient, or become legally disqualified to hold such office, or be removed by the Poor Law Board.

Article 2.—Provided always, that if it be impracticable, consistently with the proper attendance on the sick poor, for the Guardians to procure a person so duly qualified aud residing within the District in which he is to act, or if the only person or persons resident within such District, and so duly qualified, shall be deemed by the Guardians to be unfit or incompetent to hold the office of Medical Officer, then and in such case the Guardians shall cause a special Minute to be made and entered on the usual record of their proceedings, stating the reasons which in their opinion make it necessary to employ a person not so duly qualified or not so residing within the District in which he is to act, and shall forthwith transmit a copy of such Minute to the Poor Law Board for their consideration, and the Poor Law Board may, for such time as they may approve, consent to the employment by such Guardians of any person duly licensed to practise as a medical man, although such person be not so duly qualified or not so residing in the District in which he is to act as such Medical Officer.

Article 3.—Provided also, that nothing herein contained shall prevent the Guardians in any case of emergency, or under any special circumstances, from appointing one or more Medical Officers to act temporarily for such time and upon such terms as the Poor Law Board shall approve.

First Schedule.

Names of Unions referred to in the annexed Order included in the General Consolidated Order.

Secretary.

No. 2.

MEDICAL OFFICERS.—CIRCULAR from the POOR LAW BOARD to Boards of Guardians on the above General Order.

Poor Law Board, Whitehall,
15th February 1855.

SIR,

I AM directed by the Poor Law Board to remind the Guardians that in the last Session of Parliament a Select Committee was appointed by the House of Commons "to inquire "into the mode in which Medical Relief is now administered in "the different Unions in England and Wales." The Committee, after a careful investigation, adopted by a very large majority the following Resolution, which they subsequently reported to the House:

"Your Committee recommend that every Medical Officer to "be appointed after the 25th of March 1855 should "continue in Office until he may die, resign, or become "legally disqualified to hold such Office, or be removed "therefrom by the Poor Law Board."

With a view of giving effect to this Resolution, the Poor Law Board have thought it their duty to issue the accompanying

Order. The Guardians will see that it has the effect of placing the Union Medical Officer, with regard to the tenure of his Office, upon exactly the same footing as that upon which every other Union Officer is already placed; an arrangement so natural in itself, that it has for some years past been adopted voluntarily in more than half the Unions throughout the Country, not only without practical inconvenience, but, as the Board believe, with real advantage to the administration of the Poor Law in those Unions. The Board direct me to express their confident hope that in the Unions where a different arrangement has hithereto prevailed, the effect of the new Order will be found equally satisfactory.

I am, &c.
COURTENAY,
Secretary.

To
The Clerk to the Guardians.

No. 3.

ELECTION OF GUARDIANS.—CIRCULAR from the POOR LAW BOARD to Boards of Guardians.

Poor Law Board, Whitehall,
28th February 1855.

SIR,

I AM directed by the Poor Law Board to call your attention to the proviso in Article 6 of the General Consolidated Order of July, 1847, which is as follows:—

> "Provided that, whenever the day appointed in this Order for the performance of any act relating to or connected with the election of Guardians shall be a Sunday or Good Friday, such act shall be performed on the day next following, and each subsequent proceeding shall be postponed one day."

By Article 20 of the above-mentioned Order, provision is made whereby, in case any Voting paper duly delivered at the address of the Voter, shall not have been collected through the default of the Clerk, or the persons appointed or employed for that purpose, the Voter in person may deliver the same to the Clerk before twelve o'clock at noon on the 8th day of April; but as that day in the present year falls upon a Sunday, the proper day for delivering such voting paper to the Clerk will be Monday the 9th of April.

Under these circumstances, it is requisite that the examination and computation of the votes under Article 21 should take place on the 10th of April, so as to allow a due interval between the proceedings respectively provided for by Articles 20 & 21.

The Board have deemed it advisable to give this intimation, as they have observed in certain Almanacks an inaccuracy in reference to these dates.

I am, &c.
COURTENAY,
Secretary.

To
The Clerk to the Board of Guardians.

No. 4.

SALARIES OF MEDICAL OFFICERS AND TEACHERS.—CIRCULAR from the POOR LAW BOARD to District Auditors.

Poor Law Board, Whitehall,
23d March 1855.

SIR,

ON the 1st June 1849, the Poor Law Board addressed a Circular Letter to the several Unions, respecting the Half-yearly Return* of Salaries of Medical Officers, and Schoolmasters and Schoolmistresses in Workhouse Schools. The Circular stated as follows :

> " The Return is to be signed by the Chairman of the " Board of Guardians, and the Clerk, and laid " before the Auditor at the time of his Audit, who " will compare the several payments inserted " therein with the proper vouchers, and certify " to the correctness of the same."

It is found that the Return in question has been in many instances not laid before the Auditor, in accordance with the above instructions; and the Board therefore direct me to request that where this is not done you will call for the Return, and in the event of its not being produced, forthwith report the fact to the Board.

It will be well to recal to the recollection of the Guardians, that as the Medical Officers, and Schoolmasters and Schoolmistresses, do not keep any accounts which render the condition imposed by Art. 31 of the General Order of Accounts applicable to them, their Salaries may be paid at the close of each Quarter, without waiting for the completion of the Audit of the Half-yearly Accounts.

In some cases it has been stated, as a reason for the non-production of the Return, that the second Quarter's Salaries of all the Union officers have not been wholly paid at the time of the Audit. If, however, the two Quarters' Salaries of the Medical Officers and Schoolmasters and Schoolmistresses have been paid, and the vouchers for the several payments are laid before the Auditor at the time of the Audit, this Return may be made without reference to the payment of the Salaries of other officers.

The Board have observed in some instances that the expenses incurred by the Guardians in consequence of the prevalence of cholera, in providing extra Medical attendance, gratuities to Medical Officers, and similar charges, have been inserted in Table I., of the Return, and a claim made for repayment of a moiety of such expenses from the Parliamentary Grant. These expenses, however, not being payable out of that Fund, should not be included in the Return. The Grant, it should be remembered, is limited, so far as Medical Relief is concerned, to the repayment of a moiety of the fixed Salaries of the Medical

---

* See a Form of the Return at p. 23.

Officers, exclusive of Fees for Midwifery and Surgical Operations, and to the repayment, where the Guardians have a Dispensary, of half the cost of Medicines and Medical and Surgical Appliances, and of the Dispenser's Salary, but no other expenses connected with a Dispensary can be repaid from the Grant.

With respect to the Schoolmasters and Schoolmistresses, the whole of their Salaries, as sanctioned by the Board, should be inserted in Table II., column 3, and not the amount specified in the certificate of the Committee of Council. This latter amount should be inserted in column 7.

Where the Schoolmaster or Schoolmistress does not reside in the Workhouse, and is not provided with rations, the Guardians are required to allow the sum of 15*l.* a year in lieu thereof, in order to entitle them to receive from the Grant the sum specified in the Certificate.

I am desired to request that you will be good enough to impress on the several Clerks of Unions in your District, the necessity of transmitting the Return to this Office, as soon as the same has been signed by you.

I am, &c.
COURTENAY,
Secretary.

To
District Auditor.

CHOLERA IN WORKHOUSES, 1854.—CIRCULAR from the POOR LAW BOARD to Medical Officers.

Poor Law Board, Whitehall,
26th April, 1855.

SIR,

I AM directed by the Poor Law Board to transmit to you, on the other side, a Copy of a Letter which they have received from the General Board of Health; and to request that you will have the goodness to forward to this Board, with as little delay as possible, answers to the Queries sent to you herewith, and referred to in the Letter of the General Board of Health, so far as the Workhouse for which you are Medical Officer is concerned.

I am, &c.
COURTENAY,
Secretary.

To
Medical Officer.

Enclosure 1.

The General Board of Health, Whitehall,
23d April 1855.

MY LORD,

I AM directed by the General Board of Health (with reference to the Queries prepared in this Office for circulation among Medical Officers with a view to elicit Information as to Cholera in Workhouses in 1854) to request that you will move the President of the Poor Law Board to take such steps as he may think best adapted for procuring the Information sought, as soon as possible, as Sir B. Hall is anxious that the General Reports on Cholera in 1854, for the purpose of which this Information is required, should be completed at an early date.

I have the honour to be,
My Lord,
Your most obedient servant,
T. TAYLOR,
Secretary.

To
Viscount Courtenay,
&c. &c. &c.
Poor Law Board.

Enclosure 2.

[*Cholera in Workhouses*, 1854.]

_____ UNION.

_____ WORKHOUSE.

QUERIES prepared by the General Board of Health, and referred to in their Letter to the Poor Law Board, dated the 23d April 1855.

1. Did any cases of malignant cholera, whether fatal or not, occur in the above-mentioned workhouse during 1854?

If so, please to give a List of the *dates* and *results* of the cases.

2. What was the average number of the inmates of the workhouse, including officers and servants, during 1854?

And what was the number when the cases occurred?

Enclosure 2. in No. 5.—*continued.*

3. Was diarrhœa prevalent among the inmates at any period of the year?
If so, in what month?
Did any cases prove fatal?

4. Did the earliest cases of malignant cholera occur in resident inmates of the workhouse, or in strangers recently admitted?

5. Did cholera exist, at any time during 1854, in or near to the town or district where the workhouse is situated?

6. Did cholera occur in the workhouse in 1849?
If so, please to state the number of attacks and deaths during that visitation.
Also the number of inmates then in the house.

7. Were the sanitary arrangements and condition of the workhouse in 1854 the same as in 1849? or—
Have any changes been effected during the interval?

8. Have any cases, fatal or not, of typhus fever occurred among the resident inmates of the workhouse in the interval?
If so, please to give a list of the dates and results of the cases.

Dated this _____ day of _____ 1855.

_____ Medical Officer of _____ Workhouse.

To the Poor Law Board,
&c. &c. &c.

No. 6.

LASCARS.—CIRCULAR from the POOR LAW BOARD to Boards of Guardians.

Poor Law Board, Whitehall,
31st August 1855.

SIR,

I AM directed by the Poor Law Board to call the attention of the Guardians to a provision which has recently been made by the Legislature, with reference to the relief of Lascars and other natives of the territories under the government of the East India Company, who may be found destitute in this country, and also with reference to the repayment of such relief out of the revenues of the East India Company.

The provision referred to, is contained in the "Merchant Shipping Act Amendment Act, 1855," and is as follows:—

18 & 19 Vict. cap. 91. sec. 22.

"It shall be the duty of the East India Company to "take charge of and send home or otherwise provide for

" all persons, being Lascars or other natives of the terri-
" tories under the Government of the said Company, who
" are found destitute in the United Kingdom; and if
" any such Person is relieved and maintained by any
" guardians, overseers, or other persons administering
" the relief of the poor, such overseers, guardians, or
" other persons may, by letter sent through the post or
" otherwise, give notice thereof, in writing, to the Secre-
" tary of the Court of Directors of the East India
" Company, specifying, so far as is practicable, the fol-
" lowing particulars, viz.:

" 1. The name of the person so relieved or main-
" tained:

" 2. The presidency or district, or part of the terri-
" tories of the East India Company, of which he
" professes to be a native:

" 3. The name of the ship in which he was brought
" to the United Kingdom:

" 4. The port or place abroad from which such ship
" sailed, and the port or place in the United
" Kingdom at which such ship arrived, when he
" was so brought to the United Kingdom, and the
" time of such arrival:

" And the said East India Company shall repay to the
" said Overseers, Guardians, or other persons, out of the
" revenues of the said Company, all monies duly ex-
" pended by them in relieving or maintaining such
" destitute person, after the time at which such notice
" aforesaid is sent, or otherwise given."

In calling the notice of the Guardians to this enactment, the Board desire, at the same time, to direct their attention to the 16th clause of the Act of the 17th and 18th Victoria, cap. 120, which contains a provision applicable to a somewhat similar class of persons to those specified in the Act of the 18th and 19th Victoria, cap. 91.

I am, &c.
COURTENAY,
Secretary.

To
The Clerk to the Guardians
of the Poor.

No. 7.

REMOVAL OF NUISANCES.—CIRCULAR from the POOR LAW BOARD to Boards of Guardians.

Poor Law Board, Whitehall,
5th October 1855.

SIR,

THE Poor Law Board having received various inquiries from Boards of Guardians as to their powers in reference to the appointments of Inspectors of Nuisances, and other proceedings

for the removal of Nuisances, deem it desirable to state that the Statutes 11 & 12 Vict. c. 123. and 12 & 13 Vict.c . 111. have been entirely repealed so far as they relate to England by the Statute 18 & 19 Vict. c. 121. which received the Royal Assent on the 14th August last.

The Powers conferred upon Boards of Guardians in Unions, and the obligations imposed upon them and their Officers by the two first-mentioned Acts have therefore ceased, except as regards proceedings commenced or taken under those Acts and not completed at the time of their repeal; these may be proceeded with under the authority of the Acts under which they were originally commenced.

The new Act confers no powers and imposes no duties upon the Board of Guardians in Unions, but requires that its provisions shall be carried into execution by the Local Authorities specified in the Act. In section 3, the different bodies who will constitute such Local Authorities are defined, and there are no terms in that section which will apply to the Board of Guardians of a Union.

Those Local Authorities are the following :—

In any Place within which the Public Health Act is or shall be in force, " The Local Board of Health :"

In any other Place wherein a Council exists or shall exist, " The Mayor, Aldermen, and Burgesses by the Council," except in the City of London and the Liberties thereof, where the local Authority shall be " The Commissioners of Sewers for the time being ;" and except in the city of Oxford and borough of Cambridge, where the local authority shall be " The Commissioners acting in execution of the Local Improvement Acts " in force respectively in the said city and borough :

In any place in which there is no Local Board of Health or Council, and where there are or shall be Trustees or Commissioners under an Improvement Act, " such Trustees or Commissioners :"

In any place in which there is no such Local Board of Health, nor Council, Body of Trustees, or Commissioners, and where there is or shall be a Board for the repair of the highways of such place, " that Board :"

In any place where there is no such Local Board of Health, Council, Body of Trustees, or Commissioners, nor Highway Board, a Committee appointed for carrying the Act into execution, by the name of " The Nuisances Removal Committee :"

In any Place wherein there is no such Local Board of Health, Council, Body of Trustees or Commissioners, Highway Board or Committee, and wherein there is or shall be " a Board of Inspectors for Lighting and Watching," under the Act 3 & 4 W. 4. c. 90., that Board with the Surveyors of the Highways :

In any place where there is no such Local Board of Health, Council, Board of Trustees or Commissioners, nor Highway Board, nor such Committee, nor Board of Inspectors for Lighting and Watching, "the Guardians and Overseers of the Poor, and the Surveyors of the Highways," in and for such place.

The Board desire, however, to add, that under section 10 of the Act, it is competent to any Relieving Officer who may be aware that a Nuisance exists within his district which is injurious to health, and falls within the description given by the Statute, to give notice thereof to the Local Authority, in order that such Authority may take cognizance of such nuisance, and cause, if they deem it requisite, the proper steps to be taken for its removal.

The nuisances to which the Act applies include—

Any premises in such a state as to be a nuisance or injurious to health.

Any pool, ditch, gutter, watercourse, privy, urinal, cesspool, drain, or ashpit, so foul as to be a nuisance or injurious to health.

Any animal so kept, as to be a nuisance or injurious to health.

Any accumulation or deposit which is a nuisance or injurious to health.

The Board request the Board of Guardians to communicate this information to the several Relieving Officers of their Union.

I am, &c.

W. G. Lumley,

Assistant Secretary.

To

The Clerk to the Guardians of the Union.

No. 8.

Weekly Return, Form B.

Circular from the Poor Law Board to Boards of Guardians.

Poor Law Board, Whitehall,

10th November 1855.

Sir,

The Poor Law Board addressed a Circular Letter to the clerks to the Boards of Guardians, dated the 20th May 1853, in which they stated as follows :—

"The Board, with the view of saving the clerk the trouble "of preparing two Weekly Returns, containing substantially the "same particulars, propose in future to devolve on the inspectors "the duty of extracting from the Form A. for the use of the "Board, the number of persons in receipt of relief; and thus to "dispense with the Form B."

The irregularity with which the Returns (Form A.) are, in many instances, made to the Inspectors, compels the Board to require that the use of the Return, Form B. may be resumed;

and I am therefore directed to request that you will forward to the Board the Return, Form B. in respect of any of the past weeks of the current quarter for which you may not yet have made Returns to the Inspector; and that you will also transmit, direct to the Board, a similar Return at the close of each subsequent week, bearing in mind that perfect regularity in the matter is of essential importance.

The Return, Form A. should continue to be made to the Inspector as heretofore.

Twelve copies of the Return, Form B. are sent to you herewith for use. Any further supply that may be required will be procured by the Guardians at the cost of the Union.

I am, &c.

To COURTENAY,

The Clerk to the Guardians. *Secretary.*

FORM B.

Enclosure.

_____ *Union.*

RETURN of the NUMBER of PAUPERS, exclusive of Lunatics in Asylums and Vagrants in Receipt of Relief on the *last day* of the_____Week of the Quarter ending the_____day of_____185 .

IN-DOOR (Vagrants not included).				OUT-DOOR (Lunatics in Asylums and Vagrants not included).				TOTAL of In-door and Out-door Paupers (exclusive of Lunatics in Asylums and Vagrants).
Number of Paupers in the Workhouse on the *last day* of the Week above mentioned.				Number of Paupers in Receipt of Relief on the *last day* of the Week above mentioned.				
Adults.		Children (of all Classes).	TOTAL.	Adults.		Children (of all Classes).	TOTAL.	
Not Able-bodied. (1)	Able-bodied. (2)	(3)		Not Able-bodied. (4)	Able-bodied. (5)	(6)		

*Signature of the Clerk*_____

*Date*_____185 .

NOTE.—By Persons in Receipt of Relief on "the last day" of the Week is meant not only Persons to whom Relief is actually given on that day, but Persons whose Allowance is for any period which includes that day.

The numbers of all the Paupers in Receipt of Relief at the cost of this Union, including non-resident as well as resident Paupers, should be inserted in this Return; but Paupers relieved at the cost of another Union, although relieved within this Union, should not be inserted in the Return.

Where there are two or more Workhouses in a Union, the numbers in each Workhouse should be stated separately.

No. 9.

LETTER from the POOR LAW BOARD to each of the POOR LAW INSPECTORS, on the Increase in Cost of Relief.

Poor Law Board, Whitehall,
24th August 1855.

SIR,

I AM directed by the Poor Law Board to direct your attention to the accompanying Parliamentary Return, showing the amount expended for In-maintenance and Out-relief in the several counties of England and Wales during the years ended at Lady-day 1854 and 1855.

You will observe that the increase in the expenditure of 1855 as compared with that of 1854 is in several counties very considerable, and it would therefore be satisfactory to the Board if you would be good enough to state the causes which have in your opinion led to this increase in the several counties in your district in which the increase exceeds 5 per cent.

I have, &c.

HENRY FLEMING,
Assistant Secretary.

To
Poor Law Inspector.

No. 10.

INCREASE IN THE COST OF RELIEF.—EXTRACT from the Reply (dated 6th November 1855) of EDWARD GULSON, Esq., Poor Law Inspector, to the Letter, No. 9, Page 31.

As the increase of expenditure set forth in the return enclosed in the circular of August 24th, *did not amount to 5 per cent. in any county in my district,* I did not consider any observation on my part to be required.

As I am now, however, led to believe that a reply to the circular is expected from me, I beg to remark that the increase of expenditure as shown by the return is—

In Devon only	- - -	1·4 and
In Somerset	- - -	4·5 per cent.

whilst there is a *decrease* of expenditure

In Cornwall of	- - -	0·7 and
In Dorset of	- - -	7·4 per cent.

and in each of the above counties there is an actual decrease in the total number of paupers relieved, except in Somerset, where the increase is only 0·7 per cent.

Considering the increased price of all kinds of provisions and necessaries which prevailed in the half year ended Lady-day 1855, as compared with the same period of 1854, it appears to me that the extent of pauperism and of Poor Rate Expenditure in my district was more satisfactory during the six months referred to, than in many other parts of the country.

No. 11.

INCREASE IN THE COST OF RELIEF.—EXTRACT from the Reply (dated 25th August 1855) of W. H. T. HAWLEY, Esq., Poor Law Inspector, to the Letter, No. 9, Page 31.

On a careful examination of the Return I find that there is no increase in any of the tables, either with respect to the amount expended in relief, or to the number of paupers relieved, *amounting to 5 per cent.*, in any of the counties in this district. A report is therefore probably not required, but observing that there is an increase in the expenditure in three of the counties, whilst there is a decrease in the number of paupers of all classes (as shown in Table No. 1.) relieved in all the four counties comprised in the district, which appears to involve an inconsistency, I beg to offer the following remarks in explanation.

The increase in the expenditure I attribute to the rise in the price of all necessary articles of food, which has obliged the Guardians to increase the amount of money allowances to the permanently disabled and aged poor receiving out-door relief. The same cause has also increased the expenditure in relief in kind, and in the supplies for the workhouses.

The decrease in the number of paupers of all classes is to be traced partly to increased employment and partly to emigration, and the enlistment of agricultural labourers in the army and in the militia.

The increase in the number of able-bodied male and female adult paupers, as shown in Table No. 2., arises, I have reason to believe, from the severity of the weather during the winter; and the reason why a decrease is shown in the county of Sussex is, that *that* county possesses more woodland than the other three, and its soil is of a deeper and more retentive quality, and it consequently offers more employment to the labouring population during the winter in coppice cutting, draining, &c. &c.

I subjoin a table showing the results of the return in this district.

COUNTIES.	Expenditure.		Paupers of all Classes, Table No. 1.		Able bodied Paupers, Table No. 2.	
	Increase.	Decrease.	Increase.	Decrease.	Increase.	Decrease.
DORSET - -	..	7·4	..	2·0	2·2	..
SOUTHAMPTON	1·9	..	..	0·8	4·5	..
SUSSEX - -	3·4	..	..	1·9	..	3·6
WILTS - -	1·5	..	..	1·0	2·6	..

No. 12.

INCREASE IN THE COST OF RELIEF.—EXTRACT from the Reply (dated 15th September 1855) of RICHARD HALL, Esq., Poor Law Inspector, to Letter, No. 9, Page 31.

My district, which is the metropolitan district, including London and its suburbs, comprises nearly the whole of Middlesex, a considerable part of the county of Surrey, and a small portion of the county of Kent; the increase of expenditure exceeds 5 per cent. in the counties of Middlesex and Surrey.

I attribute the increase in Middlesex and Surrey to three causes, which are, in my opinion, sufficient to account for it.

1st. The cholera which prevailed in London during the autumn of 1854.

2d. The almost unprecedented severity and duration of the winter, which for some weeks in the early part of 1855 kept out of work all out-door labourers in London, including those who ordinarily gain their living on the river and in the docks.

3d. The high price of provisions during the latter as compared with the former of the two years in question.

To these causes I might probably add a general depression, caused by the war and increased taxation, in most departments of trade and business carried on in London, which by contracting employment diminishes the resources of the working classes, and so causes an increased demand upon the poor rates.

No. 13.

INCREASE IN THE COST OF RELIEF.—EXTRACT from the Reply (dated 24th September 1855) of ROBERT WEALE, Esq., Poor Law Inspector, to Letter, No. 9, Page 31.

I am not in possession of any specific details from the several Unions in my district to enable me to account for the increase in each, but from information I have obtained in visiting the several Unions I am led to believe the causes are as follows :—

1st. The continual high price of provisions.

2d. The costs of maintenance of the wives and families of persons serving the army, navy, and militia.

3d. The great severity of weather during the last winter.

4th. In Unions of a manufacturing character, depression in trade arising from war and other causes.

No. 14.

INCREASE IN THE COST OF RELIEF.—EXTRACT from the Reply (dated the 25th August 1855) of Sir JOHN WALSHAM, Bart., Poor Law Inspector, to Letter, No. 9, Page 31.

As it regards my district, the cost of the relief of the poor, comparing the year ended Lady-day 1855 with the preceding

parochial year, has decreased, not increased, in the counties of—

Cambridge (4·3 per cent.)
Norfolk (2·6 per cent.)
Suffolk (2·4 per cent.)

Kent is not wholly in my district, but the increase in this county is less than 5 per cent., being in fact 3·4 per cent.

In Essex also the increase is only 3·5 per cent.

I do not, therefore, appear to be called upon by the circular to state the causes which may, in my opinion, have produced (in the Kent and Essex Unions) a heavier expenditure for 1855 than for 1854.

But I may nevertheless add, that I attribute such increase to the high price of flour and bread affecting both the contracts for relief in kind, and the circumstances of those among the poor, who in cheaper times would probably not have been applicants for relief, and likewise to the burthens cast upon several Kent and Essex Unions by outbreaks of cholera. Epping, Romford, and Maldon in Essex, Dartford, Thanet, and Milton in Kent, suffered very severely in the summer and autumn of 1854 from cholera, whilst other Unions suffered from the same formidable epidemic, though in a lesser degree.

No. 15.

Increase in the Cost of Relief.—Extract from the Reply (dated the 30th August 1855) of Grenville Pigott, Esq., Poor Law Inspector, to Letter, No. 9, Page 31.

In the counties of Berks, Bucks, Kent, and Sussex the increase does not amount to 4 per cent. In the counties of Middlesex and Surrey, where the increase is respectively 14·3 and 13·4 per cent., it has taken place in the metropolitan portion of these counties not under my superintendence.

There remains the county of Oxford, where the increase amounts to 6·6 per cent. In my opinion this has been caused chiefly by the unusual amount of epidemic sickness of a serious nature (cholera and small-pox especially) which prevailed during the last autumn and winter in the Eastern Unions of that county, and partly also to the fact that the rate of wages in Oxfordshire being generally lower than in any other county of my district, the continuance of high prices during the last winter so completely exhausted the slender resources of the labouring classes as to drive more families than usual to seek relief in the workhouses, and also to bring sickness and consequent chargeability upon many others. I may remark also, that the Oxford militia was one of the first regiments embodied, and that in some cases the wives and families of able men enlisting have become chargeable through their absence from their parishes.

These causes, together with the yearly increase of population, appear to me sufficient to account for the increase of pauperism in the county during the year ending Lady-day last.

No. 16.

INCREASE IN THE COST OF RELIEF.—EXTRACT from the Reply (dated the 10th October 1855) of J. T. GRAVES, Esq., Poor Law Inspector, to Letter, No. 9, Page 31.

In four out of the ten counties of my district the rate of increase has exceeded 5·8 per cent., the average increase of England and Wales; the increase in Monmouth being 10·9, in Radnor 7·9, in Carmarthen 7·7, and in Hereford 6·3.

In four other counties (namely, Cardigan, Pembroke, Gloucester, and Glamorgan) the increase has not exceeded the average increase, but has exceeded 5 per cent.

In Worcester the increase has fallen short of 5 per cent., and in Brecon there has been a decrease (with perhaps a decrease of population).

The general answer to the inquiries I have made as to the cause of increased expenditure has been "increase in the price of provisions," especially bread and cheese. This operates both to make more relief necessary, and to make an equal amount of relief more expensive. The latter effect is obvious, chiefly in Unions, where much relief is given in kind.

In Monmouthshire, where the increase of expenditure is greatest, I am informed that the last winter was more unhealthy than the winter before, and that the continued snow deprived many persons at Newport and elsewhere of employment for a longer time than in the Winter 1853–54. In Monmouthshire too (as also in Glamorganshire) some allowance must be made for increase of population.

Other causes adverted to, have been the inferiority of the potato crop of last year in portions of Cardiganshire, Carmarthenshire, and Radnorshire, the derangement of trade in the clothing districts of Gloucestershire in consequence of the war, the check upon employment occasioned by the increased taxation of employers, and the maintenance of the wives of soldiers upon service.

It would require, however, a more minute investigation than I have been able to institute to ascertain with accuracy the bearing of local and peculiar causes, and I consider the statement herein contained as of very little statistical importance.

No. 17.

INCREASE IN THE COST OF RELIEF.—EXTRACT from the Reply (dated 24th October 1855) of ANDREW DOYLE, Esq., Poor Law Inspector, to Letter, No. 9, Page 31.

The counties and rate of increase in my district are as follows:—

	Chester	14·9 per cent.
(Three Unions.)	Derby	7·6 per cent.
	Stafford	7·4 per cent.
	Anglesey	6·4 per cent.
	Flint	5·3 per cent.
	Merioneth	5·4 per cent.

I may observe generally that throughout my district there has been an increase of pauperism during the year ended Lady-day

1855 as compared with the preceding year. This increase may be attributed in a great degree to the extreme severity of the weather in the winter of 1855, and slightly to the prevalence of cholera in some parts of my district, and to the number of the families of soldiers and of militiamen that became chargeable. In the counties of Chester and Stafford it will be in the recollection of the Board that large numbers of the labouring classes became chargeable in consequence of the depressed state of particular branches of industry. In the Potteries and mining districts of Staffordshire, and in the silk works in Cheshire, severe distress prevailed for a short time. To the increase of pauperism attributable to such causes may in some degree be ascribed the increase in the relative expenditure of the year ended Lady-day 1855. That increase, however, is mainly owing to the increased cost of provisions. I find that in every Union in my district in which an increase in the expenditure has taken place the increased cost of provisions is assigned as the chief cause. This will appear more fully in the detailed statement of the causes assigned for the increase in the several Unions in which an increase of expenditure has taken place.

CHESTER.

Altrincham.—Expenditure of 1855	- - - -	£ 7,141
Ditto 1854	- - - -	6,084
Increase	- -	£ 1,057

The increase in this Union is ascribed to the severity of weather during last winter, and the number of families of men in the militia and on foreign service being relieved.

Great Boughton.—The cause assigned by the Guardians for the increase in this Union is the high price of provisions, which has also caused a slight increase of pauperism.

Chester.—Expenditure of 1855	- - - -	£ 5,467
Ditto 1854	- - - -	4,945
Increase	- -	£ 522

The only causes to which the increase is to be ascribed in this Incorporation are the increased price of provisions and the severity of weather in the winter of 1855.

Congleton.—The increase of 147*l.* in the expenditure of 1855 as compared with that of 1854, which took place in this Union, was in consequence of the long and severe frost of last Christmas, and of the wives and families of militiamen becoming chargeable.

Macclesfield.—Expenditure of 1855	- - - -	£ 5,295
Ditto 1854	- - - -	4,682
Increase	- -	£ 613

The above increase is mainly owing to a very serious depression of the silk trade.

Nantwich.—Expenditure of 1855	- - - -	£ 7,078
Ditto 1854	- - - -	6,750
Increase	- -	£ 328

The only cause to which the above increase may be ascribed is the increased price of provisions.

Northwich.—In this Union there is a decrease of 86*l.* 13*s.* 1*d.* in the out-relief, while there is an increase of 87*l.* 10*s.* 6*d.* in the in-maintenance during the year ended Ladyday 1855 as compared with that of 1854, which increase is attributable to the increased price of provisions.

Runcorn.—The increase of 402*l.* which took place in the expenditure of this Union is attributed by the Union officers to the prevalence of cholera during a part of the last year, and also to the want of a workhouse.

Wirral.—The increase in the expenditure of this Union is ascribed to the increase in the price of provisions (this is the principal cause); the great severity of the last winter, during which 3,080 individuals were relieved in consequence of the frost, at a cost of 224*l.* 3*s.* 7½*d.*; to the increased number of widows, and of wives and families of militia-men; and to the rapid increase in the population.

DERBY.

Chapel-en-le-Frith.—Expenditure of 1855	- - -	£ 1,299
Ditto 1854	- - - -	1,274
Increase	- -	£ 25

There is but a slight increase in this Union.

Glossop.—Expenditure of 1855	- - - -	£ 1,291
Ditto 1854	- - - -	1,095
Increase	- -	£ 196

The increase which has taken place in this Union has been occasioned by an increased price of provisions.

Hayfield.—Expenditure of 1855	- - - -	£ 892
Ditto 1854	- - - - -	834
Increase	- -	£ 58

In this Union there was less demand for manufactured goods, to which the above increase may be ascribed.

STAFFORD.

Burton-upon-Trent.—Expenditure of 1855	- - -	£ 4,770
Ditto 1854	- - -	4,577
Increase	- -	£ 193

This increase is caused mainly by the increased price of provisions. The Burton brewers employed fewer men during the last year in consequence of the high price of hops, to which, in some degree, the increase in the expenditure may be attributed.

Cheadle.—Expenditure of 1855	- - - -	£ 2,436
Ditto 1854	- - - - -	2,333
Increase	- -	£ 103

The increase of 103*l.* which took place in this Union is entirely occasioned by the increase in the price of provisions. The amount expended for bread alone shows an increase of 176*l.* as compared with the preceding year, while the quantity consumed of that article is about the same for each year.

Leek.—In this Union there is an increase of 71*l.* in the expenditure of 1855 as compared with that of 1854, the cause of which is attributed to the increased price of provisions, particularly of bread.

Lichfield.—Expenditure of 1855	- - - - -	£ 4,680
Ditto 1854	- - - - -	4,378
Increase	- -	£ 302

The only cause to which the above increase is to be ascribed is the increased price of provisions.

Newcastle-under-Lyme.—The increase which took place in this Union was in consequence of the increased price of provisions.

Penkridge.—Expenditure of	1855	£ 2,743
Ditto	1854	2,561
	Increase	£ 182

In-maintenance increased 3¼*d.* per head per week in this Union, and the amount expended in bread alone in 1855 exceeds that of 1854 by 155*l.*; therefore the only cause to which the above increase of 182*l.* may be ascribed is the increased price of provisions.

Seisdon.—The increase which occurred in the expenditure of this Union is to be ascribed to the increased price of provisions, together with an additional amount of sickness in the year ended Lady-day 1855.

Stafford.—The expenditure of this Union has been increased in consequence of the increased price of bread in particular and of provisions generally, badness of trade in some measure, and an extraordinary number of widows with large families becoming chargeable within the year ended Lady-day 1855.

Stoke-upon-Trent.—The great depression in this district, which caused some manufactories to fail, others to be suspended, and some to give work but a day or two per week, compelled many hundreds to apply for relief. To this, together with the increased price of provisions, the increase in the expenditure of this parish may be ascribed.

Stone.—Expenditure of	1855	£ 2,811
Ditto	1854	2,598
	Increase	£ 213

This increase is attributable to the increased price of provisions.

Walsall.—The increase in the expenditure of this Union in the year ended Lady-day 1855, as compared with that of 1854, arises from the severe cold and frost of last winter, and from the increased price of bread and other provisions. Some portion of the increase is attributable to the support of wives and families of soldiers and militiamen.

West Bromwich.—The increase which took place in the expenditure of this Union may be attributed in some measure to the falling off in trade, and consequent desertion of families by their parents, but chiefly to the increased price of provisions.

Wolstanton and Burslem.—The increase of 614*l.* in the expenditure of this Union is accounted for by the increased price of provisions, the depression of trade in the district, and the increased amount of sickness.

Wolverhampton.—The increased price of provisions, less demand for labour, the severity of weather during last winter, and the wives and families of soldiers and militiamen becoming chargeable, are assigned as the causes of the increase in the expenditure of this Union.

ANGLESEY.

Anglesey.—Expenditure of	1855	£ 7,289
Ditto	1854	7,161
	Increase	£ 128

The above increase in the expenditure of this Union is to be attributed to the severity of weather last winter and the increased price of provisions.

Holyhead.—The increase which occurred in the expenditure of this Union has been caused in consequence of the severe weather in the winter of 1855, and to the suspension on that account of the works at the new harbour of refuge at Holyhead.

FLINT.

St. Asaph.—The increase which occurred in the expenditure of this Union may be attributed to the high prices of provisions.

Holywell.—The only cause to which the increase in the expenditure of this Union can be ascribed is the increased price of provisions.

MERIONETH.

Bala.—The increase of 145*l.* 13*s.* 4*d.* in the expenditure of this Union is ascribed by the Union officers to the increased price of provisions.

Corwen.—The slight increase which has taken place in this Union is attributed to the increased price of provisions.

Dolgelly.—Expenditure of 1855	- - - - -	£ 4,534
Ditto 1854	- - - -	4,309
Increase	- -	£ 225

The above increase may be ascribed to the high price of provisions, the prevalence of typhus fever, and the inclemency of the weather during the last winter.

Festiniog.—The slight increase, viz. 60*l.*, which occurred in this Union, is attributed to the increased price of provisions.

Generally throughout this district the increase in the expenditure has not been out of proportion to the increase in the price of provisions.

Although Salop is not included amongst the counties in which an increase took place, yet there are few Unions in that county which are exceptions. A statement which has been published, signed by the chairman of the Madeley Union, exhibits with clearness the causes of the increase in the expenditure of that Union. The increase in the expenditure on account of maintenance of lunatics is a circumstance to which attention has been drawn by the Guardians of several Unions in my district, in some of which the increase has been proportionately much greater than in Madeley.

No. 18.

INCREASE IN THE COST OF RELIEF.—EXTRACT from the Reply (dated 27th August 1855) of JOHN MANWARING, Esq., Poor Law Inspector, to Letter, No. 9, Page 31.

Judging from what I know of the Nottingham Union, I should suppose the increase in Nottinghamshire to arise from the depression of trade in the manufacturing portion of the county, coupled with the fact of the county militia being supplied chiefly from the manufacturing towns, as the returns in my possession do not show any material increase in the other Unions of the county which are comprised in my district. The manufacturing Unions of Mansfield, Basford, and Radford are not in my district.

The same observations will apply to the West Riding of Yorkshire, as in the Unions in my portion of it (which are agricultural) there is little difference between the two half years. And as regards Derbyshire, and the East and North Ridings of Yorkshire, the increase may probably arise from the unusual

severity of the spring, which affected pauperism much more in some parts of the country than in others; but there are three Unions in Derbyshire, and five in the North Riding, which are not comprised in my district.

Referring to the summary of returns (No. 1.), I observe that on the 1st July 1855 1080 paupers more were relieved in Nottinghamshire than on the same day in 1854. From the returns in my possession it appears that 699 of that increase were in the Nottingham Union alone.

No. 19.

INCREASE IN THE COST OF RELIEF.—EXTRACT from the Reply (dated 2d November 1855) of H. B. FARNALL, Esq., Poor Law Inspector, to Letter, No. 9, Page 31.

Immediately on the receipt of your instructions, I corresponded with the clerks of the forty-six Unions in my district, and the returns they sent me, together with calculations and observations which I have made upon them, form the basis of this report.

The estimated population of the forty-six Unions in my district is at present 3,290,043, a number which I obtain by adding 1·2 per centum per annum to the ascertained population of 1851, which was found to be 3,136,749, so that there is an increase at the present period of 4·8 per centum on the population of 1851.

In my district there is one Union in the county of Chester, twenty-seven Unions in the county of Lancaster, and eighteen Unions in the West Riding of Yorkshire; and the annexed Table marked "A." shows the comparative average weekly pauperism of each Union in the district (arranged in counties) in the years ended at Lady-day 1854 and 1855, together with the per-centage of increase or decrease (as the case may be) for 1855, as compared with 1854.

You will observe that the number of paupers relieved for the year ended Lady-day 1855 was 114,133, being only 3·5 per centum on a population of 3,290,043, and that there was a decrease of pauperism in the year ended at Lady-day 1855, in seven of the Unions in this district as compared with the pauperism of 1854.

I now pass on from the number of paupers above referred to to the amount of relief expended upon them, and submit for your consideration the Table annexed marked "B." showing the comparative expenditure for in-maintenance and out-relief in the several Unions in this district for the years ended Lady-day 1854 and 1855 respectively.

I have arranged this Table in counties, so as to comply with the requirements of your instructions to me dated the 24th of August last.

I have first to direct your attention to the fact that there was a decrease in the expenditure alluded to for the latter year in the Unions of Barton-upon-Irwell, Garstang, Leigh, Ormskirk, Prestwich, Wigan, Halifax, Settle, and Wortley, and that the

increase does not exceed five per centum in the Unions of Burnley, Salford, West Derby, Dewsbury, Saddleworth, and Wakefield, which leaves me the expenditure of thirty-one Unions within this district to report on to you.

Before I proceed more particularly to analyze that expenditure, I have to point out to you that the total expenditure in in-maintenance and out-relief in the forty-six Unions of this district, for the year ended Lady-day 1855, was 469,725*l.*, and as the net rateable value of the property assessed to the poors' rate in these Unions in the year 1852 was 9,096,238*l.*, this relief was covered by one levy in the year ended Lady-day 1855 of one shilling and three eighths of a penny in the pound.

I have great gratification of informing you that there are at present only 108,319 paupers on the books of the forty-six Unions in this district, whereas the average weekly number of paupers for the year ended at Lady-day 1855 was 114,133; thus a decrease is shown at the present period of 5,814 paupers per week, which gives a per-centage of pauperism on population of only 3·3.

I have next to state the causes which have led to an increased expenditure in 1855, as compared with 1854, in the thirty-one Unions, which have exceeded five per centum.

These Unions are :—

1. *Stockport.*—Increase 1,136*l.* on an expenditure of 6,545*l.*, in 1854, or 17·3 per centum.

The opinion of the clerk of this Union as to the cause of increase is stated as follows :—

" The chief cause of increase of expenditure is the price of provisions. In the Hazel Grove district the slackness of the silk trade has much affected that portion of the Union. The cotton trade, though rather depressed, has been at full work, with but few exceptions. The principal cause of decrease or increase is, in my opinion, the cheapness or dearness of provisions."

2. *Ashton-under-Lyne.*—Increase 700*l.* on an expenditure of 6,253*l.*, in 1854, or 11·2 per centum.

The opinion of the clerk of this Union as to the cause of increase is stated as follows :—

" I consider the increase of expenditure is attributable to the uncommon severity of the winter, and the increased price of provisions during that half year."

3. *Blackburn.*—Increase 2,384*l.* on an expenditure of 6,848*l.*, in 1854, or 34·9 per centum.

The opinion of the clerk of this Union as to the cause of increase is stated as follows :—

" I think this excess has been in a great measure induced by the severity of the weather during the last winter and spring, in conjunction with the high price of provisions. A great many able-bodied labourers were relieved during the long frost, being unable to work at their usual out-of door labour on account of the severe frost. There was also more than an usual average of sickness and mortality during the last quarter of that year."

4. *Bolton.*—Increase 1,528*l.* on an expenditure of 12,677*l.*, in 1854, or 12·0 per centum.

The opinion of the clerk of this Union as to the cause of increase is stated as follows :—

" This increase may be attributed to the severity of the weather, the high price of provisions, and the bad state of hand-loom weaving and iron trade in this Union."

5. *Bury.*—Increase 1,119*l.* on an expenditure of 11,585*l.*, in 1854, or 9·6 per centum.

The opinion of the clerk of this Union as to the cause of increase is stated as follows :—

" In my opinion there are four causes for the increase of the expenditure in relief in this Union in the year 1855 as compared with that of 1854, and I put them in the order of importance in which I think they stand :—

" First. The increased desertion of families by husbands and fathers.

" Second. The increasing want of a sufficient workhouse test.

" Third. The increased price of provisions.

" Fourth. The increased number of fathers imprisoned by the County Court Judge for non-payment of debts. In most cases it would be cheaper for the Guardians to pay the debts."

6. *Chorley.*—Increase 546*l.* on an expenditure of 4,740*l.*, in 1854, or 11·5 per centum.

The opinion of the clerk of this Union as to the cause of increase is stated as follows :—

" With regard to the cause of increased expenditure in the year ended March 1855 as compared with the previous one, it is no doubt the depressed state of most if not all branches of the cotton trade throughout the district. This increase, however, does not appear, on comparison of the two years, to be so great as it otherwise would, owing to the additional expenditure having commenced in the half year ended March 1854, owing to the Preston strike, and having been of course included in the expenditure of the year ended at that date. The difference, in fact, in actual relief, between the *half* years ended March 1854 and March 1855, is trifling ; the original cause of the increased expenses was the strike, but their continuance after that cause had ceased to operate has been owing to the generally depressed state of trade. The actual increase owing to this cause is shown by comparison of the half years ended respectively September 1853 and September 1854."

7. *Chorlton.*—Increase 1,191*l.* on an expenditure of 6,608*l.*, in 1854, or 18·0 per centum.

The opinion of the clerk of this Union as to the cause of increase is stated as follows :—

" I attribute this increase to the high price of provisions and a scarcity of work during a long and severe winter. The class of persons who swelled the list of applicants for relief were chiefly Irish out-door labourers, connected with bricklayers, builders, and road contractors."

8. *Clitheroe.*—Increase 585*l.* on an expenditure of 4,164*l.*, in 1854, or 14·0 per centum.

The opinion of the clerk of this Union as to the cause of increase is stated as follows :—

" Relative to the causes of the increased expenditure in the year 1855 as compared with the year 1854, in this Union, I am of opinion that the following are the principal ; viz.,

" First. The high prices of the common necessaries of life.

" Second. A scarcity of hand-loom weaving.

" Third. The suspension of the Messrs. Thomsons' print works, situate in the township of Clitheroe ; also the the temporary suspension of another print works, situate in the township of Wiswell."

9. *The Fylde.*—Increase 232*l.* on an expenditure of 2,975*l.*, in 1854, or 7·8 per centum.

The opinion of the clerk of this Union as to the cause of increase is stated as follows :—

" In answer to your question relative to the increased expenditure in relief in the year ended Lady-day 1855 over that of the previous year, I think it was caused by the increased price of provisions and the inclemency of the weather during the last winter."

10. *Haslingden.*—Increase 280*l.* on an expenditure of 3,943*l.*, in 1854, or 7·1 per centum.

The opinion of the clerk of this Union as to the cause of increase is stated as follows :—

" I can scarcely say what has been the cause of the increase in the expenditure for the year ended Lady-day last in comparison with that of the previous year, unless it can be attributed in part to a difference in the prices of provisions and to the severe weather which prevailed in the early part of the present year, when out-door labourers were kept idle by the the frost for many weeks successively."

11. *Lancaster.*—Increase 435*l.* on an expenditure of 3,972*l.*, in 1854, or 10·9 per centum.

The opinion of the clerk of this Union as to the cause of increase is stated as follows :—

" The increase in the relief, as compared with 1854, was 434*l.* 12*s.*, nearly 11 per centum. The unusual severity and duration of last winter and the high price of provisions have operated to a considerable extent as causes of increase."

12. *Liverpool.*—Increase 15,022*l.* on an expenditure of 57,468*l.*, in 1854, or 26·2 per centum.

The opinion of the clerk of this Union as to the cause of increase is stated as follows :—

" The large expenditure which the Table exhibits for the year was doubtless owing to the extraordinary dearness of provisions, the cholera and its consequences, and the scarcity of work amongst the labouring classes during the inclement season."

13. *Manchester.*—Increase 15,276*l.* on an expenditure of 35,432*l.*, in 1854, or 43·1 per centum.

The opinion of the clerk of the Township of Manchester as to the cause of increase is stated as follows :—

" The increase during the early part of the year 1855 as compared with the previous year (1854) may, I think, be attributed to depression in trade, but, at the same time, not to any serious extent. The continued high prices of the staple articles of food has doubtless operated during the whole year against the poorer classes ; but by far the most serious cause of increased pauperism was the extreme severity of the winter, which, as you are aware, was without a parallel for many years past. Our weekly out-door cases increased from 3530 in November to 6116 in March, and our weekly expenditure (out-door), taken at the same dates, from 470*l.* to 970*l.*, or after the rate of 25,000*l.* per annum. For a period of six weeks the whole of the out-door labourers of the district were thrown on the books. I think the above facts will be sufficient to account for the increase in our expenditure.

14. *Oldham.*—Increase 1,891*l.* on an expenditure of 5,678*l.*, in 1854, or 33·3 per centum.

The opinion of the clerk of this Union as to the cause of the increase is stated as follows :—

" I attribute the increase in the expenditure of this Union over the year 1854 to the present high price of provisions, to the scarcity of work, and, to some extent, to the enlisting and desertion of husbands, leaving their families chargeable to the Union."

15. *Prescot.*—Increase 726*l.* on an expenditure of 5,215*l.*, in 1854, or 13·9 per centum.

The opinion of the clerk of this Union as to the cause of the increase is stated as follows :—

" With reference to increased expenditure and its cause, I beg to state that in this Union the increase is owing principally, if not entirely, to the prevalence of cholera and fever during the autumn of last year, many widows and children having become permanent charges. The increased price of provisions has, no doubt, led the Guardians to give more liberal relief during the past year."

16. *Preston.*—Increase 1,045*l.* on an expenditure of 13,666*l.*, in 1854, or 7·7 per centum.

The opinion of the clerk of this Union as to the cause of increase is stated as follows :—

"Owing to the increased prices of many articles of food, meal, &c., less labour arising from different causes, the effects of the late strike, many being refused employment in consequence, and the wives and children becoming chargeable of men who have enlisted."

17. *Rochdale.*—Increase 612*l.* on an expenditure of 9,003*l.*, in 1854, or 6·8 per centum.

I have not received a report from the clerk of this Union; and as the increase is so slight I have not again addressed him on the subject.

18. *Todmorden.*—Increase 232*l.* on an expenditure of 3,923*l.*, in 1854, or 5·9 per cent.

The opinion of the clerk of this Union as to the cause of increase is stated as follows :—

"The increase is less than I could have expected, considering the causes which have combined to produce the effect. I attribute this unfavourable position to the increased price of provisions, a scarcity of employment for hand-loom weavers, and the stoppage of two mills for several months, occasioned by the bankruptcy of the occupiers."

19. *Warrington.*—Increase 771*l.* on an expenditure of 4,613*l.*, in 1854, or 16·7 per cent.

The opinion of the clerk of this Union as to the cause of increase is stated as follows :—

"The increase is, in my opinion, to be attributed to the price of provisions, the prevalence of cholera in the workhouse for a considerable period, in consequence whereof the in-door test could not be applied, and the long severe winter."

20. *Barnsley.*—Increase 1,066*l.* on an expenditure of 6,555*l.*, in 1854, or 16·2 per centum.

The opinion of the clerk of this Union as to the cause of increase is stated as follows :—

"The increased relief has been caused by the depressed state of the linen trade for the last 18 months. The coal trade has also been bad; but this has added little if anything to the amount of relief, as, although the pits have been working short time, the men receive much better wages than weavers, and have not been under the necessity of throwing themselves on the Union, notwithstanding the diminution of their earnings.

"The depression in the linen trade has been caused by a combination of circumstances :—The war, and the contraction of operations by buyers consequent upon a state of war; over-trading; the transition state of the linen trade from hand-loom to power; and the fact of many descriptions of goods heretofore made in Barnsley being now made in Lancashire by power, and also in Scotland and Ireland by hand, owing to labour being cheaper there."

21. *North Bierley.*—Increase 1,815*l.* on an expenditure of 6,951*l.*, in 1854, or 26·1 per centum.

The opinion of the clerk of this Union as to the cause of increase is stated as follows :—

"I attribute the cause of the increase of the expenditure in relief in this Union in the year 1855 as compared with that of 1854 in a great measure to the depression of trade, which you are aware this neighbourhood has felt very much. A number of worsted mills in this Union had some time ago ceased working altogether, and those thrown out of employment could not for a length of time obtain work any where in the neighbourhood; this, and the high price of provisions, compelled them to apply for relief. In one word, I should say the cause of the increase in relief in this Union has been :—

"1st. The want of employment; and

"2d. The high price of provisions."

22. *Bradford.*—Increase 8,663*l.* on an expenditure of 10,471*l.*, in 1854, or 82·7 per centum.

The opinion of the clerk of this Union as to the cause of increase is stated as follows :—

"I beg to state some of the causes which, in my opinion, have led to the increased expenditure in relief during the year 1855 as compared with that of

1854. You will be aware that a great portion of the poorer classes in this Union consist of woolcombers and worsted factory operatives; and the great depression there has been during the year in the worsted trade caused a great number of these persons to be thrown on the poor rates. The cause of the depression of the worsted trade, which I am happy to say has now blown over, appears to me to be overstocking of the foreign markets, and that the war has had none or very little effect upon it. The severe winter we experienced likewise caused a very great number of masons, bricklayers, and other out-door labourers to become chargeable. With a view to test the destitution of the applicants for relief, and likewise to comply with the Orders of the Poor Law Board, the Guardians of this Union, soon after the depression began to show itself, organized an out-door labour test, which, I am happy to say, worked well. The greatest number we at any time had on the test was in February last, 477, which has been gradually reducing to the present time, there being now only 18."

23. *Ecclesall Bierlow.*—Increase 249*l.* on an expenditure of 4,105*l.*, in 1854, or 6·0 per centum.

The opinion of the clerk of this Union as to the cause of increase is stated as follows:—

"The chief cause of the increase of the expenditure in this Union arises from the great falling off in the demand from the American market, this district being principally dependent upon the United States, and when any stoppage of that demand occurs great numbers of mechanics are then immediately thrown out of employment, and who have no other means of support but the parish fund to flee to. The demand also for the Russian market being now suspended has some influence, but no great deal. The high price of provisions through the winter has also been another cause of increase. The above are the principal reasons that have caused and are now causing the increase of the expenditure in this Union. Some expectations are confidently held out that a better demand for Sheffield goods will soon take place, which will remove the great bulk of the able-bodied out of the parish books."

24. *Huddersfield.*—Increase 2,422*l.* on an expenditure of 12,160*l.*, in 1854, or 19·9 per centum.

The opinion of the clerk of this Union as to the cause of increase is stated as follows:—

"The principal and almost exclusive cause is the depression of trade, extreme severity of the winter, and dearness of provisions. The number of inmates in the workhouses was considerably greater during the last year, and the contract price of provisions considerably higher, oatmeal and flour being respectively 6*s.* and 4*s.* 6*d.* per pack higher than in the previous year. Out-door relief forms the most material item of increase; but I may call attention to the Lunatic Asylum account, which was for the last year upwards of 230*l.* more than in the previous year. This has arisen from a great increase in the number of lunatics as well as the cost of their maintenance."

25. *Keighley.*—Increase 5,276*l.*, on an expenditure of 6,981*l.*, in 1854, or 75·5 per cent.

The opinion of the clerk of this Union as to the cause of increase is stated as follows:—

"The great increase of relief of the past year over former years arises, I believe, from the great number of worsted mills standing, and others only partially running during the last autumn and winter, and the very severe frost during the winter, when the people were out of work."

26. *Leeds.*—Increase 4,025*l.*, on an expenditure of 15,180*l.*, in 1854, or 26·5 per cent.

The opinion of the clerk of this Union as to the cause of increase is stated as follows:—

"The increase in the charge for in-maintenance may properly be attributed to the increased cost of provisions, as the number of inmates (upon a comparison of the numbers relieved in the two halves of 1854 and 1855) show an increase of only eight in-door paupers in the latter over the former year.

"But in the Michaelmas half of last year there was an increase of 905 in the persons who received out-door relief, as compared with the previous year;

and in the half year ended at Lady-day last an increase of 1,609 over the same period of the preceding year. The increase of pauperism in the spring and summer quarters may be attributed to the falling off in the flax trade, and the machinery and tool-making businesses, occasioned by the war; and the further increase in the autumn and winter quarters to the continuance of those causes, and to the protracted frosty weather."

27. *Pateley Bridge.*—Increase 410*l.* on an expenditure of 1,474*l.*, in 1854, or 27·8 per centum.

The opinion of the clerk to this Union as to the cause of increase is stated as follows: —

"In *February last** the Union was enlarged by the addition of the three townships of Birstwith, Bishop Thornton, and Clint, containing together a population of about 1,500, thus increasing the expenditure for out-door relief; and in consequence of the high price of flour and other provisions during the last winter, the Guardians were induced to increase generally the amount of out-door relief given to almost all paupers; something also should be allowed for the late depressed state of the trade of Bradford, Leeds, and other places, which caused an increase in the amount of our non-resident relief."

* *Note.*—This is evidently a mistake. The order of the Poor Law Board, dated 24th January 1854, declares that these three townships shall, on the 20th day of February 1854, be added to the Pateley Bridge Union.
H.B.F.

28. *Penistone.*—Increase 509*l.* on an expenditure of 1,916*l.*, in 1854, or 26·5 per centum.

The opinion of the clerk to this Union as to the cause of increase is stated as follows: —

"The only reason that I can assign for the increase in the expenditure of this Union arises from the dearness of provisions and the want of employment for the labouring poor."

29. *Rotherham.*—Increase 632*l.* on an expenditure of 6,813*l.*, in 1854, or 9·3 per centum.

The opinion of the clerk to this Union as to the cause of increase is stated as follows: —

"It no doubt arises partly in consequence of provisions being rather dearer and work not so plentiful."

30. *Sheffield.*—Increase 4,444*l.* on an expenditure of 16,123*l.*, in 1854, or 27·6 per centum.

The opinion of the clerk to this Union as to the cause of increase is stated as follows: —

"The increase referred to is mainly owing to the depressed state of trade during the last twelve months, in consequence of which large masses of people have been and are now thrown out of employment. I believe I am right when I say that at no period within the last ten or twelve years has trade fallen off anything like what it has done during the past twelve months. A slight increase has also been occasioned by the enlistment of men with *large families*, by which such families have been immediately thrown upon the poor rates for support. The latter, however, bears but a small proportion to the increase occasioned by the first-mentioned cause. The want of extended workhouse accommodation has also, I have no doubt, been the means of placing many on the relief lists whose names would not have appeared there, if the Guardians had been in a position to apply properly the workhouse test. The chief cause of increase, however, is that first stated, viz., the general depression of trade in the town of Sheffield."

31. *Skipton.*—Increase 1,245*l.* on an expenditure of 5,799*l.*, in 1854, or 21·4 per centum.

The opinion of the clerk of this Union as to the cause of increase is stated as follows: —

"The increase of expenditure compared with the last year has been mainly in the manufacturing part of the population; but the winter was long and severe, and provisions dear, so that all the labouring population was affected by these causes. Before there was any great depression of trade in the Bradford market, Messrs. Cravens of Keighley, very large manufacturers,

employing a great number of hand-loom weavers, dissolved partnership, and stopped their works in order to wind up their partnership. Their hands were given to understand that the partners were about to carry on business separately, and would shortly require the services of their weavers, so that they did not look out for fresh engagements. This suspense continued till bad markets came, and then was prolonged for a considerable time. Then with the continued bad markets almost every mill in the Union ran for half time only. Several stopped, and are up to this time closed. Many of the mill-owners became bankrupt. The worst thing was the half employment,—the half time,—for it tied the hands to the place, expecting full employment. Now where the mills are shut up the hands have removed to other mills out of the district. I may remark, we have a many mills in wealthy hands; but the owners, during the depression of the markets, most of them closed their works for the avowed purpose of making repairs, &c."

Of the foregoing thirty-one Unions it seems to me that the increase of expenditure in twelve of them, viz., in Ashton-under-Lyne, Bolton, Bury, Chorley, the Fylde, Haslingden, Lancaster, Preston, Rochdale, Todmorden, Ecclesall Bierlow, and Rotherham, is sufficiently explained, and therefore require no closer investigation; but I think it right to offer you some further observation on the increased expenditure in twelve of the Unions in the above list, viz., on that of the townships of Liverpool and Manchester; on that of the Unions of Bradford, North Bierley, and Keighley; on that of Blackburn, Clitheroe, Huddersfield, Leeds, Penistone, and Sheffield; and on that of the Union of Pateley Bridge.

The average weekly pauperism of the parish of Liverpool may be safely estimated at 14,000 persons, but the winter of the year ended Lady-day 1855 was of such severity and prolonged continuance that an extraordinary number of poor persons were compelled for a short time to have recourse to the parish for relief. The extra number of poor persons who were thus forced on the poor rates of Liverpool, amounted to 18,765 paupers, making a total of 32,765 per week for a limited period. This extra pauperism was made up as follows :—

English - - -	2,953
Irish - - -	15,290
Scotch - - -	260
Welsh - - -	224
Aliens - - -	36
	18,765

The books of the township of Manchester show that there were 3,797 families in receipt of parochial relief on the 3d of March 1854; and the same books shew that there were 6,116 families in the receipt of relief on the 4th of March 1855.

This pressure on the poor rates is mainly attributable to the hard and harassing winter of 1855, which exhausted the spirits and the means of many poor people who had been self-supporting prior to that period.

The Unions of Bradford, Keighley, and North Bierley form a district which is the great seat of the worsted manufacture in

England, and the worsted manufacture was much more depressed in 1855 than any other trade. Mr. Alexander Redgrave, factory inspector, in his report dated 20th of December 1854, writes — "Bradford is the centre of the worsted factories, and during the "last six months the number of establishments which were fully "employed has gradually diminished, and there are now few "running full time; the return of new and occupied factories "corroborates the different conditions of the cotton, woollen, flax, "and worsted manufactures in my district. In the two former "the number of new factories greatly exceeds the number of "those closed, while of the worsted factories the number closed "is nearly double of the new and enlarged factories."

During this depression of the worsted manufactures, the steam machine supplanted the hand in wool-combing, and necessarily threw a very great number of persons out of work. The census returns show that in Bradford and its environs, in 1821, the manufacturing population was 70,847, and that in 1851 it was 181,964; while it is supposed that in 1854–55 the production of goods in Bradford was reduced to fully one third of the usual rate. The clerk of the Bradford Union, whose opinion I have already quoted, has assigned the real cause, viz., over trading, for the depression in the branch of manufacture to which I have alluded.

The depression was temporary; but while it lasted it produced great and painful suffering amongst the people; but they bore their difficulties with exemplary patience, while at the same time the Guardians of the poor were enabled to pursue a wholesome system of relief, which was sufficient for the poor and satisfactory to the rate-payers.

I cannot, I think, more clearly exemplify the positions, in the year ended Lady-day 1855, of the Unions of Blackburn, Clitheroe, Huddersfield, Leeds, Penistone, and Sheffield, than by submitting the following Table to your inspection.

Name of Union.	Total Number of Paupers relieved (in-door and out-door) on the 4th of March 1855.	Total Workhouse Accommo-dation in each Union on the 4th of March 1855.	Total Number of able-bodied Persons receiving out-door Relief on the 4th of March 1855.		Number of Children receiving out-door Relief on the 4th of March 1855.	Total.
			Adult Males.	Adult Females.		
Blackburn -	3,490	439	178	451	1,573	2,202
Clitheroe -	1,571	180	147	151	712	1,010
Huddersfield	4,352	269	216	628	1,922	2,766
Leeds - -	5,075	624	354	974	2,078	3,406
Penistone -	584	..	34	108	232	374
Sheffield -	5,372	1,000	330	806	2,177	3,313
Totals -	20,444	2,512	1,259	3,118	8,694	13,071

Thus these six Unions, with a population in 1851 of 432,729, had to meet 20,444 paupers, with workhouse accommodation for 2,512 of them.

It will be seen that 4,377 able-bodied adults, together with 8,694 children, received out-door relief; and I am enabled to assure you that in the week ended the 4th of March 1855 only 231 able-bodied adults were relieved in-doors in these workhouses.

With the exception of the Agricultural Union of Penistone, which has no workhouse, the large and wealthy communities of the Unions just named are engaged in commerce and manufactures; but in the year ended Lady-day 1855 their usual prosperity was not at its height; the price of bread was high, and the winter, as I have already observed, most severe. Such changes as these are of frequent occurrence, and in this great manufacturing district they invariably throw many able-bodied persons out of employment; yet the Guardians of these Unions have from year to year systematically refused to provide against such contingencies by the erection of adequate workhouses, and the consequence was that in 1855 they met an excess of able-bodied pauperism with almost unconditional relief.

It is quite unnecessary for me to dwell upon the efficiency of the workhouse test, rightly employed; but I must say that in my opinion the Guardians of the Unions last named so treated their able-bodied paupers in the year ended Lady-day 1855 as to encourage the working classes to look to the poor rates in any future emergencies, rather than to provide against them by frugality and forethought.

The marked deficiencies of many of the workhouses of Lancashire and the West Riding, and the hostility with which many of the Unions in those counties received the order of the Poor Law Board dated the 14th of December 1852, induces me to bring under your notice certain circumstances which have lately occurred in the Salford Union.

It was only within the last two years that the Guardians of this Union supplied themselves with a new and adequate workhouse for their important Union, and in 1852 they came under the operation of the order to which I have alluded.

The Union of Salford comprises a suburb of Manchester. In the year 1851 its population was 87,514; its area in acres is 5,308; its net rateable value in 1852 was 277,414*l.*

The Guardians of this Union were most inadequately supplied with workhouse accommodation up to the commencement of the past year, the maximum accommodation of their old and ill-contrived workhouse being for 350 inmates.

The Guardians of this Union received the order of the Poor Law Board, dated the 14th of December 1852, with the utmost reluctance, and heartily entered into a coalition of Unions, with a view to obtain its total withdrawal.

I had the satisfaction of hearing the clerk of this Union declare a short time since, that the Guardians were altogether converts as regarded the order of the Poor Law Board, and were highly satisfied with the result obtained and to be obtained by their new well-arranged workhouse. I therefore wrote to the clerk upon these subjects, and I have now the pleasure of subjoining his reply to me.

"Dear Sir, *Union Offices, Salford, 26th October* 1855.

"I am directed by the Guardians of this Union to acknowledge the receipt of your letter of the 18th instant, requesting to be informed of the manner in which the new workhouse has operated as a test, and also as to the operation of the Prohibitory Order of December 1852.

"In reply thereto the Guardians desire me to offer to you the following observations, premising that, as we are now only just beginning our out-door labour tests, the whole of the returns, both for in-door and out-door, have been made up for the half year ended 29th September last.

"First, as regards the house.

"At the commencement of the half year we had in the house 144 males (of whom 14 were able-bodied), 213 females (of whom 7 were able bodied), and 228 children; total 585. We admitted during the half year 525, and discharged 572*, thus leaving 538 inmates in the house at the end of the half year, of whom 8 men and 2 women were able-bodied. Now, of this number (538) 69 were bedridden, 6 blind, 19 afflicted with paralysis, 23 idiots, and 5 confirmed epileptics without friends, and thus we have 122 persons who must be classed as permanent inmates, leaving 416 (203 of whom are children) as the number of inmates, amongst whom these 525 admissions and 572 discharges must have occurred; but taking into account the adults only, we have 277 admissions and 327 discharges amongst 213 inmates.

"Now I need offer no remarks to you upon the operation of the house as a test with these figures before you; the large number of admissions and discharges proclaims how satisfactory is the result.

"We now come to the orders actually given as compared with the numbers admitted. During the half year orders were given by the board or the relieving officers for the admission of 938 individuals; viz., 146 males, 343 females, and 449 children; and of this number only 488 availed themselves of the orders, viz., 106 men, 153 women, and 229 children (the remaining 37 having been admitted by the master or the overseers), thus leaving 450, or nearly 50 per cent., who would not accept relief in the house. Of these, of course a small number would afterwards be relieved by the relieving officers on account of destitution, although they would not come into the house; fix this at 50 (which I believe to be much above the actual number), and we have thus 400 people kept off our books by a workhouse test during the past half year, for had our house been full, and we been unable to issue these orders in consequence, the presumption is (and it is by no means an unfair hypothesis) that all these 400 people must have had out-door relief to a greater or less extent.

"Now, as regards Out-door.

"In August 1852 the Poor Law Board issued a Prohibitory Order, many of the provisions of which were deemed so strict that the Guardians of several Unions in this District, amongst which was our own, met for the purpose of agitating the question, and, if possible, procuring its abolition, or at least a modification, by the Poor Law Board, of some of its most stringent provisions. The Poor Law Board were induced to reconsider the Order, and in December of the same year issued a modified Order, and accompanying instructional Letter, when its provisions were at once put in force here, with the exception of the Labour Test, which the Poor Law Board allowed the Guardians to

---

* 66 of these are deaths.

defer until possession should be taken of the new workhonse, which was shortly expected to be ready.

"In November 1853 the new house was occupied, and in the Spring of 1854 the out-door poor were set to work draining and levelling 3 to 4 acres of vacant land adjoining, under such supervision as one of the sub-officers of the house could afford, when not engaged in his regular in-door duties. This arrangement did not exhibit a satisfactory result, although better than allowing the able-bodied to receive money without work; and the Guardians then appointed an inmate of the house as superintendent of labour, at 12*s.* per week; still the result was unsatisfactory, as, having so lately been amongst them, he had no command whatever over them. During the severe weather of last winter the Guardians applied to the Poor Law Board, requesting them to suspend Art. 6. of the Prohibitory Order; but this the Board declined to do, and the Guardians proceeded to give the usual Order for work in each case. Fortunately the temporary pressure only lasted a few weeks; but meantime the Guardians had found less difficulty than they anticipated in carrying out the provisions of the Order. The Guardians then proceeded to consolidate the out-door and in-door labour departments, and place them under the direction of one superintendent, who is now holding the office, and under whom the three tests of land tillage, oakum picking, and corn grinding are carried on, the latter being by far the best test. During the past half year 128 individuals have received orders for work; 37 of these never worked at all or only part of the first week; 29 worked one week, but not two weeks, although all the cases had longer orders; whilst few worked the whole time of the orders. The consequence is, that upwards of 42*l.* of the orders of the Guardians was never paid which would have been paid had we had no work to offer, whilst the portion of the superintendent's salary chargeable to the out-door department was only 16*l.* 18*s.*, thus leaving a clear saving of 26*l.* towards the rent for half a year of three acres of land, independently of the crops.

"With this result, combined with their experience as to the other clauses of the Order, the Guardians have no fear of experiencing any difficulty in carrying out the Order in future, under all ordinary circumstances; and are convinced that it is based upon sound and politic principles, calculated, if fully worked out, to prevent imposture, and protect the interests of ratepayers.

"I am, dear Sir.

"*To* "Your obedient servant,

"*H. B. Farnall, Esq.* "John Adamson."

With regard to the Union of Pateley Bridge, it should be remembered that three important townships were lately added, and further, that its workhouse is a most inadequate and ill-contrived building, capable of accommodating only 32 inmates.

I have already stated that the present pauperism of my district is 108,319; and in examining the foregoing tables you will no doubt observe that the parish of Liverpool, the township of Manchester, and the Unions of Bradford and Keighley were most depressed during the year ended Lady-day 1855, as compared with 1854; and I therefore think it my duty to inform you, that although there were, for the year ended Lady-day 1855, 15,005 paupers on the Liverpool books, there are now 13,006, being a decrease of 1999; and that although there were, for the year ended Lady-day 1855, 11,266 paupers on the Manchester books, there are now 9,354, being a decrease of 1912; and that although there were, for the year ended Lady-day 1855, 4538 paupers on the Bradford books, there are now 3,301, being a decrease of 1237; and finally, that although there were, for the year ended Lady-day 1855, 3481 paupers on the Keighley books, there are

now only 1936, being a decrease of 1545 ; so that these four Unions alone show at present a decrease of 6,694 paupers.

It will be remarked that an increase in the price of provisions for the year ended Lady-day 1855, as compared with 1854, is in almost all cases assigned as a reason for excess of expenditure in the former year ; and under these circumstances I consider it expedient to annex tables marked respectively "C." and "D.," which will show you the average prices of provisions consumed in the workhouse of a Lancashire Union and in the workhouse of a West Riding Union in the years ended Lady-day 1854 and 1855.

In conclusion, I have to draw your attention to the Parliamentary Return which accompanied your instructions to me to draw up this report. That return shows the amount of money expended for in-maintenance and out-relief in 623 Unions and single parishes in England and Wales during the half years ended at Lady-day 1854 and 1855 respectively ; whereas the report which I have now the honour of submitting to your consideration shows, so far as my district is concerned, a similar expenditure for the whole years ended at Lady-day 1854 and 1855 ; and I think it necessary to mention this in order to account for the difference in the amount of increase in expenditure per centum in this report and the Parliamentary Return to which I have alluded.

In that part of Cheshire which is within my district the amount of increase of expenditure for the above periods is 17·3 per centum, while the amount of increase for that county is stated in the Parliamentary Return to be 14·9 per centum.

In that part of Lancashire which is within my district the increase is 17·3 per centum, while the amount of increase for the county is stated in the Parliamentary Return to be 15·7 per centum ; and lastly, the increase in that part of the West Riding of Yorkshire which is within my district is 22·8 per centum, while the amount of increase for the county is stated in the Parliamentary Return to be 22·1 per centum.

I have, &c.,

(Signed) HARRY BURRARD FARNALL,
Poor Law Inspector.

No. 20.

INCREASE IN THE COST OF RELIEF.—EXTRACT from the Reply (dated 22d September 1855) of E. N. HURST, Esq., Poor Law Inspector, to Letter No. 9, Page 31.

It will be observed, that as regards the counties of Northumberland and Durham the increase does not amount to 5 per cent., and only to a slight extent do Cumberland and Westmorland exceed that amount; in the former of 10·2 per cent., and in the latter of 7 per cent.

In Cumberland I find it is attributed to the depressed state of trade amongst the hand-loom weavers, the high price of provisions, the chargeability of the wives and families of militiamen absent from their homes on duty, and the want of employment during the severity of the winter.

In Westmorland I believe it will be found chiefly to have arisen in the Kendal Union, from the failure of Messrs. Waithman and Co., Flax Spinners.

In the five Unions in the North Riding of York under my superintendence, and in that of Ulverstone in the county of Lancaster, the increased expenditure I am informed is immaterial, and attributable to the high price of provisions; whilst in the Union of Sedbergh, in the West Riding of York, by the financial statement, the items of in-maintenance and out-door relief are collectively less than at the previous corresponding period.

No. 21.

REPORT of SIR JOHN WALSHAM, Bart., Poor Law Inspector, to the POOR LAW BOARD, on Workhouse Accommodation and Educational Arrangements in his District, which comprises the Unions in the Counties, Cambridge (Part of), Essex, Kent (Part of), Norfolk, and Suffolk.

Bury St. Edmund's,
7th January 1856.

MY LORD,

I HAVE the honour to acknowledge the receipt of your Lordship's letter of the 19th December, requesting that I will communicate to the Board such matters, if any, connected with my district, as may appear to me to require to be noticed in their Annual Report.

Upon a review of the circumstances under which the administration of relief has been conducted throughout the past year in the 75 Unions and Incorporations constituting my district, I do not find that there are any matters which can be strictly said to require to be noticed in the Report for 1855; but it may perhaps be desirable that I should remind the Board of the following points:—

1. Workhouse accommodation.

The Guardians of the city of Norwich and of the King's Lynn and Risbridge Unions have resolved to build new workhouses, their old workhouses being altogether inadequate. In Lynn the

new workhouse is actually in progress; in the Risbridge Union and in Norwich sites have been selected; and for the former Union plans have been sanctioned.

The Guardians of the Gravesend and Milton and Lexden and Winstree Unions have very considerably enlarged the hospitals attached to their workhouses; in the Gravesend Union indeed a completely new hospital, admirably arranged, has been built, and the old infirmary thus rendered available for general purposes.

Considerable and much needed additions have been made during the autumn to the Romford Workhouse; plans for extensive additions to the West Ham Workhouse have likewise received the Board's sanction; and the Guardians of the Tendring and North Aylesford Unions have lately given directions for the preparation of plans, also on an extensive scale, for the enlargement of their workhouse.

The drainage of the Epping Workhouse, in which (as likewise in the Romford Workhouse) the cholera proved very fatal in 1854, has been now thoroughly reformed, and the detached hospital greatly improved; a large addition to the Freebridge Lynn Workhouse has been completed; so also has the new girls' ward in the Ely Workhouse; and the Faversham Workhouse has been converted from a very ill-arranged into a most convenient edifice, on a plan after which it is much to be desired that all the unimproved Kent Workhouses of 1834–35 might be altered.

From the above statement it will therefore be seen that during the last twelvemonths much has been satisfactorily done for the enlargement and improvement of the workhouse accommodation in my district.

2. Educational arrangements.

Nothing has, however, been effected towards the establishment of district schools among the Unions under my superintendence; and I consider that all attempts to induce the Guardians of those Unions to promote the formation of school districts will, as heretofore, be perfectly useless, so long as that formation depends exclusively on their consent, and so long as powers analogous to those vested in the Poor Law Commissioners by the 4 & 5 W. 4. c. 76. s. 26., for the organization of Unions, are not available for the organization of school districts. I sincerely wish that such powers could be obtained from the legislature, for until the bulk of the children now brought up in workhouse schools can be educated in separate establishments, and removed altogether from the debilitating influences of workhouse associations, the reports of "the stagnant dulness of workhouse education," which annually proceed from Her Majesty's Inspectors of Schools, must continue to be more and more discouraging.

A good deal has been nevertheless attempted in the way of industrial training, by hiring or purchasing land, upon which, in the great majority of my Unions, the boys are employed; as well as by establishing wash-houses and laundries for the girls, by teaching them to cook, and (in the five Unions named in the margin) by keeping cows.

Saffron Walden, Bosmere and Claydon, Cosford, Plomesgate, Wangford.

There are but few Unions, in fact, and those chiefly in Kent (where the children can be got early out to service), in which boys are not, or may not be, employed in spade husbandry; but it is far more difficult to induce Guardians to keep cows, although nothing can have been more satisfactory than the result of training the girls to dairy work in the few instances in which the experiment has been tried. I should, however, observe, that even the possession of land in connexion with the workhouse will not positively ensure that the boys are regularly set to work upon it. Schoolmasters, more especially good schoolmasters, rarely remain long in the same workhouse school, and few of them know much or care much about the cultivation of land; the duty of superintendence consequently devolves chiefly upon the masters of workhouses, and is by them often delegated to the porters, or to elderly inmates. The boys, moreover, have to be taught the use of the spade, &c. This gives trouble to the superintendent; and as the processes of cultivation can be carried on more rapidly, and a balance sheet more easily "made pleasant" to the Guardians by the employment of adult labour (which all workhouses can supply), it requires, on the part of the visiting Guardians, a degree of vigilance and interest in the subject which I am afraid very few exercise, to prevent the cultivation of the five or six acres of land (originally hired or bought for the *exclusive* purpose of industrial training) from being carried on, if not chiefly, at all events too frequently and too largely, by means of the able-bodied men, or of the old men capable of doing some work. I know of no remedy but the establishment of district schools for this fatal (and I apprehend increasing) obstacle to the successful development of that industrial training of the boys in the workhouse schools of rural districts which we had hoped to have found in the adoption of what formerly was best known among Unions by the name of "the Quatt system."

3. In-door and out-door relief.

The average *weekly* cost of in-door and out-door relief, *per cent. of population*, in the subjoined groups of Unions and Incorporations, for the years ended Lady-day 1852, 1853, 1854, 1855, was as follows:—

——	1852.		1853.		1854.		1855.	
	s.	*d.*	*s.*	*d.*	*s.*	*d.*	*s.*	*d.*
Cambridgeshire (5 Unions) -	12	10	13	6	13	10	15	4
Essex (17 Unions) - - -	11	4	11	6	12	8	13	7
Kent (14 Unions) - - -	7	2	7	4	7	11	8	3
Norfolk (22 Unions) - -	11	8	12	3	12	8	14	8
Suffolk (17 Unions) - - -	11	7	11	8	11	10	13	1
Average of the 75 Unions -	10	10	11	2	11	9	13	0

This table shows, as might have been anticipated, a progressive increase of the money value of the relief administered, which in the aggregate amounts to a large sum. In the last week of the Christmas quarter it amounted, in fact, to 630*l.*; and of course represented, *pro rata*, an annual increase of 32,760*l.* in the *cost* of relief for my district alone. But it is the *cost* of relief only, and not pauperism, which has increased; for I have ascertained, on comparing the week in question with the corresponding week of 1854, that the collective number of in-door paupers had decreased 925, and of out-door paupers 1,962.

I cannot, however, add that I am satisfied with my annual examination of the general results of the administration of relief in my district. With scarcely an exception, the tendency everywhere is to substitute out-door for in-door relief, whenever the Guardians may legally do so. The *exceptions* to the Prohibitory Order, as I have often been compelled to remark, are almost invariably treated as *rules*. Out-door relief *may* be given; *ergo*, out-door relief *should* be given. The Guardians of the parish interested in any particular case, the case, for example, of an able-bodied man in full work with a large family of children, and perhaps a sick infant among them, presses for out-relief in aid of insufficient wages. The chairman, supported possibly by one or two Guardians, who still remember the state of things previous to 1834, may demur; but the majority of the Guardians are pretty certain to look at such a case from a rate-paying and wage-paying point of view; and out-relief, which *apparently* costs so much less money than in-door relief, is granted as a matter of course, according to the supposed measure (not of the sick child's, but) of the whole family's wants.

By way of further illustration of this point, I will take the average weekly cost of in-door and out-door relief for the year ended Lady-day 1855 in three West Norfolk Unions, (I select West Norfolk Unions because it is agriculturally a prosperous district), and I find that the in-door relief of No. 1. Union averaged 15*l.* per week during the year in question, and the out-door relief 138*l.*; of No. 2. Union, 7*l.* and 95*l.*; and of No. 3. Union, 9*l.* and 91*l.*

But if I take three Kent Unions (and I ought to have mentioned that the disproportionately large expenditure of out-door as compared with in-door relief is not observable in Kent to anything like the same extent as in the Eastern Counties), I shall find that in these three Unions, with a population as large, within a few hundreds, as that of the three Norfolk Unions, the in-door relief of No. 1. Union averaged for the same year 21*l.*, and the out-door relief 47*l.*; of No. 2. Union, 27*l.* and 40*l.*; and of No. 3 Union, 32*l.* and 52*l.* In other words, the three West Norfolk Unions expended, on an average, the enormous amount of 324*l.* per week in out-relief, and only 31*l.* in in-door relief, whilst the three Kent Unions expended 80*l.* in in-door relief, and only 139*l.* in out-relief, during the last parochial year.

It is not very surprising, therefore, that whilst the cost per 100 of the population in the Kent Unions of my district appears to have averaged for the year 1854–55 only 8*s.* 3*d.*, that of Norfolk averaged 14*s.* 8*d.* per week.

I have, &c.,
(Signed) JOHN WALSHAM.

No. 22.

REPORT of H. B. FARNALL, ESQ., Poor Law Inspector, to the POOR LAW BOARD, on the Pauperism and the Expenditure for Relief in his District, which comprises the Unions in the County of Lancaster and the West Riding of Yorkshire.

Kettlethorpe Hall, Wakefield,
MY LORDS AND GENTLEMEN, *12th January* 1856.

IN accordance with the instructions contained in your letter of the 19th ultimo, I have now the honour of making a Report to you on matters connected with my District; and in doing so I beg also to refer you to my Report to your Board on similar matters, dated the 2d of November last, to which this present Report is calculated to form a supplement.

Annexed is a return so tabulated as to convey to you a comparative view of the pauperism (exclusive of lunatics in asylums and vagrants) in each of the forty-six Unions of my District in the twelfth weeks of the December quarters in the years 1854 and 1855, together with the per-centage of the pauperism of each Union for the twelfth week of the December quarter 1855 upon its present population.

The population of this district is now 3,293,252; a number which is obtained by adding 1·2 per centum per annum to the population of 1851; but in using this per-centage I adopt that which rules similar calculations by the Poor Law Board for England and Wales, which, however, does not fully represent the usual rate of increase in this manufacturing district, which amounted to at least 1·9 per centum per annum between the years 1841 and 1851.

I have the satisfaction of informing you that the total pauperism of this district for the twelfth week of the December quarter 1855 amounted to 123,389 persons, being only 3·8 per centum on the population, while the per-centage of pauperism on population for the Unions of England and Wales (presuming the population of those Unions to be 17,100,151. (*See* Note appended to this Report), and their pauperism to be 840,720,) closely approximates to 4·9 per centum. (*See* Seventh Annual Report of the Poor Law Board, page 118.)

The 123,389 paupers spoken of are of the following classes; viz.,—

Old and infirm	44,440
Able-bodied adults	23,441
Children	55,508
Total	123,389

Your Board will no doubt observe, on examining the annexed Table, that the total amount of pauperism for the twelfth week of the December quarter 1854 was 118,334, being only 3·6 per centum on the population; thus it will be seen that there is now an increase of 5,055 paupers as compared with the same week in 1854. This difference is to a great extent accounted for in the following manner;—

In the Township of Manchester there is an increase of - - - - -	2,223
In the Union of Bolton there is an increase of	598
In the Union of Sheffield there is an increase of	1,258
	4,079

The increase in Manchester is to be accounted for chiefly by a disagreement which has unfortunately for some weeks existed between the masters and a certain class of workmen, and also from the insufficient workhouse accommodation of the Township.

The increase in Bolton is to be accounted for by the stoppage of a large mill at Belmont Sharples in the Union, and from a great insufficiency of workhouse accommodation.

And the increase at Sheffield is to be attributed to the staple trade of Sheffield being to some extent depressed, and by the very inadequate workhouse accommodation which the Union possesses.

It has already been stated that the pauperism for the whole of this district is at present 3·8 per cent. on its population; but I beg to draw your attention to the fact, that while the per-centage of pauperism on the population of the purely commercial Unions is 3·7 per centum, that of the agricultural Unions is 4·4 per centum on the population.

Your Board will observe that in the agricultural Union of Skipton the per-centage of pauperism on population is 7·4, and that the per-centage of pauperism in the agricultural Union of Settle is 5·5; while, on the other hand, in the agricultural Union of Ormskirk the per-centage of pauperism is only 1·8 per cent.; but it is to be remembered that in the Ormskirk Union the Prohibitory Order has been for some years in force.

In addition to the pauperism of which I have spoken, I have also to inform you that there are now 1,868 pauper lunatics of this district in asylums, excluding from the calculation those belonging to the Unions of Barton-upon-Irwell, Bolton, Oldham, Preston, and Salford, from which Unions I have at present no returns of this class of paupers.

I have further to inform you, that during the twelfth week of the December quarter 1855 1,904 tramps and wayfarers were relieved in the several Unions of this District; but as each tramp or wayfarer is rarely relieved for more than one day in a Union in any given week, it will be right to conclude that not more than about 300 tramps were really relieved during the week quoted.

With regard to that important subject, the education of pauper children, I have to state that there are at present 7,096 children in the seventy workhouses of this District, including infants

under two years of age, and that 4,425 of these are receiving daily education; and it is a great satisfaction to me to be able to say that the importance of combining mental and industrial training is now fully appreciated by a very large majority of the Guardians of this District. On the other hand, there are 48,412 children receiving out-door relief in this District, of whom about 30,000 should be receiving education; but if your Board will be so good as to refer to my Report to you dated the 8th of December 1855 you will see that no effect had then been given by Boards of Guardians in my District to the provisions of the 18th & 19th Vict. c. 34. I have, however, the pleasure of adding, that in consequence of communications which I have lately had with the clerks of all the Unions and with several Boards of Guardians in my District, the Act named has been now brought under the consideration of the Guardians, and I have every reason to hope that during the ensuing year the Guardians will in many instances adopt its valuable provisions.

I beg further to inform your Board, that during the last year the Guardians of the Chorlton Union have taken possession of their well-constructed and efficient new Workhouse; and that the Guardians of Bury are about to open their new Workhouse, which is also in every respect complete; the Guardians of the Unions of Halifax, Salford, Oldham, and Saddleworth are making valuable additions to their Workhouses; and that the Guardians of the Township of Manchester, and the Unions of Sheffield, Blackburn, Wigan, and North Bierley, are about to build new Workhouses.

It is greatly to be regretted that the Guardians of the twelve important Unions of Huddersfield, Bolton, Leeds, Rochdale, Burnley, Haslingden, Chorley, Todmorden, Clitheroe, Penistone, Garstang, and Pateley Bridge still refuse to take any effective steps to supply themselves with adequate workhouse accommodation.

I have, &c.,
HARRY BURRARD FARNALL,
Poor Law Inspector.

To
The Poor Law Board.

Note.—The population of the 620 Unions and Parishes under Boards of Guardians in England and Wales, according to the Census of 1851, was 16,285,861, so that by adding 1·2 per centum per annum (or 5 per cent. for the whole time) to it the present population will be 17,100,151; the pauperism of these 620 Unions and Parishes on the 1st of January 1855 being 840,720, the per-centage of pauperism on population will be 4·9. (*See* page 118, Appendix to the Seventh Annual Report of the Poor Law Board.)

P.S.—Since writing the above I have received a communication from the Bolton Union, and I have now the gratification of stating that the Guardians of that important Union have resolved, by a considerable majority, to build a workhouse adequate to the wants of their Union.

H. B. F.

Manchester District.

Table showing the Pauperism of each Union within this District for the Twelfth Week of the December Quarter 1855, together with the Rate per Cent. of such Pauperism, based on the estimated Population of 1855, and also showing the Pauperism of the Twelfth Week of the December Quarter 1854.

No.	NAMES OF UNIONS.	Estimated Population of each Union in 1855, based upon the average Rate of Increase per Cent. per Annum on the Population of England and Wales.	Total Number of Paupers (In-door and Out-door) relieved during the Twelfth Week of the December Quarter 1855.	Per Centage of Pauperism of Twelfth Week of December Quarter 1855 on the estimated Population.	Total Number of Paupers (In-door and Out-door) relieved during the Twelfth Week of the December Quarter 1854.

NOTE.—In-maintenance consists of food, clothing, and necessaries supplied for the use of the poor in the Workhouse. Out-relief consists of relief in money and kind, together with relief by way of loan (if any) to the out-door poor.

The above expenditure applies to 623 unions and parishes under the Poor Law Amendment Act, but does not include parishes under Local Acts, Gilbert's Act, and the 43d of Elizabeth (excepting those acting under the Accounts Order of the Poor Law Commissioners), the total expenditure for in-maintenance and out-relief of which in the half-year ended Lady-day 1855 may be stated at about 181,800*l*. The cost of maintaining irremovable poor is included in the above Return. The total population of England and Wales, according to the Census of 1851 was 17,927,609.

* Increase, after deducting Decrease, £112,390.

No. 27.—Summary of Returns showing the Amount of Money expended for In-maintenance and Out-door Relief in 623 Unions and Parishes, under the Poor Law Amendment Act, in England and Wales, during the Half-years ended at Michaelmas 1854 and Michaelmas 1855 respectively.

NOTE.—In-maintenance consists of the cost of food, clothing, and necessaries supplied for the use of the poor in the Workhouse. Out-relief consists of relief in money and kind, together with relief by way of loan (if any) to the out-door poor.

The above expenditure applies to 623 unions and single parishes under the Poor Law Amendment Act, but does not include parishes under Local Acts, Gilbert's Act, and the 43d of Elizabeth (excepting those acting under the accounts order of the Poor Law Commissioners), the total expenditure for in-maintenance and out-relief of which for the half-year ended Michaelmas 1855 may be stated at about 176,600*l*. The cost of maintaining irremovable poor is included in the above Return.

Total Population of England and Wales, according to the Census of 1851, 17,927,609.

* Increase, after deducting Decrease, £29,624.

No. 28.

SUMMARY STATEMENT of the Cost of the In-maintenance and Out-door Relief of Irremovable Poor only, and also of the Poor of all Classes, for the Year ended at Lady-day 1855, in 606 Unions and Single Parishes under Boards of Guardians in England and Wales.

NOTE.—The Returns for the year 1803 were obtained under an Act of the 43d Geo. III., and those for 1813, 1814, and 1815, under the Act of 55th Geo. III. For the years 1816 to 1834 inclusive the Returns were made in pursuance of Orders of the House of Commons; and from the latter period to the present time they have been called for by the Commissioners under the Poor Law Amendment Act, forming an unbroken Parliamentary series, from the year 1813 to the present time.

* The average price of wheat per quarter was obtained from the Comptroller of Corn Returns. The average price of wheat per quarter for the years 1813 to 1829 is for the year ended Christmas preceding the termination of the parochial year at the Lady-day following. For the remaining years, 1830 to 1855, the average price is for the year ended at Lady-day.

† In this year the expenditure for the relief of the poor was at the maximum.

and Wales for the year 1803, and from the year 1813 to the year 1855 inclusive; also, the Total or Decrease in each year on the Expenditure for the Relief of the Poor compared with the

‡ The Poor Law Amendment Act received the Royal Assent on the 14th August 1834.
§ The expenditure for the relief of the poor was at the minimum in this year.
‖ This amount includes the sum of £57,111, the expense incurred under the Act for taking the Census of 1841.
¶ Until the year 1839 the expense incurred in removal of paupers and travelling expenses of overseers was included under the head of "Law Charges;" in that and subsequent years it has been entered under the head of "other purposes."
** Included in previous column with "County and Borough Rate."
†† The expenses of Parish Property are now returned with "Money Expended for all other purposes."
